BACKGROUND

It is customary practice for Management Audit Services to deliver the quarterly audit report. This report covers Q1 of FY 2021.

DISCUSSION

MAS provides audit support to Metro's Chief Executive Officer (CEO) and the CEO's senior leadership team in support of the agency's ability to provide responsive, accountable and trustworthy governance. The department performs internal and external audits. Internal audits evaluate the processes and controls within the agency while external audits analyze contractors, cities and/or non-profit organizations that are recipients of Metro funds. The department delivers management audit services through functional groups which are Performance Audit, Contract, Financial and Compliance Audit, and Audit Support. Performance Audit is mainly responsible for internal audits related to Operations, Finance and Administration, Planning and Development, Program Management, Information Technology, Communications, Risk, Safety and Asset Management including the Chief Executive Office and other internal areas. Contract, Financial and Compliance Audit is primarily responsible for external audits in Planning, Program Management and Vendor/Contract Management. MAS's functional units provide assurance to the public that internal processes and programs are being managed efficiently, effectively, economically, ethically, and equitably and that

desired outcomes are being achieved. This assurance is provided by the MAS's functional units conducting audits of program effectiveness; economy and efficiency, internal controls, and compliance. Audit Support is responsible for administration, financial management, budget coordination, and audit follow-up and resolution tracking.

The summary of MAS activity for the quarter ending September 30, 2020 is as follows:

Executive Summary

In Progress Audit
as of September 30, 2020

Summary of Audit Activity by Department
Reporting Period
July 1, 2020 – September 30, 2020

Summary of In Progress Audit Activity

Management Audit Services (MAS) have 95 in progress projects as of September 30, 2020; which include 9 performance audits and 86 contract, financial and compliance audits. The in-progress performance audits are listed in Appendix A.

As the reporting period, there are 58 MAS open audit recommendations. In addition, there are 21 open OIG audit recommendations.

Summary of Q1 Completed Audit Activity

MAS completed 7 projects and closed 32 recommendations. The projects comprised of 3 performance audits; 3 contract, financial and compliance audits; and 1 other audit issued by the contracted independent certified public accountant (CPA) firms.

The completed performance audits are highlighted on page 4. The completed contract, financial and compliance audits are highlighted on page 5. The financial and compliance audits of Metro issued by the external CPA firms are highlighted on page 6. A summary of closed and open audit recommendations for MAS and OIG are included on page 7.

Performance Audits

This section includes performance audits done according to Generally Accepted Government Auditing Standards in addition to other types of projects performed by the Performance Audit team to support Metro. The other types of projects may include independent reviews, analysis or assessments of select areas. The goal of non-audit projects is to provide Metro with other services that help support decision making and promote organizational effectiveness.

Performance Audit of Wayside Systems Engineering and Maintenance Training

The audit objectives were to determine whether Wayside Systems documented and tracked existing and newly hired staff's completion of the required training courses (technical, safety/mandated) including required refresher courses; maintained required certification records per position and the records were current; and employees had the appropriate certification for their task assignment.

MAS found that newly hired Signal, Track, and Traction Power inspectors of Wayside Systems Engineering and Maintenance took the required training courses, and that the training curriculum for inspectors included the required technical training courses as outlined in the Preventative Maintenance Plan for Signal, Track, and Traction Power. In addition, we found that employees had the appropriate certificate for their task assignments. However, we found that a formal refresher training program was not in place, some training courses were not completed in a timely manner by employees, and that the supporting documentation for required training courses was not in a central location. In some instances, the supporting documentation was missing, specifically for the Track department. We identified opportunities to improve the training registration process, and the tracking of upcoming training courses, including maintaining all information in one centralized location.

Management concurred with all recommendations and is implementing the corrective actions.

Assessment of Wayside Systems Engineering Maintenance Training

MAS contracted with CodeRed Business Solutions Inc. to conduct an assessment of the Wayside Systems Engineering Maintenance. The objectives of the assessment were to review the Wayside Systems Engineering and Maintenance training for Track, Signal and Traction Power and to identify any potential risks to the validity, effectiveness, and quality of such training. This assessment includes five recommendations for three findings and eight recommended actions for eight Business Process Improvements along with a description of the benefits that can be derived if these opportunities are adopted by Wayside Systems Engineering and Maintenance.

Special Review of the CRRC MA Corporation (CRRC) Supply Chain

MAS contracted with Talson Solutions, LLC (Talsol) to conduct a special review of the CRRC MA Corporation (the US subsidiary of China Railway Rolling Stock Corporation Ltd) Supply Chain. The objectives of the special review were to evaluate the completeness and accuracy of CRRC's statements provided to Metro on the non-use or limited use of mica in the carbody section and major systems of Metro's train equipment. Talson also assessed the CRRC California subsidiary's compliance with the California Transparency in Supply Chains Act of 2010. Talson identified two observations and four recommendations to assist Metro in managing CRRC and other suppliers.

Contract, Financial & Compliance Audits

MAS staff completed 3 independent auditor's report on agreed-upon procedures of:

- Skanska Traylor Shea (STS, JV)'s Daily Rate Cost Proposals for Delay Compensation Rates for years 2015 and 2016 under the Westside Subway Extension Project, Section 1 – Design/Build;
- CRRC MA Corporation's Accounting and Billing System Internal Control Review for the Purchase of New Heavy Rail Vehicles; and
- HDR Engineering Inc.'s interim incurred cost for the period April 25, 2014 through December 30, 2017 for the Southern California Regional Interconnector Project.

MAS staff reviewed \$41 million of funds and identified \$1 million or 3% of funds that may be reprogrammed.

Details on Contract, Financial and Compliance Audits completed during Q1 FY 2021 are included in Appendix B.

Financial and Compliance Audits of Metro

The following highlights the financial and compliance audits of Metro completed by the external CPA firms include:

Access Services' Deferred Revenue Support – Issued July 2020

MAS contracted with BCA Watson Rice (BCA) to assist Metro in determining the total unused amount of the Deferred Revenue Support of Access Services (Access), if any, that should be returned to Metro or carried forward into a subsequent year's budget as per the Metro Memorandum of Understanding (MOU) for the fiscal year ended and as of June 30, 2019. BCA determined that the amount to be returned to Metro or available for budgetary needs in subsequent year(s) as stipulated in the MOU as of June 30, 2019 was \$3,711,539.

24	Risk, Safety & Asset Management	16-OPS-P03 Performance Audit of Accident Prevention Practices in the Operations Department	2	We recommend that the Chief Risk, Safety & Asset Management Officer raise awareness of the FOF program. 25	Risk, Safety & Asset Management	16-OPS-P03 Performance Audit of Accident Prevention Practices in the Operations Department	3	We recommend that the Chief Risk, Safety & Asset Management Officer develop additional input controls in the Transit Safe System, by designating required FOF form fields as mandatory, including Supervisors sign-off to review for accuracy of information, to prevent the close out of FOF records without completion of all required fields and to ensure quality of information is maintained.	7/31/2020

This should lead to a system implementation that would notify employees and managers about upcoming training requirements based on a 30-60-90-day outlook.	12/31/2020

No.	Area	Audit Number & Title	Rec. No.	Recommendation	Original Completion Date	Extended Completion Date
9	Human Capital & Development	20-AUD-04 Review of Controls Over Cable Television Services at Metro's Gateway Building	5	We recommend that the General Services Department Management cancel the internet service on sub-account 320469395; and if there is a legitimate business need for a separate internet account, direct the user department to request internet service under the ITS internet account with Spectrum.	1/31/2021

14	Congestion Reduction	20-AUD-06 Review of LA Metro's Freeway Service Patrol Program	6	LA Metro FSP should set a target for its Benefit-to-Cost ratio, either in comparison to the statewide average or develop its own annual target. This is especially important as costs are expected to rise over the next several years as insurance and vehicle costs continue to escalate. If such the annual target is not met, it would trigger LA Metro FSP to conduct a deeper evaluation of its program and identify potential strategies to improve the following year's performance.	10/1/2020	7/1/2021
15	Congestion Reduction	20-AUD-06 Review of LA Metro's Freeway Service Patrol Program	9	LA Metro FSP could strengthen its ability to enforce its two-beat limitation policy. We recommend that LA Metro consider including language within the agreements with tow companies that specifically prohibits a company from operating more than two beats or from having a controlling interest in another company that operates FSP tow trucks in LA County. This would include limitations on companies sharing drivers, offices, and other operation functions. This would give LA Metro more legal basis to pursue a fraudulent contractor.	6/1/2020	12/31/2020
