REGULAR BOARD MEETING JANUARY 25, 2024

## SUBJECT: MINUTES

## RECOMMENDATION

APPROVE Minutes of the Regular Board Meeting held November 30, 2023.

### November 2023 RBM Public Comments – Item 19.1

From:

Sent: Wednesday, November 22, 2023 12:16 AM To: Board Clerk <BoardClerk@metro.net> Subject: Item 19.1 for Nov 30th meeting

Hello,

I would like to echo my support for Metro to coordinate with LADOT and Caltrans to help improve the speeds of the A and E lines through DTLA. It should take a freeway closure for this to happen. Please prioritize transit riders.

Thank you,

From:

Sent: Thursday, November 23, 2023 11:20 AM To: Board Clerk <BoardClerk@metro.net> Subject: Item #19.1 - For - Nov 30 2023 - LA Metro BOD Meeting

Hello LA Metro. My name is Faraz, I use the LA Metro buses and trains to go to work, and while I'm in general support of the proposals listed in Item 19.1, I wanted to provide feedback on improving the item:

\*Section B-4: Please have the E-Line & A-Line signal prioritization permanent even long after the 10 FWY is fully fixed. And specify that signal prioritization will happen along any at-grade car crossings throughout the E & A train route.

\*Section C-1: The monthly cap for LIFE riders should be lifted permanently. And since the 10 FWY is now open, the Metro Board will need to amend this section anyway so that the lifting of the cap will still occur now (and not just during the duration of the freeway closure).

It shouldn't have to take a freeway closure for LA Metro to realize the importance of a strong public transit system. LA Metro should be continuously finding ways for improving faster travel times, increasing frequencies, and increasing accessibility to low-income riders. These proposals listed in this item are great and should be made permanent/expanded upon (in order to truly encourage ridership onto LA Metro).

Thank you for your time.

Sincerely,

Mayor Karen Bass Council President Paul Krekorian Transportation Chair Heather Hutt Los Angeles City Hall Governor Gavin Newsom Secretary Toks Omishakin Director Tony Tavares California State Capitol

11/16/2023

Governor Newsom, Secretary Omishakin, Director Tavares, Mayor Bass, Council President Krekorian, Chair Hutt:

The closure of the 1-10 Freeway for several weeks and the declaration of an emergency gives the City and the State broad powers to deploy the necessary resources to ensure that residents and commuters can travel safely and efficiently through and to Downtown Los Angeles (DTLA). We call on the State of California and Caltrans to fund alternatives to driving and not just fix the freeway. At a time when the California Air

Resources Board has said that Californians must drive 25% less by 2030, and when the NRDC found that less than 20% of Caltrans projects reduce vehicle miles traveled, our State must aggressively fund alternatives to prove that we can-because we must-reduce driving. This includes funding service because mode shift cannot happen without abundant, affordable, and equitable public transit. This is particularly important in the areas most impacted, including historically underserved communities in South Park, South LA, Chinatown, and Boyle Heights, which are now subjected to even more congestion than before due to the I-10 freeway closure.

# Therefore, we call on Caltrans to:

- Work with the Los Angeles Department of Transportation (LADOT) to rapidly deploy bus lanes on routes adjacent to the I-10 Freeway.
- Work with LADOT and LA Metro to implement full signal preemption and rail signal gates so that the E/A Lines can be given priority to move quicker through Downtown.
- Fund Metrolink to run all-day service with 15/30 minute headways during rush hour on major routes to get people off the I-10 Freeway.
- Immediately identify excess Caltrans lands that can be used for Park & Ride sites with security and subsidize DASH Commuter Express, Metro Micro, and LA Now buses and operators to shuttle people to work with on-demand or fixed route service.
- Provide additional funding to LADOT, Big Blue Bus, Foothill Transit, Montebello Transit, Long Beach Transit, and LA Metro to increase bus and rail service, particularly for commuters, and make public transit fare-free during this time.
- Prioritize opening a lane for bus-only traffic first along the I-10 through Downtown LA, as well as a carpool-only lane with a minimum of 3 passengers.

In addition, we call on the City of Los Angeles Transportation Committee to schedule an emergency meeting to:

- Fulfill the City motion (<u>CF 19-1236</u>) that would create full signal preemption for E/A trains in Downtown Los Angeles.
- Call on LADOT to rapidly deploy bus-only lanes along the I-10 Corridor Route with temporary cones, traffic personnel, and enforcement.
- Deploy bus operators to the DASH Commuter Express lines to double bus headways to key job destinations. The City should consider re-deploying diminished LAX FlyAway service to assist in moving people across this area.
- Re-deploy the LA Now on-demand service to the Downtown LA area.
- Make all these services fare-free.

Lastly, we call on the Los Angeles County Metropolitan Transportation Authority to:

- Make rail and bus service fare-free during this time.
- Make Metro Bike free and deploy more stations and bikes around the affected area.
- Accelerate planned headway increases on the A/E Line as soon as possible.
- Re-deploy the Metro Micro fleet to downtown and consider using excess land for Park & Ride.
- Prioritize opening bus-only lanes along the I-10 through Downtown LA, focusing on impacted lines.

Given the emergency declaration - with departments and agencies working around the clock - it is clear that the impact is felt deep and wide across our region and in our neighborhoods. To demonstrate leadership and care, we must also fund the alternatives above. We can show that we can both accomplish the objective of fixing the damage on the 10 freeway, and, more importantly, we also confidently show that our investments in the alternatives will minimize congestion and improve air quality for all of us.

### Metro engineers have placed a "POISON PILL" in the C Line Extension Hawthorne route.

From the Marine elevated platform, the Hawthorne route travels 150 yards down the ROW and then makes a hard left crossing over Extra Space Storage and a Chevron station to then cross Inglewood in front of the 405 on ramp. It further takes out Roger's Auto Repair and EMI Signs to then buttress against the freeway though a narrow passage that effects multiple other businesses before crossing Manhattan Beach Blvd.

This is done in spite of the obvious route which would use the ROW up to Manhattan Beach Blvd. There it would then make a left and use the wide boulevard for an eighth-of-a-mile until reaching the freeway.

This avoids all of the disruption and added cost associated with business removal and reduces the footprint with the 405 Caltrans by over half.

A junior engineer would see this in an instant. The Metro Board needs to investigate this \$300-500 million boondoggle. Most of the needed engineering already exists in the current DEIR.

#### November 2023 RBM General Public Comment

From:

Sent: Sunday, November 19, 2023 11:16 AM To: Board Clerk <BoardClerk@metro.net> Subject: Please Support Fare-Free Metro NOW

Metro Board Chair Karen Bass,

I am writing to urge your support for making LA Metro 100% fare-free. In your run for Mayor, you campaigned on the promise of universal fare-free transit in Los Angeles. Ending fare collection is the most immediate action Metro can take to ease the financial burden of transportation costs for the multiracial working class that rides Metro and to confront the environmental crises driven by automobile pollution. So far, this promise remains unmet.

While Los Angeles' infrastructure forces many workers to be car-dependent, we do have an expansive public transit system consisting of bus and light rail transportation that provides over 47 million rides to Angelenos yearly. Metro ridership continues to recover post-pandemic, with ridership increasing 10% since last September. Meanwhile, the average cost of owning a car exceeds \$12,000 annually – far out of reach for many of LA's essential workers -- and car and truck emissions are responsible for 33% of greenhouse gas emissions. The impacts of Los Angeles' vehicle pollution are felt most acutely in working-class communities of color, whose neighborhoods suffer from the lack of reliable public services, secure well-paying jobs, and sustainable public infrastructure.

Now, during an affordability crisis, returning fare-free service to Metro would provide immediate monetary relief to riders, acting as an economic stimulus for many of LA's essential workers. Only 5% of Metro's revenue comes from fare collection and 75% of LA Metro's riders are low-income, with the majority of riders making less than \$25,000 per year. When people ride Metro instead of driving, those reductions in pollution, congestion, and traffic violence benefit everyone in the County. That's why we all pay for Metro when we pay sales tax, and charging fares from working class riders is unnecessary and regressive.

Ending fare collection also allows Metro to focus on delivering transportation services to Angelenos. Metro spends tens of millions of dollars every year on fare subsidy program administration, third party contracts, and fare collection equipment. Even more money is spent on policing contracts which disproportionately criminalize youth of color for fare evasion. This spending is counterproductive, does not help deliver world-class transportation to Angelenos, and should instead be spent providing fast, frequent, and reliable transit service.

Metro eliminated fares for all riders for 22 months during the COVID pandemic, running the largest fare-free transit experiment in the U.S. LA Metro proved that making transit fare-free increases ridership, safety, and helped transit ridership rapidly recover following the end of the pandemic. We need that same urgency now to address our current affordability, inequity, and environmental crises.

Please support universal fare-free Metro NOW and help working people like me get where we need to go!

Ending fare collection is the most immediate action Metro can take to ease the financial burden of transportation costs for the multiracial working class that rides Metro and to confront the environmental crises driven by automobile pollution. So far, this promise remains unmet.

The electrical grid can't sustain everyone switching to electric cars. We can't make enough renewable energy in time. People need to consume less energy with public transportation. And in a loneliness public health crisis, people need more reason to interact on fast, frequent, reliable public transit.

While Los Angeles' infrastructure forces many workers to be car-dependent, we do have an expansive public transit system consisting of bus and light rail transportation that provides over 47 million rides to Angelenos yearly. Metro ridership continues to recover post-pandemic, with ridership increasing 10% since last September. Metro Board Chair Karen Bass,

I am writing to urge your support for making LA Metro 100% fare-free. In your run for Mayor, you campaigned on the promise of universal fare-free transit in Los Angeles. Ending fare collection is the most immediate action Metro can take to ease the financial burden of transportation costs for the multiracial working class that rides Metro and to confront the environmental crises driven by automobile pollution. So far, this promise remains unmet.

While Los Angeles' infrastructure forces many workers to be car-dependent, we do have an expansive public transit system consisting of bus and light rail transportation that provides over 47 million rides to Angelenos yearly. Metro ridership continues to recover post-pandemic, with ridership increasing 10% since last September. Meanwhile, the average cost of owning a car exceeds \$12,000 annually – far out of reach for many of LA's essential workers -- and car and truck emissions are responsible for 33% of greenhouse gas emissions. The impacts of Los Angeles' vehicle pollution are felt most acutely in working-class communities of color, whose neighborhoods suffer from the lack of reliable public services, secure well-paying jobs, and sustainable public infrastructure.

Now, during an affordability crisis, returning fare-free service to Metro would provide immediate monetary relief to riders, acting as an economic stimulus for many of LA's essential workers. Only 5% of Metro's revenue comes from fare collection and 75% of LA Metro's riders are low-income, with the majority of riders making less than \$25,000 per year. When people ride Metro instead of driving, those reductions in pollution, congestion, and traffic violence benefit everyone in the County. That's why we all pay for Metro when we pay sales tax, and charging fares from working class riders is unnecessary and regressive.

Metro eliminated fares for all riders for 22 months during the COVID pandemic, running the largest fare-free transit experiment in the U.S. LA Metro proved that making transit fare-free increases ridership, safety, and helped transit ridership rapidly recover following the end of the pandemic. We need that same urgency now to address our current affordability, inequity, and environmental crises.

Please support universal fare-free Metro NOW and help working people like me get where we need to go!

From: Sent: Tuesday, November 21, 2023 12:30 PM To: Board Clerk <BoardClerk@metro.net> Subject: Please Support Fare-Free Metro NOW

Metro Board Chair Karen Bass,

I am writing to urge your support for making LA Metro 100% fare-free. In your run for Mayor, you campaigned on the promise of universal fare-free transit in Los Angeles. Ending fare collection is the most immediate action Metro can take to ease the financial burden of transportation costs for the multiracial working class that rides Metro and to confront the environmental crises driven by automobile pollution. So far, this promise remains unmet.

I could not afford a car and pay my rent for years and was dependent on the metro and my bike. Doing even the simplest of errands by bus takes hours more than by car and the fare adds up quickly when your wages are low. The demand of maintaining my basic needs and health without a car while also working 60 hrs a week caused me to go into the worst major depression episode of my life. I dreaded leaving my house and sacrificing the remainder of my waking hours for basic survival and all of the research and preparation it took for me to ensure that my trips were efficient and remained within budget. I cannot overstate how detrimental unreliable and expensive transit was to my mental health.

Now, during an affordability crisis, returning fare-free service to Metro would provide immediate monetary relief to riders, acting as an economic stimulus for many of LA's essential workers. Only 5% of Metro's revenue comes from fare collection and 75% of LA Metro's riders are low-income, with the majority of riders making less than \$25,000 per year. When people ride Metro instead of driving, those reductions in pollution, congestion, and traffic violence benefit everyone in the County. That's why we all pay for Metro when we pay sales tax, and charging fares from working class riders is unnecessary and regressive.

Ending fare collection also allows Metro to focus on delivering transportation services to Angelenos. Metro spends tens of millions of dollars every year on fare subsidy program administration, third party contracts, and fare collection equipment. Even more money is spent on policing contracts which disproportionately criminalize youth of color for fare evasion. This spending is counterproductive, does not help deliver world-class transportation to Angelenos, and should instead be spent providing fast, frequent, and reliable transit service.

Metro eliminated fares for all riders for 22 months during the COVID pandemic, running the largest fare-free transit experiment in the U.S. LA Metro proved that making transit fare-free increases ridership, safety, and helped transit ridership rapidly recover following the end of the pandemic. We need that same urgency now to address our current affordability, inequity, and environmental crises.

Please support universal fare-free Metro NOW and help working people like me get where we need to go!

## 5. SUBJECT: 2024 REGIONAL TRANSPORTATION IMPROVEMENT 2023-0618 PROGRAM

APPROVED ON CONSENT CALENDAR the programming of up to \$216,817,000 in Regional Transportation Improvement Program funds to the proposed projects and the program amendments.

## 7. SUBJECT: METRO ACTIVE TRANSPORTATION STRATEGIC PLAN 2023-0516 UPDATE

APPROVED ON CONSENT CALENDAR:

- A. ADOPTING the Active Transportation Strategic Plan Update;
- B. AUTHORIZING the CEO to release the solicitation for Cycle 2 of the Metro Active Transport, Transit, and First/Last Mile Grant Program; and
- C. Metro's policies for Cycle 7 of the State Active Transportation Program.

## 9. SUBJECT: RAIL TO RAIL ACTIVE TRANSPORTATION CORRIDOR 2023-0415 PROJECT

APPROVED ON CONSENT CALENDAR:

- A. INCREASING the Life of Project Budget for the Rail-to-Rail Active Transportation Project (Project) by \$23,100,000, from \$143,284,000 to \$166,384,000; and
- B. AUTHORIZING the Chief Executive Officer to execute agreements, including Contract Modifications, within the Board Approved Life of Project Budget.

#### 10. SUBJECT:TRACK AND TUNNEL INTRUSION PROJECT2023-0565

APPROVED ON CONSENT CALENDAR increasing the Life of Project (LOP) Budget on the Track and Tunnel Intrusion Project by \$550,224, from \$10,821,772 to \$11,371,996.

## 11. SUBJECT: SYSTEMS ENGINEERING AND SUPPORT SERVICES 2023-0639 CONTRACT

APPROVED UNDER RECONSIDERATION:

A. an increase in total authorized funding for Contract No.

(Item 11 – continued from previous page)

AE47810E0128 with SECOTrans (Joint Venture of Hatch LTK Engineering Services, NBA Engineering Inc., Pacific Railway Enterprises Inc., and Ramos Consulting Services, Inc), for pending and future Task Orders to provide systems engineering and support services for Metro Rail and Bus Transit projects, in the amount of \$19,500,000, increasing the total contract authorized funding from a not-to-exceed (NTE) amount of \$95,282,000 to a not-to-exceed amount of \$114,782,000 through April, 2025; and

B. the Chief Executive Officer (CEO) or designee to execute individual Task Orders and Contract Modifications within the Board approved contract funding amount.

#### 12. SUBJECT: EB SR-91 ATLANTIC TO CHERRY IMPROVEMENTS 2023-0641

APPROVED ON CONSENT CALENDAR:

- A. ESTABLISHING a Life-of-Project budget for the EB SR-91 Atlantic to Cherry Improvements in the amount of \$174,187,000; and
- B. AUTHORIZING the Chief Executive Officer to negotiate and execute project-related agreements, including contract modifications, up to the authorized Life-of-Project budget.

#### 13. SUBJECT: I-605 SOUTH STREET IMPROVEMENTS PROJECT 2023-0640

AUTHORIZED ON CONSENT CALENDAR the Chief Executive Officer to:

- A. ESTABLISH a Life of Project Budget (LOP) for the I-605 Southbound South Street Improvements Project in the amount of \$33,222,000; and
- B. the Chief Executive Officer to negotiate and execute project related agreements, including contract modifications, up to the authorized Life-of-Project Budget.

#### 14. SUBJECT: WEST SANTA ANA BRANCH TRANSIT CORRIDOR 2023-0605

APPROVED ON CONSENT CALENDAR:

A. AUTHORIZING the Chief Executive Officer (CEO) to award a cost plus fixed fee contract, Contract No. AE104903000, to HDR Engineering, Inc., for advanced engineering and final design services of utility adjustments,

(Item 14 - continued from previous page)

freight relocation, and grade crossings for the Slauson/A Line to Pioneer segment of the West Santa Ana Branch (WSAB) Transit Corridor Project in the amount of \$75,407,476, subject to the resolution of protest(s), if any; and

B. Contract Modification Authority (CMA) specific to Contract No. AE104903000 in the amount of \$7,540,748, or 10% of the not-to-exceed contract award value authorize the CEO to execute individual Contract Modifications within the Board-approved Contract Modification Authority.

## 17. SUBJECT: LONG-TERM ADVERTISING - MARIACHI PLAZA STATION 2023-0650

APPROVED ON CONSENT CALENDAR a long-term advertising purchase agreement with Adventist Health White Memorial Hospital (Adventist Health), of up to 12 months, for advertising at Mariachi Plaza Station generating \$97,500 estimated gross sale for Metro. This agreement is not a title sponsorship and will not affect Mariachi Plaza Station's title/name.

#### 19. SUBJECT: 2024 LEGISLATIVE PROGRAM

#### 2023-0682

APPROVED:

- A. RECEIVING the State and Federal Legislative Report;
- B. ADOPTING the proposed 2024 Federal Legislative Program; and
- C. ADOPTING the proposed 2024 State Legislative Program.

# 19.1.SUBJECT: METRO'S RESPONSE TO I-10 FREEWAY FIRE AND 2023-0716 SUBSEQUENT CLOSURE MOTION

#### WITHDRAWN:

APPROVE Motion by Directors Bass, Hahn, Solis, Mitchell, Dutra, and Najarian that the Board direct the Chief Executive Officer to:

A. Amend goal #4 of the 2024 Legislative Program's State Goals to include provisions for the reimbursement of transit-related services/expenses

#### (Item 19.1 - continued from previous page)

incurred during a federal or state emergency declaration.

- B. Promote ridership through regional coordination:
  - 1. Coordinate with the City, County, State, and Federal agencies to take the necessary action to support the recovery phase for the communitiesimpacted by the I-10 freeway fire and subsequent closure.
  - 2. Collaborate with Tier 1 transit operators and Metrolink to expand and coordinate services affected by the freeway closure to encourage and promote ridership.
  - 3. Collaborate with local jurisdictions to increase opportunities for bus priority lanes and bus signal prioritization on lines affected by the closure.
  - Collaborate with local jurisdictions and Caltrans on E-Line & A-Linesignal prioritization, including but not limited to closing the eastbound I-10 on-ramp that crosses the A & E Lines right-of-way at Flower Street.
  - 5. Coordinate with local jurisdictions and special traffic operations to support reliable travel for major and special events.
  - 6. Develop a strategy to prepare and implement Integrated Corridor Management (ICM) plans for major freeway corridors in partnership with Caltrans, Los Angeles County Department of Public Works, Los-Angeles Department of Transportation, and additional localjurisdictions.
- C. Provide incentives for public transportation and enhance services:
  - 1. Lift the monthly cap on transit rides for participants of the Low-Income Fare is Easy (LIFE) program for the duration of the freeway closure.
  - 2. For Metro riders, reduce daily parking rates to 10 cents at Metro's Parkand Ride lots, excluding NFL Game Day promotions, for the duration of the freeway closure.
  - 3. Provide fare-free rides on Metro Bike-Share for the duration of the freeway closure.
  - 4. Launch a marketing campaign to encourage transit ridership while the I-10-freeway is undergoing repairs.

#### (Item 19.1 - continued from previous page)

- 5. Beginning November 23, 2023, work to enhance station services and amenities by deploying additional Transit Ambassador teams at key origin stations around the entire system to ensure adequate coverage is available to serve additional transit riders using the system for the duration of the freeway closure; expanding cleaning services at Metro-owned stations and platforms as needed; and improving lighting at Metro-owned parking lots, bus stations, and station platforms, as necessary.
- D. Assess impacts of the freeway closure and ensure reimbursement of eligible expenses:
  - 1. Instruct Metro Real Estate to prepare an inventory of Caltrans-ownedproperties leased by Metro to ensure compliance with the lease termsand recommend corrective action if needed.
  - 2. Report back to the Board within 30 days of the freeway reopening, on the effectiveness of various travel demand management strategies utilized during the I-10 freeway closure, including a separate reportback on how to improve the transponder technology to provide accurate arrival at transit stations, starting with lines affected by the closure.
  - 3. Report back to the Board within 30 days on ridership changes related to the freeway closure.
  - 4. Submit grant applications and conduct any necessary actions, includingnegotiating and executing grant agreements and signing requests for reimbursements to the California State Transportation Agency, California Department of Transportation, California Office of Emergency Services, and other pertinent agencies to secure Statefunds for emergency operations and infrastructure protection services, as necessary.
