SUBJECT: PURPLE LINE WESTSIDE SUBWAY EXTENSION TRANSIT PROJECT SECTION 2

ACTION: APPROVE RECOMMENDATIONS

RECOMMENDATION

CONSIDER:

- A. HOLDING a public hearing on the proposed Resolution of Necessity; and
- B. ADOPTING a Resolution of Necessity authorizing the commencement of an eminent domain action to acquire two permanent subsurface tunnel easements and two temporary subsurface grouting easements in the properties identified as Parcels: W-3601, W-3601D, W-3601E (APN: 4319-001-902; 4319-001-901); W-3605 (APN: 4319-001-900) (hereinafter the "Property").

(REQUIRES TWO-THIRDS VOTE OF THE BOARD)

BACKGROUND

Acquisition of the above-referenced permanent subsurface tunnel easements and temporary subsurface grouting easements ("Easements"), referred to herein as "Property" is required for the construction of and operation of the Westside Purple Line Westside Extension Project Section 2 ("Project"). The Easements are required for the tunnel alignment that will connect the Century City Constellation station with the Beverly Hills Wilshire Rodeo Station.

A written offer was delivered to the Owners of Record ("Owners"), as required by California Government Code Section 7267.2. The Owners have not accepted the offer of Just Compensation made by the Los Angeles County Metropolitan Transportation Authority ("LACMTA"), and the parties have not at this time reached a negotiated settlement. Because the Property is necessary for construction of the Project, staff recommends the acquisition of the Property through eminent domain to determine the value of the Property and to maintain the Project schedule.

In accordance with the provisions of the California Eminent Domain Law, Sections 30503, 30600, 130051.13, 130220.5 and 132610 of the California Public Utilities Code (which authorize the public acquisition of property by eminent domain), California Code of Civil Procedure Sections 1240.510-530 (which authorize the acquisition of property appropriated to public use for a compatible public

use), and California Code of Civil Procedure Sections 1240.610-700 (which authorize the acquisition of property appropriated to a public use for a more necessary public use), LACMTA has prepared and mailed notice of this hearing to the Owners informing them of their right to appear at this hearing and be heard on the following issues: (1) whether the public interest and necessity require the Project; (2) whether the Project is planned or located in the manner that will be most compatible with the greatest good and the least private injury; (3) whether the Property is necessary for the Project; (4) whether either the offer required by Section 7267.2 of the Government Code has been made to the Owner, or the offer has not been made because the Owner cannot be located with reasonable diligence; (5) whether environmental review of the Project has complied with the California Environmental Quality Act (CEQA) and (6) whether LACMTA has given the notice(s) and followed the procedures that are a prerequisite to the exercise of the power of eminent domain.

After all of the testimony and evidence has been received by LACMTA from all interested parties, LACMTA must make a determination as to whether to adopt the proposed Resolutions of Necessity to acquire the Property by eminent domain. In order to adopt the resolutions, LACMTA must, based on the evidence before, and by a vote of two-thirds of all the members of its governing body, find and determine that the conditions stated in the items 1 - 6 above exist. Attached is evidence submitted by staff that supports adoption of the Resolutions that have been approved by counsel, and which sets forth the required findings (Attachment A).

DETERMINATION OF SAFETY IMPACT

This Board action will not have an impact on LACMTA's safety standards.

FINANCIAL IMPACT

The funding for the acquisition of the Property is included in the approved fiscal year 2019, Project budget under Measure R Project 865522 (Purple Line Westside Extension Project Section 2), in Cost Center 8510, and Account Number 53103 (Acquisition of Land).

Impact to Budget

The approved FY19 budget is designated for the Westside Purple Line Extension, Section 2 is Measure R 35% Transit Capital Expansion and does not have an impact to operations funding sources. This Project is not eligible for Proposition A and C funding due to the proposed tunneling element of the Project. No other funds were considered.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Equity Platform Framework Consistency

Implementation of the State's eminent domain laws assures that equity is afforded to property owners to engage and have a voice in the decision making process with regards to the acquisition of their property.

Strategic Plan Consistency

The Board action is consistent with Metro Vision 2028 Goal #1: Provide high quality mobility options that enable people to spend less time traveling. Adoption of the Resolution of Necessity is a required step to acquire these properties for the Westside Purple Line Extension which will provide an additional mobility option.

NEXT STEPS

If this action is approved by the Board, the LACMTA's condemnation counsel will be instructed to take all steps necessary to commence legal proceedings in a court of competent jurisdiction to acquire the Property interest by eminent domain. Counsel will also be directed to seek and obtain an Order of Prejudgment Possession in accordance with the provisions of the eminent domain law.

A. Environmental Review

The Los Angeles County Metropolitan Transportation Authority (“LACMTA”) and the Federal Transit Administration (“FTA”) prepared a joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the Project pursuant to the National Environmental Policy Act (NEPA) (42 USC Section 4321, et seq.) and the California Environmental Quality Act (CEQA) (Cal. Public Resources Codes Section 21000 et seq.) A Draft EIS/EIR (DEIS/DEIR) was circulated for public review and comment. The Final EIS/EIR (FEIS/FEIR) was released in March 2012 for public review. On April 26, 2012, the LACMTA Board certified the Final EIS/EIR under CEQA and approved Phase 1 of the Project (Wilshire/Fairfax to Wilshire/La Cienega). On May 24, 2012, LACMTA’s Board adopted findings regarding the reasonableness of the Constellation Station location and approved Phase 2 of the Project (Wilshire/La Cienega to Constellation/Avenue of the Stars) and Phase 3 of the Project (Constellation/Avenue of the Stars to Westwood/VA Hospital). On

August 9, 2012, FTA issued its Record of Decision (ROD). On November 22, 2017, FTA issued a Final Supplemental Environmental Impact Statement (FSEIS), and Supplemental Record of Decision (ROD) for Section 2 of the Project.

Due to their bulk, the FEIS/FEIR and the FSEIS are not included in the Board's agenda packet. However, these environmental review documents are publicly available; are incorporated herein by reference; and are made a part of the record of the hearing (including documents and information relied upon by the LACMTA Board) on this Resolution of Necessity.

B. The public interest and necessity require the Project.

The need for the Project is based on population and employment growth, the high number of major activity centers served by the Project, high existing transit usage, and severe traffic congestion in Los Angeles County. The Project area bisects 12 large population and employment centers, all of which are served by extremely congested road networks that will deteriorate further with the projected increase in population and jobs. This anticipated growth will further affect transit travel speeds and reliability, even with a dedicated lane for express bus service on Wilshire Boulevard. The public interest and necessity require the Project for the following specific reasons:

1. The population and employment densities in the Project area are among the highest in the metropolitan region. Approximately five percent of the Los Angeles County population and 10 percent of the jobs are concentrated in the Project area.
2. Implementation of the Project will result in a reduction of vehicle miles per day and reduction of auto air pollutants.
3. The Project will relieve congestion on the already over capacity 1-405 San Diego and the 1-10 Santa Monica Freeways and surrounding major thoroughfares. In addition, it will reduce the parking demands in the Westside area by providing an alternative means of transportation, competitive in rush-hour travel times with the automobile.
4. The Project will be a major link in the existing county-wide rail transit system, and will thereby provide alternative means of transportation during fuel crises and increased future traffic congestion.
5. The Project will improve transportation equity by meeting the need for improved transit service of the significant transit-dependent population within the Project area.
6. The Project will help meet Regional Transit Objectives through the Southern California Association of Governments' (SCAG's) Performance Indicators of mobility, accessibility, reliability, and safety.

It is recommended that based on the above evidence, the Board find and determine that the public interest and necessity require the Project.

C. The Project is planned or located in the manner that will be most compatible with the greatest public good and least private injury.

As part of the environmental review process for the Project, an Alternatives Analysis (AA) Study was initiated in 2007 to identify all reasonable, fixed-guide way, alternative alignments and transit technologies within the proposed Project Area. The fixed-guide way alternative alignments studied and analyzed during the AA process were heavy rail transit (HRT), light rail transit (LRT), bus rapid transit (BRT), and monorail (MR). Due to its capacity to meet the anticipated ridership demand and limit the number of transfers, HRT was identified as the preferred technology for further study.

In January 2009, the Metro Board approved the AA Study and authorized preparation of a Draft Environmental Impact Statement/Draft Environmental Impact Report (DEIS/DEIR). A total of seven alternatives, including five heavy rail subway (HRT) Build Alternatives, a No Build Alternative, and a relatively low-cost Transportation System Management (TSM) Alternative, were presented in the DEIS/DEIR. The DEIS/DEIR was circulated and reviewed by interested and concerned parties, including private citizens, community groups, the business community, elected officials and public agencies. Public hearings were held to solicit citizen and agency comments.

In October 2010, the Board approved the DEIS/DEIR and the Wilshire Boulevard to Santa Monica HRT option was selected as the Locally Preferred Alternative (LPA) for further analysis in the FEIS/FEIR. The FEIS/FEIR was released in March 2012 for public review. As referenced above, on April 26, 2012, the Board certified the FEIS/FEIR; on May 24, 2012, the Board approved the route and station locations for the Project; on August 9, 2012, FTA issued a ROD; and, on November 22, 2017, FTA issued a Supplemental ROD for Section 2 of the Project.

The approved LPA will extend HRT (as subway) approximately nine (9) miles from the existing Metro Purple Line terminus at the Wilshire/ Western Station to a new western terminus at the West Los Angeles Veterans Affairs Hospital (Westwood/ VA Hospital Station). The LPA will include seven new stations spaced in approximately one-mile intervals, as follows:

- Wilshire/La Brea
- Wilshire/Fairfax
- Wilshire/La Cienega
- Wilshire/Rodeo
- Century City
- Westwood/UCLA
- Westwood/VA Hospital

LACMTA does not anticipate that the Project will cause significant injury to the BHUSD property, including the displacement or relocation of certain owners and users of private or public property. However, no other alternative locations for the Project provide greater public good with less private injury. Therefore, the Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury.

D. The Property is necessary for the Project.

LACMTA's Property Impact Statements were certified on October 3, 2018 and are attached hereto as Exhibit "A". The Property Impacts Statements set forth the permanent subsurface tunnel easements and the temporary subsurface grouting easements needed for the Project. The Property is required for construction and operation of the underground tunnel connecting Wilshire/Rodeo Station and Century City/Constellation Station. The permanent subsurface easements and temporary subsurface grouting easements required for the Project are listed and described in the Property Impact Statement. The legal description of the required permanent subsurface tunnel easements is attached to each Resolution of Necessity as Exhibit A, and is depicted on the Plat Map attached to each Resolution of Necessity as Exhibit B. The Property requirements were chosen based upon the approved FEIS/FEIR for the Project referenced above.

Staff recommends that the Board find that the acquisition of the Property is necessary for the Project.

E. LACMTA's proposed use of the Property is compatible with the high school use (California Code of Civil Procedure Sections 1240.510-530).

1. The easements will not unreasonably interfere with or impair the continuance of the existing high school use.

As set forth in LACMTA's Property Impact Statements, the high point of the permanent subsurface tunnel easement ranges from approximately 34 feet to 63 feet below the existing ground surface of the high school. The temporary grouting easements are needed for ground treatment (including the injection of grout into the soil using small diameter pipes drilled horizontally from adjacent property around the tunnel zone) in order to control groundwater flows, stabilize the soils, and minimize ground losses. None of the areas included within the proposed permanent subsurface easement or temporary grouting easements are used by the high school.

In addition, as part of the environmental review process, LACMTA researched where tunnels have been safely constructed under schools or where schools have been constructed above tunnels. A few examples in North America include, the Camino Nuevo Charter Academy in Los Angeles, California (which sits above the LACMTA Red Line), the Northwest School in Seattle, Washington, Bentley School in Oakland / Berkeley, California, East Sylvan Middle School in Portland, Oregon, West Portal Elementary School in San Francisco, California, and Rooftop Elementary School in San Francisco, California. (See, "Reply to Exponent Responses" dated May 15, 2012, available on LACMTA's website, and incorporated herein by reference.) These examples demonstrate that the existing high school use is compatible with the Project.

The permanent subsurface tunnel easements and temporary subsurface grouting easements will not cause an unreasonable interference with, or impairment of, the existing high school use.

2. The Project will not unreasonably interfere with or impair the continuance of the existing high school use.

a. The High School will not need to be relocated or displaced.

As further set forth in LACMTA's Property Impact Statements, there is no requirement for the high school to be relocated or displaced either during or after construction of the Project.

b. Any potential noise and vibration impact from the construction and operation of the tunnels will be negligible.

As stated in LACMTA's Property Impact Statements, LACMTA's Construction Requirements and Techniques include the following:

“THE TUNNELS SHALL BE EXCAVATED BY TUNNEL BORING MACHINES (TBMS) WITH POSITIVE FACE CONTROL APPROPRIATE FOR THE SOIL CONDITIONS THAT WILL BE ENCOUNTERED ON THE PROJECT. THESE MACHINES EXCAVATE THE TUNNEL IN A MANNER THAT LIMITS DISTURBANCE TO THE SURROUNDING GROUND, THEREBY MINIMIZING THE IMPACT AT THE SURFACE. CONTRACT SPECIFICATIONS INCLUDE REQUIREMENTS GOVERNING SUBSURFACE SETTLEMENT AND FOR OPERATING THE TBMS. THE TBMS' PERFORMANCE WILL BE CONTINUOUSLY MONITORED FROM WITHIN THE TUNNEL AND FROM THE GROUND SURFACE USING SURVEYING AND GROUND MOVEMENT DETECTION INSTRUMENTS. A FINAL SEGMENTAL TUNNEL LINING WILL BE ERECTED FROM WITHIN THE TBM AS THE TBM ADVANCES, PROVIDING IMMEDIATE PERMANENT SUPPORT OF THE GROUND AND SERVE AS THE FINAL TUNNEL LINING. THE TUNNEL HAS BEEN DESIGNED TO SUPPORT THE EXISTING SURFACE IMPROVEMENTS.”

LACMTA's Construction Impacts are described as follows:

“THE CONSTRUCTION AND OPERATION OF THE SUBWAY TUNNELS SHALL RESULT IN LITTLE OR NO NOISE OR VIBRATION IMPACT EXCEPT FOR:

- I. ANY PERCEPTIBLE NOISE OR VIBRATION DURING CONSTRUCTION WILL BE BELOW METRO CRITERIA, FEDERAL, STATE AND LOCAL ORDINANCES

DESCRIBED IN THE PROJECT SPECIFICATIONS (01 56 19).

II. THE OPERATION OF THE SUBWAY PROJECT WILL NOT RESULT IN ADVERSE OPERATIONAL NOISE OR VIBRATION IMPACTS TO THE OCCUPANTS OF THIS PROPERTY

METRO HAS PLANNED AND DESIGNED THE PROJECT TO PROTECT EXISTING BUILDINGS. IN THE UNLIKELY EVENT THAT IMPACTS TO THE EXISTING BUILDING OCCURS AS A RESULT OF METRO'S ACTION, IT IS METRO'S POLICY TO ADDRESS SUCH ISSUES EXPEDITIOUSLY. THE REPAIR WORK, IF REQUIRED, SHALL BE SCHEDULED TO MINIMIZE DISRUPTION AND INCONVENIENCE TO OCCUPANTS AND OTHER USES OF THE PROPERTY."

The Project will not cause unreasonable interference with, or impairment of, the high school's existing use.

c. The FSEIS addressed subsurface gas risks during construction.

Chapter 4 of the FSEIS (incorporated herein by reference) addresses, among other matters, subsurface gas conditions and oil wells during construction. Given the ground conditions, existing gas concentrations, and tunneling methods to be used, there is not a plausible mechanism by which the proposed tunneling could cause a substantial amount of gas to migrate to or be released from the ground surface. Although there is an existing risk of methane or hydrogen sulfide gas migrating from the ground to the adjacent buildings or being released to the ground surface, the incremental risk of such a release due to tunneling is negligible.

d. The FSEIS addressed subsurface gas risks during operations.

Chapter 4 of the FSEIS (incorporated herein by reference) addresses, among other matters, subsurface gas conditions and oil wells during operation. The overall level of risk with the potential presence of methane and hydrogen sulfide gas along the Section 2 alignment, including through Beverly Hills High School, is low. LACMTA has specified design and construction measures to address gassy environments during operation of the Project. Tunnels and stations will be designed to provide a redundant protection system against gas intrusion hazard. The FSEIS concludes that the presence of the constructed tunnel will have no influence on the long-term migration of soil to the ground surface or into buildings or increase the risk of explosion, resulting in no adverse effect.

3. Additionally, neither the easements nor the Project will unreasonably interfere with or impair the continuance of the high school use which may reasonably be expected to exist in the future.

LACMTA is aware that BHUSD is considering a Beverly Hills High School (“BHHS”) Modernization Project: Building B-1 and B-2. According to BHUSD’s website, this includes a full structural seismic retrofit and historic renovation. Building B-1 would include a media center; college and career centers; new public restrooms; teacher work rooms; staff offices; and reading center. Building B-2 would include 10 classrooms with flexible partition walls; new public restrooms; conference and work rooms; speech and independent study areas; principal and staff offices; counseling center; and ASB center. The Modernization Project may also include a proposed Building C, which would include a new athletics building and an underground parking structure. To LACMTA’s knowledge, formal plans for the Modernization Project have not yet been approved by BHUSD.

LACMTA has obtained copies of general plans for the Modernization Project. This includes the overall site plan, and the plans for Building C. These plans are attached hereto as Exhibits “B-1” and “B-2”.

If BHUSD proceeds with the plans for Building C, LACMTA’s permanent subsurface tunnel easement would encroach into a small area within the underground parking structure. LACMTA has prepared a diagram showing the permanent subsurface tunnel easement with Building C super-imposed. (See Exhibit “C”) LACMTA’s permanent subsurface easements and temporary subsurface grouting easements would not preclude an underground parking structure from being constructed. But, based upon BHUSD’s plans for Building C, BHUSD would have to re-design a portion of the underground parking structure to avoid the encroachment with LACMTA’s subsurface easement area.

The FSEIS issued by FTA addresses this issue. The FSEIS confirms that LACMTA and BHUSD can collaborate so that BHUSD’s Building C can be re-designed to safely accommodate LACMTA’s tunnel construction. The costs incurred by BHUSD to re-design Building C would be paid for by LACMTA as part of a negotiation process between LACMTA and BHUSD. In particular, the FSEIS provides (at pp. 4-89) in pertinent part:

As identified in the Final EIS/EIR, a subsurface easement would be required beneath the BHHS campus. The presence of the tunnels would not preclude the completion of the proposed BHHS Modernization Program, including the proposed Building C with subterranean parking. Through collaboration between Metro and BHHS designers, the building structures and their foundations can be designed to safely accommodate the tunnel construction and Building C. The Division of the State Architect has offered to work with both parties to mediate a design solution. Any costs incurred by BHUSD to cover design modifications to Building C would

be covered through negotiations of the subsurface easement agreements with Metro.

LACMTA's engineers have reviewed the plans for Building C and have estimated BHUSD's costs to cover design modifications. These costs have been incorporated into LACMTA's appraisal of the compensation to be paid to BHUSD for LACMTA's acquisition of the easements. LACMTA has offered this amount to BHUSD as part of its attempt to negotiate with BHUSD.

As a result, even considering a reasonably expected future use of the high school, LACMTA's proposed easements and Project will not unreasonably interfere with such future use.

F. Alternatively, LACMTA's proposed use of the Property is a more necessary public use than BHUSD's existing use.

LACMTA is not seeking to exercise its eminent domain authority to displace the Beverly Hills High School. LACMTA's Project is a compatible public use with the existing and potential future high school use. Yet, even if LACMTA's Project is not completely compatible in all respects with the high school use, for the reasons stated above, LACMTA's Project is a more necessary public use under applicable law. As such, LACMTA is legally authorized to acquire the easements by eminent domain.

G. Offers were made in compliance with Government Code Section 7267.2.

California Code of Civil Procedure Section 1245.230 requires that a Resolution of Necessity contain a declaration that the governing body has found and determined that either the offer required by Section 7267.2 of the California Government Code has been made to the Owner, or the offer has not been made because the Owner cannot be located with reasonable diligence.

California Government Code Section 7267.2 requires that an offer be made to the Owner and in an amount which the agency believes to be just compensation. The amount must not be less than the agency's approved appraisal of the fair market value of the property. In addition, the agency is required to provide the Owner with a written statement of, and summary of the basis for, the amount it established as just compensation.

Staff has taken the following actions as required by California law for the acquisition of the Property:

1. Retained an independent appraiser to determine the fair market value of the Property;
2. Reviewed and approved the appraisals, and established the amount it believes to be just compensation;
3. Determined the Owners of the Property by examining the county assessor's record a preliminary title report, and occupancy of the Property;

4. Made a written offer to the Owners for the full amount of just compensation - which was not less than the approved appraised value;
5. Provided the Owners with a written statement of, and summary of the basis for, the amount established as just compensation with respect to the foregoing offer.

It is recommended that based on the above Evidence, the Board find and determine that the offer required by Section 7267.2 of the California Government Code has been made to the Owners.

H. Metro has fulfilled the necessary statutory prerequisites.

LACMTA is authorized to acquire property by eminent domain for the purposes contemplated by the Project under Public Utilities Code §§ 30503, 30600, 130051.13, and 130220.5; Code of Civil Procedure §§ 1230.010-1273.050; and Article I, § 19 of the California Constitution.

I. Metro has complied with the California Environmental Quality Act.

As set forth above, LACMTA has complied with CEQA.

Accordingly, LACMTA also fulfilled all statutory prerequisites under Code of Civil Procedure § 1240.030 and Government Code § 7267.2 to acquire the Property by eminent domain.

CONCLUSION

Staff recommends that the Board adopt the Resolution of Necessity.

1. LOCATION AND DESCRIPTION:

THE PROPERTY CONTAINING THE RIGHT OF WAY ACQUISITIONS IDENTIFIED HEREIN CONSISTS OF 3 PARCELS, CONTAINING IN TOTAL, APPROXIMATELY 6 ACRES. THE SITE IS LOCATED DIRECTLY TO THE WEST OF THE MAIN CAMPUS LOCATED ON PARCEL 4319-001-900 AND IS DEVELOPED WITH THE HEATH AVENUE AND THE PORTION OF BEVERLY HILLS UNIFIED SCHOOL DISTRICT HIGH SCHOOL CAMPUS WEST OF HEATH AVENUE.

2. NEED FOR THE PROPERTY:

THE PROJECT WILL REQUIRE 3 DIFFERENT PROPERTY INTERESTS AS DESCRIBED BELOW:

- A. PARCEL W-3601 IS NEEDED FOR THE TUNNEL ALIGNMENT (AS SHOWN ON EXHIBIT B-1) FOR THE WESTSIDE PURPLE LINE EXTENSION SECTION 2 (PROJECT) THAT TRAVELS UNDERNEATH THE PROPERTY DESCRIBED ABOVE. CONSTRUCTION AND OPERATION OF THE PROJECT SHALL REQUIRE THE ACQUISITION OF A SUBSURFACE EASEMENT (SSE) FOR THE ALIGNMENT AS SHOWN IN THE PROJECT DEFINITION DRAWINGS (SEE EXHIBIT D). THE REQUIRED RIGHT OF WAY ENVELOPE IN THE VERTICAL PLANE IS A VERTICAL DISTANCE OF APPROXIMATELY 10 FEET ABOVE THE HIGH POINT OF THE TUNNEL STRUCTURES AND APPROXIMATELY 10 FEET BELOW THE LOW POINT OF THE TUNNEL STRUCTURES. FOR THE HORIZONTAL PLANE, THE RIGHT OF WAY ENVELOPE IS DEFINED BY AN APPROXIMATELY 5 FEET OFFSET FROM THE OUTERMOST BR AND BL TUNNEL WALLS (SEE EXHIBIT E). AS THE TUNNEL TRAVERSES THE PROPERTY SOUTHWESTERLY FROM THE PARCEL'S NORTHEASTERLY PROPERTY LINE TO THE PARCEL'S SOUTHWESTERLY PROPERTY LINE, THE HIGH POINT OF SSE RANGES FROM APPROXIMATELY 53 TO 62 FEET BELOW THE EXISTING GROUND SURFACE, RESPECTIVELY (AS SHOWN ON EXHIBIT E). EXHIBIT C, RIGHT-OF-WAY MAP IS INCLUDED.
- B. PARCELS W-3601D & W-3601E (AS SHOWN ON EXHIBITS B-2 & B-3) ARE NEEDED FOR GROUND TREATMENT TO CONTROL GROUNDWATER FLOWS, STABILIZE THE SOILS, AND MINIMIZE GROUND LOSSES. GROUND TREATMENT WILL CONSIST OF INJECTING GROUT INTO THE SOIL USING SMALL DIAMETER PIPES DRILLED HORIZONTALLY FROM THE ADJACENT PROPERTY AROUND THE TUNNEL ZONE (WITHIN THE SAME VERTICAL PLANE AS THE TUNNEL SSE EXCEPT WITH 5 ADDITIONAL FEET HORIZONTALLY ON EACH SIDE) TO IMPROVE THE STRENGTH OF THE

PROPERTY IMPACT STATEMENT

SOIL. THIS IS NEEDED FOR TUNNEL EXCAVATION OUT OF THE SHAFT (LOCATED ON ADJACENT PROPERTY) INTO THE GROUND. AFTER CONSTRUCTION OF THE TUNNELS, THE GROUTING EASEMENTS ARE NO LONGER NEEDED, AND THE GROUTING PIPES WILL BE ABANDONED IN PLACE, HOWEVER THE GROUTING PIPES MAY BE REMOVED BY THE PROPERTY OWNER DURING THE EXCAVATION FOR ANY FUTURE DEVELOPMENT OF THIS SITE.

3. CONSTRUCTION REQUIREMENTS AND TECHNIQUES

THE TUNNELS SHALL BE EXCAVATED BY TUNNEL BORING MACHINES (TBMS) WITH POSITIVE FACE CONTROL APPROPRIATE FOR THE SOIL CONDITIONS THAT WILL BE ENCOUNTERED ON THE PROJECT. THESE MACHINES EXCAVATE THE TUNNEL IN A MANNER THAT LIMITS DISTURBANCE TO THE SURROUNDING GROUND, THEREBY MINIMIZING IMPACT AT THE SURFACE. CONTRACT SPECIFICATIONS INCLUDE REQUIREMENTS GOVERNING SURFACE SETTLEMENT AND FOR OPERATING THE TBMS. THE TBMS' PERFORMANCE WILL BE CONTINUOUSLY MONITORED FROM WITHIN THE TUNNEL AND FROM THE GROUND SURFACE USING SURVEYING AND GROUND MOVEMENT DETECTION INSTRUMENTS. A FINAL SEGMENTAL TUNNEL LINING WILL BE ERECTED FROM WITHIN THE TBM AS THE TBM ADVANCES, PROVIDING IMMEDIATE PERMANENT SUPPORT OF THE GROUND AND SERVE AS THE FINAL TUNNEL LINING. THE TUNNEL HAS BEEN DESIGNED TO SUPPORT THE EXISTING SURFACE IMPROVEMENTS.

CONSTRUCTION IMPACTS:

THE CONSTRUCTION AND OPERATION OF THE SUBWAY TUNNELS SHALL RESULT IN LITTLE OR NO NOISE OR VIBRATION IMPACT EXCEPT FOR:

- I. ANY PERCEPTIBLE NOISE OR VIBRATION DURING CONSTRUCTION WILL BE BELOW METRO CRITERIA, FEDERAL, STATE AND LOCAL ORDINANCES AS DESCRIBED IN THE PROJECT SPECIFICATIONS (01 56 19).
- II. THE OPERATION OF THE SUBWAY PROJECT WILL NOT RESULT IN ADVERSE OPERATIONAL NOISE OR VIBRATION IMPACTS TO THE OCCUPANTS OF THIS PROPERTY.

METRO HAS PLANNED AND DESIGNED THE PROJECT TO PROTECT EXISTING BUILDINGS. IN THE UNLIKELY EVENT THAT IMPACTS TO EXISTING BUILDING OCCURS AS A RESULT OF METRO'S ACTION; IT IS METRO'S POLICY TO ADDRESS SUCH ISSUES EXPEDITIOUSLY. THE REPAIR WORK, IF REQUIRED, SHALL BE SCHEDULED TO MINIMIZE DISRUPTION AND INCONVENIENCE TO OCCUPANTS AND OTHER USERS OF THE PROPERTY.

PROPERTY IMPACT STATEMENT

FUTURE CONSTRUCTION MAY BE ACCOMMODATED OVER THE METRO RIGHT OF WAY WHEN CONDUCTED IN ACCORDANCE WITH METRO'S ADJACENT CONSTRUCTION MANUAL. ANY FUTURE DEVELOPMENT PLANS AT THIS LOCATION ARE SUBJECT TO METRO'S REVIEW AND APPROVAL.

4. OTHER CONSIDERATIONS

PROPERTY IMPACT STATEMENT

PREPARED:	TUESDAY SEPTEMBER 11, 2018
REFERENCE DRAWING:	R-3036
REFERENCE PLAT:	W-3605
PARCEL ADDRESS:	241 S. MORENO DRIVE, BEVERLY HILLS, CA 90212
AFFECTED APN:	4319-001-900
OWNER:	LOS ANGELES UNIFIED SCHOOL DISTRICT

1. LOCATION AND DESCRIPTION:

THE PROPERTY CONTAINING THE RIGHT OF WAY ACQUISITIONS IDENTIFIED HEREIN CONSISTS OF 3 PARCELS, CONTAINING IN TOTAL, APPROXIMATELY 19 ACRES. THE SITE IS LOCATED ALONG THE WEST SIDE OF MORENO DRIVE, BETWEEN DURANT DRIVE AND OLYMPIC BOULEVARD AND IS DEVELOPED WITH THE MAIN BEVERLY HILLS UNIFIED SCHOOL DISTRICT HIGH SCHOOL CAMPUS.

2. NEED FOR THE PROPERTY:

A. PARCEL W-3605 IS NEEDED FOR THE TUNNEL ALIGNMENT FOR THE WESTSIDE PURPLE LINE EXTENSION SECTION 2 (PROJECT) THAT TRAVELS UNDERNEATH THE PROPERTY DESCRIBED ABOVE. CONSTRUCTION AND OPERATION OF THE PROJECT SHALL REQUIRE THE ACQUISITION OF A SUBSURFACE EASEMENT (SSE) FOR THE ALIGNMENT AS SHOWN IN THE PROJECT DEFINITION DRAWINGS (SEE EXHIBIT D). THE REQUIRED RIGHT OF WAY ENVELOPE IN THE VERTICAL PLANE IS A VERTICAL DISTANCE OF APPROXIMATELY 10 FEET ABOVE THE HIGH POINT OF THE TUNNEL STRUCTURES AND APPROXIMATELY 10 FEET BELOW THE LOW POINT OF THE TUNNEL STRUCTURES. FOR THE HORIZONTAL PLANE, THE RIGHT OF WAY ENVELOPE IS DEFINED BY AN APPROXIMATELY 5 FEET OFFSET FROM THE OUTERMOST BR AND BL TUNNEL WALLS (SEE EXHIBIT E). AS THE TUNNEL TRAVERSES THE PROPERTY SOUTHWESTERLY FROM THE PARCEL'S NORTHEASTERLY PROPERTY LINE TO THE PARCEL'S SOUTHWESTERLY PROPERTY LINE, THE HIGH POINT OF SSE RANGES FROM APPROXIMATELY 34 TO 63 FEET BELOW THE EXISTING GROUND SURFACE, RESPECTIVELY (AS SHOWN IN EXHIBIT E). EXHIBIT C, RIGHT-OF-WAY MAP IS INCLUDED.

3. CONSTRUCTION REQUIREMENTS AND TECHNIQUES

THE TUNNELS SHALL BE EXCAVATED BY TUNNEL BORING MACHINES (TBMS) WITH POSITIVE FACE CONTROL APPROPRIATE FOR THE SOIL CONDITIONS THAT WILL BE ENCOUNTERED ON THE PROJECT. THESE MACHINES EXCAVATE THE TUNNEL IN A MANNER THAT LIMITS DISTURBANCE TO THE SURROUNDING GROUND, THEREBY MINIMIZING IMPACT AT THE SURFACE. CONTRACT SPECIFICATIONS INCLUDE REQUIREMENTS GOVERNING SURFACE SETTLEMENT AND FOR OPERATING THE TBMS. THE TBMS' PERFORMANCE WILL BE CONTINUOUSLY MONITORED FROM WITHIN THE TUNNEL AND FROM THE GROUND SURFACE USING SURVEYING AND GROUND

PROPERTY IMPACT STATEMENT

MOVEMENT DETECTION INSTRUMENTS. A FINAL SEGMENTAL TUNNEL LINING WILL BE ERECTED FROM WITHIN THE TBM AS THE TBM ADVANCES, PROVIDING IMMEDIATE PERMANENT SUPPORT OF THE GROUND AND SERVE AS THE FINAL TUNNEL LINING. THE TUNNEL HAS BEEN DESIGNED TO SUPPORT THE EXISTING SURFACE IMPROVEMENTS.

CONSTRUCTION IMPACTS:

THE CONSTRUCTION AND OPERATION OF THE SUBWAY TUNNELS SHALL RESULT IN LITTLE OR NO NOISE OR VIBRATION IMPACT EXCEPT FOR:

- I. ANY PERCEPTIBLE NOISE OR VIBRATION DURING CONSTRUCTION WILL BE BELOW METRO CRITERIA, FEDERAL, STATE AND LOCAL ORDINANCES AS DESCRIBED IN THE PROJECT SPECIFICATIONS (01 56 19).
- II. THE OPERATION OF THE SUBWAY PROJECT WILL NOT RESULT IN ADVERSE OPERATIONAL NOISE OR VIBRATION IMPACTS TO THE OCCUPANTS OF THIS PROPERTY.

METRO HAS PLANNED AND DESIGNED THE PROJECT TO PROTECT EXISTING BUILDINGS. IN THE UNLIKELY EVENT THAT IMPACTS TO EXISTING BUILDING OCCURS AS A RESULT OF METRO'S ACTION; IT IS METRO'S POLICY TO ADDRESS SUCH ISSUES EXPEDITIOUSLY. THE REPAIR WORK, IF REQUIRED, SHALL BE SCHEDULED TO MINIMIZE DISRUPTION AND INCONVENIENCE TO OCCUPANTS AND OTHER USERS OF THE PROPERTY.

FUTURE CONSTRUCTION MAY BE ACCOMMODATED OVER THE METRO RIGHT OF WAY WHEN CONDUCTED IN ACCORDANCE WITH METRO'S ADJACENT CONSTRUCTION MANUAL. ANY FUTURE DEVELOPMENT PLANS AT THIS LOCATION ARE SUBJECT TO METRO'S REVIEW AND APPROVAL.

4. OTHER CONSIDERATIONS

OCCUPANTS OF THIS PROPERTY WILL NOT BE REQUIRED TO RELOCATE.

5. RECOMMENDED ACQUISITION

AS DESCRIBED ABOVE AND SHOWN IN EXHIBITS A, LEGAL DESCRIPTIONS, AND EXHIBITS B, PLAT MAPS, IS RECOMMENDED.

Section 3.

The property interest consists of the acquisition of a permanent subsurface tunnel
easement , and two temporary subsurface grouting easements, as described more
specifically in the legal description (Exhibit A), depicted on the Plat Map (Exhibit B), and
described in the Subsurface Easement (Exhibit C), attached hereto (hereinafter, the
"Property"), incorporated herein by this reference.

Section 4.

(a.) The acquisition of the above-described Property is necessary for the
development, construction, operation, and maintenance of the Westside Purple Line

Section 7.

That notice of intention to adopt this resolution was given by first class mail to each person whose Property is to be acquired by eminent domain in accordance with Section 1245.235 of the Code of Civil Procedure and a hearing was conducted by the Board on the matters contained herein.

Counsel is also authorized and directed to seek and obtain an Order for Prejudgment Possession of said Property in accordance with the provisions of the eminent domain law and is directed that the total sum of probable just compensation be deposited with the State Treasurer or the Clerk of the Superior Court. Counsel may enter into stipulated Orders for Prejudgment Possession and/or Possession and Use Agreements, where such agreements constitute the functional equivalent of an

Order for Prejudgment Possession. Counsel is further authorized to correct any errors or to make or agree to any non-material changes to the legal description of the real property that are deemed necessary for the conduct of the condemnation action or other proceedings or transactions required to acquire the Property.

EXHIBIT C

SUBSURFACE EASEMENT

A perpetual, assignable and exclusive subsurface easement ("Easement") to the LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY ("LACMTA"), its successors, and assigns.

This Easement shall be for use by LACMTA and its "Permitees" (which term refers to the officers, directors, employees, agents, contractors, licensees, customers, visitors, invitees, tenants and concessionaires of LACMTA) to construct, maintain, repair, operate, replace, relocate, remove, use and occupy LACMTA's improvements for mass transit purposes, including, but not limited to, a portion of an underground rail tunnel, and all incidental uses related thereto ("LACMTA's Facilities"). LACMTA intends to use the Easement to operate and provide rail train service as part of LACMTA's rail transit operations.

There shall be no building or use of any property upon, above, or contiguous to the Easement that would interfere with, damage or endanger LACMTA's Facilities, or the excavation, construction, maintenance, replacement, enjoyment or use thereof. In order to ensure the structural integrity of LACMTA's Facilities, there shall be no excavation or construction above or adjacent to the Easement without LACMTA's express written consent, and after LACMTA's review of the plans and specifications for excavation or construction. LACMTA's right to consent to such excavation or construction is limited to this purpose, and LACMTA may not unreasonably withhold its consent.

The Easement and all the provisions hereof shall inure to the benefit of, and be binding upon, all parties who claim an interest in the property and LACMTA, and their respective successors and assigns.
