***\*A written request to address the Board should be submitted in person at the meeting to the Board Secretary prior to the item being called for discussion. Once discussion on an item begins, requests to speak on that item will no longer be accepted.***

**METROPOLITAN TRANSPORTATION AUTHORITY BOARD RULES**  
(ALSO APPLIES TO BOARD COMMITTEES)

**PUBLIC INPUT**

A member of the public may address the Board on agenda items, before or during the Board or Committee's consideration of the item for one (1) minute per item, or at the discretion of the Chair. A request to address the Board should be submitted in person at the meeting to the Board Secretary. Individuals requesting to speak on more than three (3) agenda items will be allowed to speak up to a maximum of three (3) minutes per meeting. For individuals requiring translation service, time allowed will be doubled.

Notwithstanding the foregoing, and in accordance with the Brown Act, this agenda does not provide an opportunity for members of the public to address the Board on any Consent Calendar agenda item that has already been considered by a Committee, composed exclusively of members of the Board, at a public meeting wherein all interested members of the public were afforded the opportunity to address the Committee on the item, before or during the Committee's consideration of the item, and which has not been substantially changed since the Committee heard the item.

The public may also address the Board on non-agenda items within the subject matter jurisdiction of the Board during the public comment period, which will be held at the beginning and/or end of each meeting. Each person will be allowed to speak for up to three (3) minutes per meeting and may speak no more than once during the Public Comment period. Speakers will be called according to the order in which the speaker request forms are received. Elected officials, not their staff or deputies, may be called out of order and prior to the Board's consideration of the relevant item.

In accordance with State Law (Brown Act), all matters to be acted on by the MTA Board must be posted at least 72 hours prior to the Board meeting. In case of emergency, or when a subject matter arises subsequent to the posting of the agenda, upon making certain findings, the Board may act on an item that is not on the posted agenda.

**CONDUCT IN THE BOARD ROOM** - The following rules pertain to conduct at Metropolitan Transportation Authority meetings:

**REMOVAL FROM THE BOARD ROOM** The Chair shall order removed from the Board Room any person who commits the following acts with respect to any meeting of the MTA Board:

- a. Disorderly behavior toward the Board or any member of the staff thereof, tending to interrupt the due and orderly course of said meeting.
- b. A breach of the peace, boisterous conduct or violent disturbance, tending to interrupt the due and orderly course of said meeting.
- c. Disobedience of any lawful order of the Chair, which shall include an order to be seated or to refrain from addressing the Board; and
- d. Any other unlawful interference with the due and orderly course of said meeting.

**INFORMATION RELATING TO AGENDAS AND ACTIONS OF THE BOARD**

Agendas for the Regular MTA Board meetings are prepared by the Board Secretary and are available prior to the meeting in the MTA Records Management Department and on the Internet. Every meeting of the MTA Board of Directors is recorded on CD's and as MP3's and can be made available for a nominal charge.

## DISCLOSURE OF CONTRIBUTIONS

The State Political Reform Act (Government Code Section 84308) requires that a party to a proceeding before an agency involving a license, permit, or other entitlement for use, including all contracts (other than competitively bid, labor, or personal employment contracts), shall disclose on the record of the proceeding any contributions in an amount of more than \$250 made within the preceding 12 months by the party, or his or her agent, to any officer of the agency, additionally PUC Code Sec. 130051.20 requires that no member accept a contribution of over ten dollars (\$10) in value or amount from a construction company, engineering firm, consultant, legal firm, or any company, vendor, or business entity that has contracted with the authority in the preceding four years. Persons required to make this disclosure shall do so by filling out a "Disclosure of Contribution" form which is available at the LACMTA Board and Committee Meetings. Failure to comply with this requirement may result in the assessment of civil or criminal penalties.

## ADA REQUIREMENTS

Upon request, sign language interpretation, materials in alternative formats and other accommodations are available to the public for MTA-sponsored meetings and events. All requests for reasonable accommodations must be made at least three working days (72 hours) in advance of the scheduled meeting date. Please telephone (213) 922-4600 between 8 a.m. and 5 p.m., Monday through Friday. Our TDD line is (800) 252-9040.

## LIMITED ENGLISH PROFICIENCY

A Spanish language interpreter is available at all Board Meetings. Interpreters for Committee meetings and all other languages must be requested 72 hours in advance of the meeting by calling (213) 922-4600 or (323) 466-3876.

### SAFE BOARD MEETING JUNE 22, 2017

**ACTION: ADOPT THE FISCAL YEAR 2017 - 2018 BUDGET**

#### **RECOMMENDATION**

**SUBJECT: FISCAL YEAR 2017 - 2018 BUDGET**

ADOPT the Fiscal Year 2017-2018 (FY18) budget in the amount of \$9,088,195 for the operation and administration of the Los Angeles County Service Authority for Freeway Emergencies (SAFE). This budget amount includes the annual funding allocations for:

- A. the agreement with the Public Transportation Services Corporation (PTSC) for direct labor and administrative support services in the amount of \$1,464,195; and
- B. the agreement with the Los Angeles County Metropolitan Transportation Authority (Metro) for Freeway Service Patrol (FSP) in the amount of \$1,000,000.

#### **ISSUE**

SAFE was created in 1988, pursuant to California Streets and Highway Code Section 2550 et.seq. and is responsible for providing motorist aid services in Los Angeles County. In order to fulfill its mission, SAFE needs an annual budget and requires administrative support services, which is provided via a Memorandum of Understanding (MOU), with the PTSC. A summary of the proposed FY18 budget is provided as Attachment A.

#### **DISCUSSION**

During FY17, SAFE continued to fund, develop, implement and operate a variety of motorist aid services, programs and activities. These programs, services and activities included:

- Operation, upgrade and restructuring of the Kenneth Hahn Call Box System.
- On-going operation of the first generation Southern California 511 system.
- Continued funding of the Metro FSP program.
- Continued coordination with Metro, Caltrans and CHP on the operation and development of the Regional Integration of Intelligent Transportation Systems (RIITS).
- Development of the next generation Southern California 511 system.

For FY18, SAFE will focus on the seamless deployment of the next generation Southern California 511 system and continued improvements to the system. The first generation Southern California 511 system is on schedule to be replaced by the new next generation system by July 1, 2017. In addition to implementing the next generation Southern California 511 system, SAFE will be working on the following projects and activities:

- Operating, monitoring and improving the new next generation Southern California 511 system.
- Continued collaboration with Metro and Caltrans on the development and improvements to RIITS, which includes securing new transportation data sources and developing new mobility improving applications.
- Continue funding for the Metro Freeway Service Patrol program;
- Working with METRO, Caltrans, CHP and the City of Los Angeles to move forward with the implementation of a more integrated Los Angeles Regional Transportation Management Center.
- Continue to coordinate and collaborate with our regional partners to identify and implement improvements to existing programs and develop new services that will improve mobility within the region - including Intelligent Transportation Systems (ITS), Connected Vehicle, and corridor management projects;

The FY18 budget of \$9.1 million represents a decrease of approximately \$5 million or 35% compared to the adopted FY17 budget. Specifically, the FY18 budget variances for each major budget category are as follows:

<u>Category</u>	<u>Increase/ (Decrease)</u>
Administration	\$ 60,000
Direct Labor	(\$ 589,675)
Programs & Services	(\$4,456,000)

The Administration budget is proposed to increase by \$60,000. This category covers the general administrative costs for SAFE and includes the budget for general office and computer supplies including interactive video displays to enable more effective management of projects, insurance, business travel, workshops and training. The increase is due to a one-time increase to replace/update computer equipment and slight increases in insurance cost and staff training and workshops.

The Direct Labor budget covers the costs for obtaining staff (full-time and as-needed) from the PTSC. This category includes the costs for direct labor, as-needed, allocated overhead, fringe and other labor related costs. The budget is proposed to decrease by approximately \$590,000. This decrease is due to a number of factors including a reduction in the as-needed budget, a reallocation of 1.2 FTEs from SAFE to Metro in support of the RIITS program to more accurately reflect and track the resources associated with management of RIITS and the commensurate decreases to the overhead, fringe and non-work allocations.

The Programs & Services category provides the funding needed to operate, maintain, improve and develop the variety of motorist aid services supported by SAFE. This category is proposed to

decrease by approximately \$4.5 million. The decrease is attributed to the following factors:

- 1) completion of the initial development of the new Southern California 511 system;
- 2) completion of the required 2G to 3G wireless upgrade of the call box system;
- 3) completion of phase 2 of the call box system restructuring resulting in the removal of 534 call boxes;
- 4) reduction in the operating costs for Southern California 511 as a result of the transition to the new platforms.

A summary as well as a breakdown of the FTE allocation is provided as part of the Five-Year Financial Forecast (Attachment B).

### **DETERMINATION OF SAFETY IMPACT**

The budget is needed to ensure the continued safe and reliable operation of the call box system and Southern California 511. Both systems support motorist by providing a service from which motorist can request assistance and also obtain transportation related information. Without the budget, the services operated and supported by SAFE will be negatively impacted and this can cause a negative safety impact to disabled motorists

### **FINANCIAL IMPACT**

Funding in the amount of \$9,088,195 million has been included in the FY18 proposed budget in project 300209 and allocated to cost centers 2220 (Congestion Reduction), 3351 (SAFE), and 7140 (Marketing). The Five-Year Financial Forecast demonstrates the financial capacity of SAFE to use its existing fund balance and projected revenue to fully fund the proposed FY18 budget.

#### **Impact to Budget**

The FY18 SAFE budget is funded from dedicated SAFE resources and has no impact on the budget of the Metro. The FY18 budget request is consistent with the information contained in Metro's FY18 budget.

### **ALTERNATIVES CONSIDERED**

The Board has two alternatives. It can (a) decide to not adopt the proposed budget or (b) make a modification, either a decrease or an increase, to the proposed budget. Neither of these options is recommended.

The adoption of the budget is required to ensure the continued operation of SAFE and its programs. Without the budget, SAFE will be unable to administer its programs and fulfill its statutory motorist aid mission. Modification of the proposed budget is also not recommended. The proposed budget was developed to ensure that SAFE is sufficiently funded for FY18 and has a certain amount of flexibility to adapt to situations and opportunities as they arise. The proposed budget ensures SAFE's ability to properly fulfill its mission and comply with all existing legal and statutory requirements.

**NEXT STEPS**

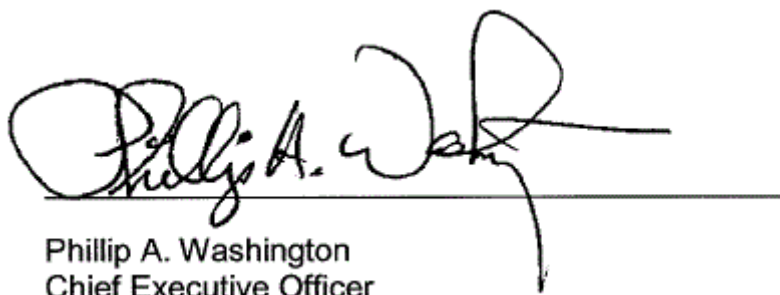

Upon approval of the proposed FY18 budget, staff will begin implementing the projects and work for FY18. Staff will monitor the budget and projects to ensure SAFE meets all its requirements in a fiscally responsible manner.

Los Angeles County  
Service Authority for Freeway Emergencies  
Five-Year Financial Forecast  
Fiscal Year 2017 – 2018

Notes and Assumptions

The FY17 Five-Year Financial Forecast has been developed to provide a snapshot of SAFE's current financial situation and project the impact of the proposed FY18 budget to the overall financial condition of SAFE. The forecast is based upon the assumptions and notes listed herein.

The use of SAFE funds is strictly limited per California Streets and Highways Code Section 2550 et.seq., which requires SAFE to first use its dedicated funds to support the call box system and then enables the use of funds to support other motorist aid services.

The forecast demonstrates that SAFE currently has sufficient financial capacity to fully fund the call box system as well as other motorist aid services as proposed in the FY18 budget. SAFE has the current financial capability to absorb the impact of the FY18 budget for the next five years. However, the forecast also shows a decrease in available SAFE funds for each successive fiscal year. Staff will closely monitor the financial status of SAFE and identify and implement solutions to alleviate any potential negative financial situation in a timely manner.

This forecast includes the projected costs of operating the call box system and Southern California 511, funding for the Metro Freeway Service Patrol, implementing upgrades to the call box system, implementing the next generation Southern California 511 system and funding improvements to motorist services programs. All financial figures will be refined as better information is obtained and more accurate projections can be made.

### SAFE FUNDS

This section provides a summary of the projected funds available to SAFE.

- **Projected Registration Surcharge**

This refers to the projected annual revenue generated by the \$1.00 vehicle registration surcharge. The forecast is based upon historical figures. The forecast is a conservative forecast based upon long-term historical actuals. Overall, the registration surcharge is projected to remain relatively constant for the next five years. However, this will be an item that will require annual review as recent increases to the cost of owning a vehicle in California, attitudinal changes regarding vehicle ownership, impact of ride/car sharing services, technological changes and other related items may impact the overall number of registered vehicles.

- Projected SAFE Fund Balance

The SAFE fund balance shows the available funds from the end of the previous fiscal year.

- Projected Interest

This references the projected interest income for SAFE, based upon a conservative 1.0% rate of return on the investment base. The investment base is defined as the total funds available less 80% of the projected fiscal year expenditures. The total funds available are defined as the "Projected Registration Surcharge" + "Projected SAFE Fund Balance".

## EXPENSES/OBLIGATIONS

- Administration

These are funds programmed for general administrative support services and equipment costs. Items such as travel, training, office supplies, computer equipment, insurance, legal, and other general services required for the administration of SAFE are included in this category. The cost for administration is projected to remain relatively constant at an allocation of \$150,000 for the purposes of this forecast. The forecast presumes the current general operating parameters for SAFE will remain constant with the potential variable being equipment replacement and insurance costs. As this is an annual forecast the impact of the variable cost items will be updated each year as new information is received.

The FY18 budget for administrative services is proposed to increase by \$60,000 compared to the adopted FY17 budget. This increase is primarily due to a \$40,000 increase in the budget for computer equipment. The increase in computer equipment is required to update existing SAFE equipment and to provide the capability to obtain equipment that will enable staff to properly interact with out-of-state developers and monitor services being provided to the public. Additionally, there are increases in the amount of \$15,000 each for the insurance and training/workshop budgets. The training/workshop increase is to provide staff with the ability to attend technical and project management related training that will improve their overall ability to manage their projects.

- Direct Labor

These funds are programmed to cover the projected costs associated with SAFE's staffing resource needs. This includes overhead, salary, fringe benefits and as-needed labor costs. During FY18, SAFE has reallocated 1.2 FTEs from SAFE to the Regional Integration of Intelligent Transportation Systems (RIITS) to more accurately reflect project based resource allocations. While RIITS is a key component providing data and other services to SAFE for its Southern California 511 program, the FTE reallocation is more consistent with ensuring that the full cost of operating RIITS is properly captured. The FY18 budget for this category is \$589,675 less than FY17

due to the reduction in the total full-time equivalent (FTE) allocation as well as to the overhead, fringe and other associated costs. All of the SAFE staff provided under this category will be obtained from the Public Transportation Services Corporation (PTSC) via the existing MOU.

The FY18 FTE allocation is comprised of the following positions:

<b>Position</b>	<b>FY18 Request</b>	<b>FY17 Authorized</b>	<b>Comment</b>
EO – Congestion Reduction	0.4	0.4	Position provides overall Executive leadership. This position also oversees the Metro Freeway Service Patrol and Metro ExpressLanes programs.
DEO – Hwy Ops	0.8	1	Existing position providing daily leadership over the unit.
Sr. Mgr Hwy Ops Program	1	2	Program manager positions over Southern California 511 and RIITS.
Mgr. Hwy Ops	1	1	Position provides senior level project management support over the daily operation of 511.
Principal Transportation Planner	1	1	Project manager positions supporting RIITS and next generation 511 development; and oversight of the call box system.
Sr. Hwy Ops Program Administrator	1	1	Position supports the TMC integration implementation and coordination with partner agencies. Position also coordinates the transition of the Veterans initiative web services management and integration.
Sr. Admin Analyst	0.4	0.4	Position provides general administrative support for SAFE.
Production Mgr.	0.02	0.02	Position supports the review and development of public facing media in support of 511.
Sr. Marketing & Communications Officer	0.1	0.1	Position coordinates all related marketing and communications needs for 511.
<b>Total</b>	<b>5.72</b>	<b>6.92</b>	

For FY18, SAFE is requesting a total of 5.72 FTEs. This is a decrease of 1.2 from FY17. The decrease will not negatively impact SAFE's ability to meet the FY18 work plan and will not result in any current employee losing their job (the 1.2 FTEs have been included as part of the RIITS project budget). Of the 5.72 FTEs requested, all are carry-over of existing positions.

Costs for outlying years are projected to slightly increase over the forecast period. The forecast predicts a 3% annual increase in Direct Labor costs for the duration of the forecast period.

- **Programs & Services**

Funds programmed in direct support of the programs, projects and services operated by or to be funded by SAFE. The programs and services SAFE proposes to support during FY18 include the Kenneth Hahn Call Box System, Southern California 511 traveler information system, Metro FSP operations and Motorist Services Improvements.

The FY18 budget for this category has decreased by \$4,456,000 compared to the adopted FY17 budget. This decrease is attributable to the completion of the call box upgrades and the development of the next generation Southern California 511 system. Additionally, the budget associated with the on-going operations of both the call box and 511 systems are also proposed to decrease. The operational budget reductions are in recognition of the anticipated restructuring of the call box system and implementation of the new streamlined Southern California 511 system. SAFE's allocation to support the Metro Freeway Service Patrol is proposed to remain at \$1 million.

Funding for Programs & Services is projected to decrease in future years due to the anticipated continued decrease in the cost to operate the call box and 511 systems. The following is a breakdown of each program and service to be funded and/or operated by SAFE during FY17:

*Call Box Program*

Funds programmed to cover the costs to operate, maintain and upgrade the Kenneth Hahn Call Box System. The FY18 funding for the Call Box Program is comprised of \$840,000 to operate the system and \$50,000 to perform a quick analysis of the system for possible future restructuring.

During FY17, SAFE completed the required 2G to 3G wireless upgrade and Phase 2 restructuring that resulting in the removal of over 500 call boxes. Operational costs to fund the call box system include all day-to-day requirements to operate and maintain the call box system and are based on contractual and supplier costs. Items include call answering services, cellular service and maintenance operations. Funding for the call box system is projected to decrease as less motorist use the call box. At this point, the impact of additional restructuring efforts has not been integrated into this forecast. Should additional system restructuring be authorized the forecast will be adjusted accordingly.

### Traveler Information System – Southern California 511

Funds programmed to support the operation, maintenance and improvement of the Southern California 511 system. Southern California 511 is a regional traveler information system operated in partnership with Metro, the Orange County Transportation Commission, the Ventura County Transportation Commission, CHP and Caltrans. The system provides individuals with the ability to obtain traffic, transit, commuter services and other general traveler information via their phone or the Internet. The system was deployed in June 2010 and since the launch, Southern California 511 has been used by over 11 million users. In FY17, contracts were awarded and development completed to transition to a new system that will be in place starting this fiscal year.

The FY18 allocation for Southern California 511 is proposed to decrease by \$3,426,000 compared to the FY17 allocation. This decrease is a result of the completion of the initial development and implementation of the next generation Southern California 511 system. Additionally, there are decreases associated with the operation and maintenance of the new 511 system due to technological and programmatic changes implemented with the new system.

Allocations for FY19 and beyond are projected to remain stable with some slight initial decrease. As things change quickly with any technology based service, staff will be closely monitoring the service to make any changes as a result of market conditions. Any changes will be reflected in future forecasts.

### Metro Freeway Service Patrol Operations

Funds programmed to assist Metro with the operation of the Metro Freeway Service Patrol (FSP). Funding of the FSP program from SAFE funds is authorized as FSP is a motorist aid service. Based on discussions with Metro, staff is recommending a decrease in the allocation compared to FY17. The funding allocation is considered on an annual basis and is determined by a combination of Metro's request and available funding. For FY18, SAFE is allocating a total of \$1 million which is more in line with past allocations. The forecast includes an on-going allocation of \$1 million but may be modified in the future as Metro and SAFE meet annually to review the needs of FSP and the ability of SAFE to provide funds.

### Motorist Services Improvements

Funds programmed to enable SAFE to support improvements to existing motorist services programs and/or develop new services. In the past these funds have been used to develop the Southern California 511 mobile app as well as support Metro's Veteran's Transportation grant. For FY18, these funds may be used to develop and deploy new non-planned improvements to Southern California; develop a strategic roadmap for SAFE; support the integration of motorist services operations into the Los Angeles Regional Transportation Management Center; and support the procurement of third party data for RIITS and 511. The funding for service improvements will be allocated on an annual basis depending upon available funds, identified needs or the ability to secure new third party/grant funds.
