DETERMINATION OF SAFETY IMPACT

Maintaining the full complement of representatives on each Service Council to represent each service area is important. As each representative is to be a regular user of public transit, and each Council is composed of people from diverse areas and backgrounds, this enables each Council to better understand the needs of transit consumers including the need for safe operation of transit service and safe location of bus stops.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of this recommendation supports the following Metro Strategic Plan Goal: 30 Enhance communities and lives through mobility and access to opportunity

ALTERNATIVES CONSIDERED

The alternative to approving these appointments would be for these nominees to not be approved for appointment. To do so would result in reduced effectiveness of the Service Councils, as it would increase the difficulty of obtaining the quorum necessary to allow the Service Councils to formulate and submit their recommendations to the Board. It would also result in the Service Councils having less diverse representation of their respective service areas.

NEXT STEPS

Staff will continue to monitor the major contributors to the quality of bus service from the customer's perspective, and share that information with the Service Councils for use in their work to plan and to implement and improve bus service in their areas and the customer experience using our bus service.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE JUNE 18, 2020

SUBJECT: FIRE-LIFE SAFETY SYSTEMS TESTING AND CERTIFICATION SERVICES

ACTION: APPROVE CONTRACT MODIFICATION

RECOMMENDATION

AUTHORIZE the Chief Executive Officer to execute Modification No. 6 to Contract No. OP5766200 with Link-Nilsen Corporation, for Fire-Life Safety Systems Testing and Certification services to exercise option year two in an amount not to exceed \$836,474, increasing the total contract value from \$3,462,243 to \$4,298,717 and extending the contract term from September 15, 2020 to September 15, 2021.

ISSUE

This contract option year one will expire on September 15, 2020. To continue providing the critically mandated services, a contract modification is required to exercise and increase the original value of option year two by \$350,000 from \$486,474 to \$836,474, increasing the total contract value from \$3,462,243 to \$4,298,717 and extending the contract term from September 15, 2020 to September 15, 2021.

BACKGROUND

This contract was awarded on August 25, 2016. The contractor is required to provide regulatory required testing, repair and certification services for fire/life safety five-year water-based systems throughout Metro bus and rail facilities, and the bus facilities annual water-based systems, elevators, emergency power and exit lighting systems, complex and basic fire alarm panels, supervising station fire alarm systems, automatic closing fire assemblies and emergency generators.

During the contract three-year base period, in January 2017 and thereafter, services were expanded to include the rail facilities 484 annual water-based systems, 136 elevators and 32 auto closing assemblies (fire doors that automatically close when activated by the fire alarm panel). These services were added to this contract due to the limited resources of LAFD Reg. 4 certified testers among Metro personnel and to ensure compliance with the LAFD Reg. 4 and fire/life safety testing requirements.

On June 28, 2018, Metro Board of Directors authorized the Chief Executive Officer to execute Modification No. 3 to Contract No. OP5766200 to increase the three-year base contract value in the amount of \$1,360,000, from \$1,623,895.90 to \$2,983,895.90.

DISCUSSION

This contract option year one will expire on September 15, 2020. However, since the scope of work has been expanded to include additional rail location services and repair work, there is limited funding remaining within the current contract option year one and additional authority is required along with exercising option year two, to complete all mandated Reg. 4 testing.

To continue providing on-time system-wide testing services, ensure compliance with fire/life safety Reg. 4 requirements and deliver as-needed maintenance services, a contract modification is required.

The Diversity and Economic Opportunity Department (DEOD) established a 10% Small Business Enterprise (SBE) goal for this contract. Link-Nilsen Corp., made an 11% SBE commitment and is currently exceeding this goal with 22.19% participation.

DETERMINATION OF SAFETY IMPACT

The approval of this item will ensure providing on-time fire/life safety testing and maintenance services in accordance with regulatory requirements and guidelines and to ensure delivering safe, quality, timely, and reliable services to our customers and the public.

FINANCIAL IMPACT

Subject to Board approval of the FY21 Budget, funding of \$853,573 is to be allocated under cost center 8370 - Facilities Maintenance Contracts and Administration, account 50308, Service Contract Maintenance, under various projects.

Since this is a multi-year contract, the cost center manager and Sr. Executive Officer, Maintenance and Engineering will be accountable for budgeting the cost in future years.

Impact to Budget

Current funding for this action includes Proposition A/C, TDA, STA, Fares, and Advertising. Using these funding sources maximizes project funding allocations allowed by approved funding provisions and guidelines.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

This Board action supports Strategic Goal 5; Provide responsive, accountable, and trustworthy governance within the Metro organization. By providing on-time fire/life safety testing and maintenance services Metro remains in compliance with fire/life safety regulatory requirements and provides a safe environment for employees and patrons.

<u>ALTERNATIVES CONSIDERED</u>

Staff considered providing this service with in-house staff. This would require the hiring and training of additional certified personnel, purchase of additional equipment, vehicles, and supplies to support the expanded responsibility. Staff's assessment indicates this is not a cost-effective option for Metro.

NEXT STEPS

Upon Board approval, staff will execute Modification No. 6 to Contract No. OP5766200 with Link-Nilsen Corp., to exercise option year two and continue providing the mandated fire/life safety testing and critical maintenance services. Staff will also monitor all expenditures associated with this contract modification to ensure remaining within approved cash flow limits for FY21.

A. Procurement Background

OPERATIONS, SAFETY AND CUSTOMER EXPERIENCE COMMITTEE EXECUTIVE MANAGEMENT COMMITTEE JUNE 18, 2020

SUBJECT: MONTHLY UPDATE ON TRANSIT SAFETY AND SECURITY PERFORMANCE

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE Transit Safety and Security Report

ISSUE

This report reflects April and May 2020 performance data as reported under the transit policing deployment strategy which is a combination of in-house fare compliance officers, private security for fixed assets and a multi-agency law enforcement deployment strategy by the Los Angeles Police Department (LAPD), Los Angeles County Sheriff's Department (LASD), and Long Beach Police Department (LBPD). In addition, the report highlights initiatives from the System Security and Law Enforcement department and its efforts to create a safer environment for Metro employees and a safer experience for Metro customers.

BACKGROUND

The System Security and Law Enforcement (SSLE) department entered into a multi-agency policing partnership in 2017 to increase the number of police on the Metro system to provide a greater, more visible "felt presence" of police to help deter criminal activity on Metro buses and trains.

DISCUSSION

DEPLOYMENT ANALYSIS AND FORMULA DEVELOPMENT

Transit Security has conducted the following review of overall deployment of resources and has taken the following actions.

- Evaluated RMI and their subcontractors' deployments throughout the system. We have removed several assignments that were determined to be no longer needed and redeployed several guards to new assignments. We also identified savings as a result of not needing various assignments.
- After the completion of all the security suspensions and enhancements, we realized a total cost savings of approximately \$35,155 per week.

Agenda Number: 18.

Transit Security managerial staff will continue to assess the need for contract security throughout the Metro system and further adjust staffing as necessary.

Staff has also reviewed Transit Security Department's assignments to include overtime details. Open supervisor positions are only being back filled with the pre-approval of the Director of Security. An open Lieutenant or Sergeant position will not be filled with overtime if the current capabilities allow appropriate span of control.

Lastly, all priority assignments and special skill assignments (i.e., Dispatcher; Transit Watch; Training staff, etc.) must be identified and filled with straight time personnel. We are currently looking to train additional personnel for these special skill assignments.

NATIONAL CRIME VICTIMIZATION SURVEY

The Survey Team continues to meet bi-weekly to make progress in launching a National Crime Victimization Survey for Metro. Most recently, the team met on May 20th to discuss feedback from management. Staff has started testing the draft survey on mobile phones to assess its functionality. The Survey Team expects to have a complete survey available for a test run very soon and hopes not to have any delays, amid challenges posed by COVID-19. Once it is confirmed that a test run can be conducted, we will advise the Board so that they can test the survey. However, due to the current economic downturn it will be delayed until it can be supported financially.

LAW ENFORCEMENT CONTRACT COMPLIANCE

Mobile Phone Validators

In the most recent meeting with Axiom and TAP, on April 15th, 2020, all enhanced map features listed under Modification No. 8, were in working order. The three features that Axiom presented to the Metro SS&LE Compliance Staff were as follows: location, officer, all officer searches and group searching.

Axiom launched the enhanced map features during the week of May 13, 2020. Metro SS&LE Compliance Staff is currently testing these features with recently received invoices requesting reimbursement for services performed.

Hiring Plan

The department received approval to continue the recruitment for Transit Security Officer-I and to start recruitment for Transit Security Officer-II. Our efforts continued with appraisal interviews of our Transit Security Officer-I candidates. Out of the 161 candidates, 122 have confirmed their scheduled interview date. Sergeants have been selected and briefed on conducting telephonic interviews. Transit Security Officer-II job bulletin is expected to be posted the week of May 25th.

With continued COVID-19 restrictions, it has been recommended to conduct testing online. Human Resources is currently in the final stages of finalizing a remote testing process to support our department goals. Also, they are working on an action plan to facilitate our candidates who are unable to test online.

With regards to the last recruitment cycle, we have (4) Transit Security Officer-I candidates that have been approved to move to the final step of the hiring process, which is the medical examination. Estimated start date is June 15th.

<u>Training: Metro Academy Program (MAP)</u>

- **M A P CLASS 17** (7) out of (8) Class 17 TSO I's have now returned to work after several weeks of quarantine. Only 1 recruit is still finishing out his quarantine.
- **M A P CLASS 18** Class 18 has an anticipated start date of Monday, June 15th, 2020. There are currently (4) officers that should be clearing their medical screening and hopefully start on that date. Our Training Principal has begun the planning and organizational phase of M A P Class 18. The curriculum will be modified similarly to the Class 17 curriculum due to the unavailability of most 3rd party training vendors. Also, staffing of the training cadre will likely be modified because of the small size of the class as to have minimal impact on operations.
- **COVID-19 TRAINING** COVID-19 training will commence next week. A 15-minute PowerPoint presentation will be rolled out to all officers during their Roll-Call Briefings. This training is being implemented to make sure all officers will receive general best-practices training, Metro COVID-19 policy training, and security-specific training. Attendance will be taken, and training recorded.

BUS OPERATOR ASSAULTS

In April, there were a total of (5) assaults on bus operators, with (3) assaults occurring in LAPD's jurisdiction and (2) assaults occurring in LASD's jurisdiction. Of the (5) assaults, (3) suspects used spit and (2) suspects used their hands as their method of assault.

All (5) assaults occurred on the bus system on different lines. Four of the suspects were males and one of the suspects was a female.

In May, there were a total of (6) assaults on bus operators, with (3) assaults occurring in LAPD's jurisdiction and (3) assaults occurring in LASD's jurisdiction. The (3) suspects that committed assaults on bus operators in LAPD's jurisdiction used their hands as their method of assault.

EMERGENCY MANAGEMENT COVID-19 RESPONSE

The Emergency Management Department (EMD) has continued to support Metro's Incident

Agenda Number: 18.

Management Team in the Agency's response to COVID-19. EMD activated Metro's Emergency Operations Center (EOC) starting March 10, 2020, and began coordination of daily Command Staff meetings, intelligence briefings and communication with local government and transit partners on regional response, best practices and real-time lessons learned during this incident.

EMD has implemented a Duty Officer Program, with 24/7 availability to aid Metro employees with any questions regarding Metro's COVID-19 response, COVID-19 case tracking and reporting, and all incident related assistance or inquiries for information. Metro's EOC has facilitated and/or provided guidance in notifications to staff, acquiring of emergency supplies, funding regulations & expense reimbursement strategies, safety protocols, regional transit communications (Joint Information Center), and requests from LA County and City EOCs.

Since March 10, 2020 the Emergency Management Department has facilitated the following for COVID-19 response activities:

- 51 Command Staff Meetings
- Over 90 Duty Officer calls
- 66 Command Staff Public Health Intelligence Briefs
- 51 Operational Periods of EOC Activation
- Activated Emergency Supply Shed Distributions to provide extra PPE
- Implemented Temperature Camera Pilot Program
- Maintain direct communication with APTA & DHS/TSA/CISA COVID-19 Planning Groups

HOMELESS OUTREACH SERVICES

Operation LA Metro Homeless Outreach

- The total number of persons experiencing homelessness placed in interim shelter (motels, recreation centers) between April 1 and April 30, 2020 is 309.
- P.A.T.H. provides motel shelter to vulnerable homeless populations (elderly, women, women with children, handicapped, veterans) in motels. In April, P.A.T.H. sheltered 127 vulnerable persons in 82 motel rooms. April's motel expenditure was \$153,955.06.
- P.A.T.H. Outreach Teams continue to work collaboratively with law enforcement partners to
 move persons experiencing homelessness whenever possible to whatever shelter centers are
 available. At present, shelter facilities are closed and currently not taking new registrations.
 P.A.T.H. is limited to sheltering only the most vulnerable at motels.

PATH teams deploy daily throughout the system with special attention to the following hot spots:

- Swing Team (3 a.m. 11:30 a.m.)

COVID-19 Education

Law Enforcement is focused on mask use, overall safety and social distancing.

PUBLIC PRIVATE PARTNERSHIPS

To increase the availability of resources to the homeless community that interfaces with Metro's system, we are pursuing collaboration with Public Private Partnerships through:

- Community-based organizations within faith entities that have homeless programs in place
- Meetings with business (Chambers of Commerce); diverse size non-profit agencies, universities, Research & Development Centers
- Neighborhood Councils

The Dream Center

The Letter of Agreement between LA Metro and The Dream Center has been finalized. Dream Center deployment at Union Station and 7th & Metro is postponed until public health directives are lifted.

L.A. DOOR Pilot Program

Renewed discussions are in progress regarding the pilot homeless outreach program at Union Station and MacArthur Park stations.

7-Day Homeless Count

The 7-day system-wide homeless count is planned to begin when COVID-19 directives to shelter-inplace sanctions are lifted. The use of a video presentation to announce the Count is in the planning stages with Metro's Marketing and IT departments.

SEXUAL HARASSMENT INITIATIVES

SSLE has developed a new Sexual Harassment Sensitivity Training to better meet the needs of victims of sexual harassment while aboard Metro. Training is underway, with a train-the-trainer methodology launched the first week of May 2020.

^{*}Due to the outbreak, the team pulled all the reported information from Clarity, the computer tracking system, of the Department of Health Services. Due to system limitations, the team was unable to pull the number of individuals who received a service for the first time.

Notes:

The team continued to redeploy in unique ways that crossed the day/swing shift boundary in response to the COVID-19 virus outbreak. The teams were not able to track data based on the regular swing/day deployment schedule.

The reports for April are limited to combined contract-to-date figures due to COVID-19 related schedule realignments and service adjustments (including, but not limited to social distancing requirements).

With the team's close collaboration with LAPD this month, the "referrals from LAPD" figure are also not included.

April Motel Report

Secured 82 motel rooms. The demographics and justification for each of these placements are attached.

Brief Demographic Overview:

- A total of 127 homeless persons were housed in 82 motel rooms.
- 74 of the clients were a combination of couples, couples with children.
- 53 clients were singularly housed, 41.73% were males.

Total Motel Cost: \$153,955.06

PATH Success Story

A 27 year old African American pregnant female and her male partner were encountered at Pershing Square. The client and her partner became homeless after relocating to Los Angeles from the Midwest and not being able to secure employment. Because of the clients' homeless status, their children were placed in foster care. The client and her partner were in desperate need of housing services in order to gain custody of their children.

Metro Multi-Disciplinary Team (MDT) immediately placed the couple in the Crenshaw Inn Motel due to the client's pregnancy and other health issues. From the motel, MDT outreach specialists referred the clients to the Goodwill Career Development Program and Express Employment Agency to help increase their income. Based on the couple's assessment and level of independence, they were referred to the SPA 4 Family Solutions Center and SPA 4 Rapid Re- Housing Program (RRH). Metro MDT Outreach Specialist assisted the clients with housing navigation and successfully connected them to a landlord in Inglewood, CA. During the clients' time at the motel, Metro MDT provided groceries and transportation to medical, employment, and housing appointments.

In early April, the client gave birth to a healthy baby, and as a result of their connection to SPA 4 RRH and Metro MDT Outreach, the client and her partner successfully signed a lease in Inglewood on 4/28/20. The clients are now focusing on regaining custody of their children. The female client said, "I made it home!"

LAPD Outreach Impact Story resulting in Stable Housing, April 2020

LAPD Transit HOPE Officers engaged a couple with their 5-month old child on April 16, 2020 at the 7th/metro Station. The couple did not want to provide a great amount of detail on how they fell into homelessness, but it seemed to be related to a falling out with family. Officers contacted PATH and the family was placed into a local motel until a housing option becomes available.

LAPD Notes:

Due to the repurposing of the HOPE Team and Red Line Surge followed by the elimination of the surge detail the average number of contacts, referrals and enforcement-related events dropped significantly.

OPERATIONS, SAFETY AND CUSTOMER EXPERIENCE COMMITTEE EXECUTIVE MANAGEMENT COMMITTEE JUNE 18, 2020

SUBJECT: COMPREHENSIVE PRICING STUDY

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE status report on the recently initiated Comprehensive Pricing Study.

ISSUE

This is the first official communication to the Board regarding Metro's Comprehensive Pricing Study. The purpose is to report on progress to date and highlight key elements and expectations of the study.

BACKGROUND

Vision 2028 identifies pricing as an important lever towards achieving Metro's strategic goals, including the target of doubling the share of non-single-occupant vehicle trips. Vision 2028 directs staff to conduct a comprehensive transportation system pricing study to determine options for meeting goals of revenue, equity, security, ridership, and user experience, and to recommend pricing policies arising from the study to the Metro Board.

The Comprehensive Pricing Study is timely with the work of the COVID-19 Recovery Task Force and the recently approved Board Motion 2020-0355 (Emergency Relief: Full-Price Passes).

DISCUSSION

The pricing of Metro's suite of transportation services has been developed at different points in time to meet different service and policy objectives. With the adoption of Vision 2028, these pricing policies may no longer be optimally aligned to support Metro's strategic goals. A comprehensive review will identify opportunities for appropriate change.

Study Objectives

File #: 2020-0386, File Type: Informational Report Agenda Number: 19.

The study objectives are:

1. Review current pricing policies (including incentive and discount programs) for transportation services provided by Metro including the following:

- Metro conventional bus and rail transit
- Metro MicroTransit
- Metro on-demand ridesharing (e.g. Mobility-on-Demand)
- Metro Bike Share
- Metro Vanpool
- Transportation parking or access on or adjacent to Metro properties (e.g. personal motor vehicles, scooters, Metro Bike Hub, bike lockers)
- Metro ExpressLanes
- 2. Develop a complete understanding of the capital and operating costs, and non-financial elements, associated with Metro's transit fare and user fee collection and enforcement systems for its transportation services.
- Identify and evaluate pricing policy options relative to the goals of revenue, equity, security, ridership, and user experience. Additional considerations may include the environment/health, viability (e.g. technology, resource requirements) and governance (e.g. coordination and integration with municipal transportation services and pricing policies). Trade-offs will be identified.
- 4. Present pricing policy recommendations to the Metro Board of Directors.

The study team will coordinate with other concurrent Metro initiatives that have pricing, equity, and customer experience elements, including the COVID-19 Recovery Task Force, Traffic Reduction Study, NextGen Bus Plan, and Long Range Transportation Plan. Where appropriate, the study will identify relevant guidance for the pricing of non-Metro services, such as municipal transit and parking, and services partly funded by Metro in partnership with other agencies (e.g. Access Services paratransit and the Metro Freeway Service Patrol).

Study Principles

The conduct of the study is grounded in the following core principles:

- Evidence-Based: data, evidence, and robust deliberations will guide the development of appropriate pricing policies
- **Inclusive:** the study will create space for involvement by all affected departments at Metro as well as agency partners, and will create opportunities for meaningful dialogues and engagement with communities throughout Los Angeles County

- **Transparent:** the process and work will be undertaken in a manner that is visible to internal and external stakeholders
- **Traceable:** the process and work will be documented so that decision-points can be traced back to a key data point or deliberation
- **Consensus-Driven:** recognizing that pricing is a value-laden topic, the study will succeed only if there is broad-based consensus on potential new pricing policies.

Study Governance

Because pricing touches on nearly all aspects of Metro's business, an 'all-of-agency' approach is required to identify and implement the appropriate pricing policies. Departments ranging from the Office of Management & Budget to System Security & Law Enforcement are key partners and their contributions will be fundamental to the success of this initiative. The following project advisory groups will be established:

	Executive Steering Group	Technical Working Group
	coordination; review	Technical advice; data provision; review analysis and findings
-	Members or designates of the Senior Leadership Team	Staff nominated by Senior Leadership Team
Meeting Frequency	Key milestones	Weekly to Bi-Weekly

Further, a communications and engagement framework will be prepared to ensure in-depth engagement with residents, workers, and employers in the county, with particular attention paid to Equity Focus Communities. Appropriate communications and engagement techniques will be identified in respect of the COVID-19 pandemic.

Study Timeline

The study consists of two phases. In Phase 1, pricing policies will be identified and evaluated. Recommendations on changes to pricing policies will be advanced to the Board for consideration. Phase 1 is anticipated to be completed in early 2021. Due to the COVID-19 pandemic, the timeline will evolve as circumstances warrant. The Board and relevant committees will receive progress updates at each milestone.

Phase 1: Pricing Policies

A. Project Definition and Start-Up (Jan - May 2020)

- Engage Senior Leadership Team
- Establish project advisory groups
- B. Research and Engagement (June Fall 2020)
 - Research
 - User and community engagement (e.g. online surveys, virtual dialogues)
 - Develop Evaluation Framework and Performance Measures
- C. Generate Policy Options (Fall 2020 Winter 2020)
 - Engage Community on Policy Options Development
 - Engage Metro staff on Policy Options Development
- D. Policy Options Evaluation (Fall 2020)
- E. Recommendations to Board (Spring 2021)

Should the Board approve the recommendations, Phase 2 will involve the design, implementation, and monitoring of those recommendations. Pending directions from the Board, scoping for Phase 2 will begin upon completion of Phase 1.

Equity Goal

Depending on its design, transportation pricing can either help or hinder efforts to promote racial, social, and economic equity amongst Los Angeles County residents and workers. For this reason, equity is one of the topline goals in the study. The development of appropriate performance measures to evaluate policy options relative to the goal of equity will involve pivoting off Metro's Equity Platform, the "Understanding How Women Travel Study", user experience surveys, and dialogues with community stakeholders.

Staff have identified an initial list of equity-related performance measures. Further research, dialogue, and analysis will be undertaken to refine and expand on these and other performance measures, subject to the availability of reliable data and appropriate quantitative and qualitative methods. This work will be coordinated with the Executive Officer of Equity and Race.

Sample performance measures include:

- Annual out-of-pocket costs as % of household income for extremely-low and low-income households
- Cost of trip-chaining for extremely-low and low-income customers
- Access to opportunity (employment, education, health care, social) opportunities by race, gender, income, age, and household size
- Non-work trips in evenings and weekends by extremely-low and low-income customers
- Ease of understanding and complying with pricing policies (e.g. means-testing requirements) to access transportation services.

File #: 2020-0386, File Type: Informational Report Agenda Number: 19.

FINANCIAL IMPACT

Receiving and filing this report has no financial impact or impact to budget. Through the evaluation process, the cost and revenue impacts of policy options will be quantified and reported along with other performance measures.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The conduct of the Comprehensive Pricing Study is a direct implementation of Vision 2028 (Initiative 1.3.a: Develop simplified, sustainable, and comprehensive pricing policies to support the provision of equitable, affordable, and high-quality transportation services).

NEXT STEPS

The Comprehensive Pricing Study will proceed as set out in this report. Staff will return to this committee and report on progress in early Fall 2020. Through this study, Metro is demonstrating its leadership in evidence-based policymaking to improve mobility and equitable access to opportunities, and in the creation of a transparent and collaborative planning process.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE JUNE 18, 2020

SUBJECT: METRO RED LINE SCADA REPLACEMENT

ACTION: APPROVE RECOMMENDATIONS

RECOMMENDATION

AUTHORIZE:

- A. The Chief Executive Officer to increase the Contract Modification Authority (CMA) specific to Contract No. OP39603035 with ARINC Control and Information Systems (ARINC) in the amount of \$3,357,496 increasing the total authorized contract amount from \$15,551,028 to \$18,908,524.
- B. The Chief Executive Officer to execute contract modifications up to the Board-approved CMA in an amount not to exceed \$18,908,524.
- C. The purchase of additional coverage on the existing \$15,000,000 supplemental project insurance in excess of ARINC's limited liability in an amount not-to-exceed \$700,000. This action increases the total coverage cost from \$1,449,000 to \$2,149,000;
- D. An extension to the period of performance of Contract OP39603035 to December 31, 2021 to allow for SCADA-related work on the CLAX/AMC Station to be completed under this Contract.

ISSUE

This request addresses the following critical needs related to Metro's SCADA system:

- a) The need to implement and integrate a SCADA system in support of the Crenshaw/LAX Airport Metro Connector (AMC) Station.
- b) The need to implement and integrate a SCADA system in support of the Little Tokyo station that is part of the Regional Connector project, which is anticipated to occur in the Fall of 2020;
- c) The need for acquisition, installation and integration of new SCADA equipment, configured in a Virtual Machine (VM) and Virtual Desktop Infrastructure (VDI) environment to bring the Metro Red Line to compliance with Metro's updated SCADA systems standards; This will also bring all other Metro Rail lines to compliance.

File #: 2020-0348, File Type: Contract Agenda Number: 28.

BACKGROUND

Contract No. OP39603035 was approved by the Board in November 2013, after a competitive procurement, for equipment and services for the replacement of the obsolete Red Line SCADA System. ARINC was chosen as the most technically qualified firm offering the lowest price. Modification No.1 was issued on July 14, 2014 to include integration of the Foothill and EXPO-II light rail expansion projects to the project. Modification No. 2, issued on November 14, 2014, was an administrative action which did not change the contract value. Modification No. 3 was issued on June 19, 2015 to include modifications to technical specifications and to purchase an additional project specific professional liability insurance associated with the increased contract scope. Modification No. 4 was issued on September 22, 2016 to include integration of the Crenshaw/LAX light rail expansion project to the Contract and to purchase an additional project specific professional liability insurance associated with the increased contract scope.

Recommendations (A) and (B) will allow sufficient contract authority for the implementation and integration of SCADA systems at the CLAX/AMC Connector station and the Little Tokyo station to proceed according to the project's schedule. It will also enable Metro staff to bring the existing SCADA System into compliance with current Metro Information Technology Hardware and Security standards and allow for compliance with recommendations from the recent MASD Report No. 19-OPS-P03. This will provide the SCADA system the capability to seamlessly and effortlessly support all upcoming Rail expansion projects such as the Purple Line and Foothill Extension.

Recommendation (C), authorization for the purchase of additional project insurance coverage, will provide protection in excess of ARINC's limited liability specifically for the increased contract scope required for Little Tokyo station and CLAX/AMC station, should it be needed.

Recommendation (D), authorizes an extension in the period of contract performance to December 31, 2021 that will ensure ample time is available for completion of SCADA installation and integration work at Little Tokyo station, and CLAX/AMC station. It will also allow time for resolution of issues such as software defect corrections or software enhancements, if and when required.

DISCUSSION

Metro Rail Operations and Wayside Maintenance rely heavily on the SCADA system to provide supervisory and control functions that are essential for the safe, reliable and efficient operation of the Metro rail lines. These functions include centralized control and/or monitoring of train movement, traction and auxiliary power, fire detection and suppression, gas detection, emergency tunnel and ancillary ventilation, elevators and escalators, radio, emergency telephone, Transit Passenger Information System (TPIS) and intrusion.

Enhancements to the existing system are necessary to comply with MASD Audit recommendations and ITS security standards. Some of the enhancements include bringing outdated SCADA systems into compliance; deployment of a local Intrusion Detection System (IDS) and enhancing SCADA system logical security and firewall monitoring capabilities.

Adherence to the latest ITS infrastructure and architecture recommendations will enable a seamless

File #: 2020-0348, File Type: Contract

Agenda Number: 28.

and enhanced integration of SCADA with other enterprise services which include:

- State of the art cyber security
- System backup and disaster recovery
- Nextrip Rail
- BOC/ROC integration
- Emergency backup control center

Next generation intrusion detection/prevention systems and firewalls will be deployed to provide sophisticated cyber security enabling a level of threat detection, threat prevention, and management necessary to respond to increasing cyber threats against our Nation's critical infrastructure. These systems will also provide the configuration management and forensic data that are essential for effective security oversight and audit.

Adoption of the latest ITS virtual application and desktop infrastructure standards will greatly simplify maintenance, system expansion and in assuring 100% compliance with Metro Information Security Policy. This architecture will also support the integration of bus and rail into a multi-modal operations center with minimal modification that will be required.

Adoption of the latest ITS data storage architecture will enable SCADA system configuration and alarm/event database data to be integrated into the ITS automated backup and disaster recovery system ensuring the ability to restore system operation on any level in a minimum amount of time.

DETERMINATION OF SAFETY IMPACT

Approval of these items would greatly enhance the safety and reliability of the Rail SCADA system by enhancing cyber security, system availability and will address Audit findings.

FINANCIAL IMPACT

Funding for this effort is included in the approved Life of Project (LOP) budget of project 205038 - Heavy Rail Subway SCADA System Replacement.

Since this is a multi-year project, the Project Manager and Chief Operating Officer will ensure that all related costs are budgeted in future Fiscal Years.

Impact to Budget

The current source of funds for this action is Measure M 2% State of Good Repair. Using this funding source maximizes the project funding allocations allowed by approved provisions and guidelines.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of this recommendation supports the following Metro Strategic Plan Goal 5; Provide responsive, accountable, and trustworthy governance within the Metro organization.

ALTERNATIVES CONSIDERED

File #: 2020-0348, File Type: Contract Agenda Number: 28.

The Board may choose to not approve the requested increase in contract value with ARINC and direct staff to hold an open procurement. This alternative is not recommended. An open solicitation may result in delivery of a new and different SCADA system that may be incompatible with the existing system. This presents training and maintenance difficulties that will negatively affect the overall safe, effective and efficient operation. Award to a new contractor will also present significant schedule and cost risk to the Regional Connector and AMC projects.

Metro must make every effort to comply with current ITS standards and to address the recent Audit findings and recommendations. Compliance with the ITS standard is mandatory and any deviation will adversely affect Metro's ability to implement cost effective security, enterprise integration and scalability in a timely fashion.

The Board may also decide not to purchase additional supplemental insurance if the Board determines that additional exposure related to the inability to collect damages for ARINC's professional negligence for their integration activities is an acceptable risk. This alternative is not recommended by Metro Risk Management.

The Board may also reject the request for a contract extension to December 31, 2021. This is not recommended as sufficient time is important for the Little Tokyo and CLAX/AMC Connector Station SCADA systems to be properly implemented and integrated into the existing SCADA system. These activities are considered part of the critical path and any delays will adversely affect the overall project schedule.

NEXT STEPS

Upon Board approval, staff will issue contract modifications as needed under Contract No. OP39603035 with ARINC on an as needed basis. Staff will also monitor all expenditures associated with this contract modification to ensure remaining within approved cash flow limits for FY21.
