Stephanie Wiggins, Chief Executive Officer

METROPOLITAN TRANSPORTATION AUTHORITY BOARD RULES

(ALSO APPLIES TO BOARD COMMITTEES)

PUBLIC INPUT

A member of the public may address the Board on agenda items, before or during the Board or Committee's consideration of the item for one (1) minute per item, or at the discretion of the Chair. A request to address the Board must be submitted electronically using the tablets available in the Board Room lobby. Individuals requesting to speak will be allowed to speak for a total of three (3) minutes per meeting on agenda items in one minute increments per item. For individuals requiring translation service, time allowed will be doubled. The Board shall reserve the right to limit redundant or repetitive comment.

The public may also address the Board on non agenda items within the subject matter jurisdiction of the Board during the public comment period, which will be held at the beginning and/or end of each meeting. Each person will be allowed to speak for one (1) minute during this Public Comment period or at the discretion of the Chair. Speakers will be called according to the order in which their requests are submitted. Elected officials, not their staff or deputies, may be called out of order and prior to the Board's consideration of the relevant item.

Notwithstanding the foregoing, and in accordance with the Brown Act, this agenda does not provide an opportunity for members of the public to address the Board on any Consent Calendar agenda item that has already been considered by a Committee, composed exclusively of members of the Board, at a public meeting wherein all interested members of the public were afforded the opportunity to address the Committee on the item, before or during the Committee's consideration of the item, and which has not been substantially changed since the Committee heard the item.

In accordance with State Law (Brown Act), all matters to be acted on by the MTA Board must be posted at least 72 hours prior to the Board meeting. In case of emergency, or when a subject matter arises subsequent to the posting of the agenda, upon making certain findings, the Board may act on an item that is not on the posted agenda.

CONDUCT IN THE BOARD ROOM - The following rules pertain to conduct at Metropolitan Transportation Authority meetings:

REMOVAL FROM THE BOARD ROOM The Chair shall order removed from the Board Room any person who commits the following acts with respect to any meeting of the MTA Board:

- a. Disorderly behavior toward the Board or any member of the staff thereof, tending to interrupt the due and orderly course of said meeting.
- b. A breach of the peace, boisterous conduct or violent disturbance, tending to interrupt the due and orderly course of said meeting.
- c. Disobedience of any lawful order of the Chair, which shall include an order to be seated or to refrain from addressing the Board; and
- d. Any other unlawful interference with the due and orderly course of said meeting.

INFORMATION RELATING TO AGENDAS AND ACTIONS OF THE BOARD

Agendas for the Regular MTA Board meetings are prepared by the Board Secretary and are available prior to the meeting in the MTA Records Management Department and on the Internet. Every meeting of the MTA Board of Directors is recorded and is available at www.metro.net or on CD's and as MP3's for a nominal charge.

DISCLOSURE OF CONTRIBUTIONS

The State Political Reform Act (Government Code Section 84308) requires that a party to a proceeding before an agency involving a license, permit, or other entitlement for use, including all contracts (other than competitively bid, labor, or personal employment contracts), shall disclose on the record of the proceeding any contributions in an amount of more than \$250 made within the preceding 12 months by the party, or his or her agent, to any officer of the agency, additionally PUC Code Sec. 130051.20 requires that no member accept a contribution of over ten dollars (\$10) in value or amount from a construction company, engineering firm, consultant, legal firm, or any company, vendor, or business entity that has contracted with the authority in the preceding four years. Persons required to make this disclosure shall do so by filling out a "Disclosure of Contribution" form which is available at the LACMTA Board and Committee Meetings. Failure to comply with this requirement may result in the assessment of civil or criminal penalties.

ADA REQUIREMENTS

Upon request, sign language interpretation, materials in alternative formats and other accommodations are available to the public for MTA-sponsored meetings and events. All requests for reasonable accommodations must be made at least three working days (72 hours) in advance of the scheduled meeting date. Please telephone (213) 922-4600 between 8 a.m. and 5 p.m., Monday through Friday. Our TDD line is (800) 252-9040.

LIMITED ENGLISH PROFICIENCY

A Spanish language interpreter is available at all Committee and Board Meetings. All other languages must be requested 72 hours in advance of the meeting by calling (213) 922-4600 or (323) 466-3876. Live Public Comment Instructions can also be translated if requested 72 hours in advance.

NOTE: ACTION MAY BE TAKEN ON ANY ITEM IDENTIFIED ON THE AGENDA

Live Public Comment Instructions:

Live public comment can only be given by telephone.

The Committee Meeting begins at 12:00 PM Pacific Time on August 18, 2022; you may join the call 5 minutes prior to the start of the meeting.

Dial-in: 888-251-2949 and enter
English Access Code: 8231160#
Spanish Access Code: 4544724#

Public comment will be taken as the Board takes up each item. To give public comment on an item, enter #2 (pound-two) when prompted. Please note that the live video feed lags about 30 seconds behind the actual meeting. There is no lag on the public comment dial-in line.

Instrucciones para comentarios publicos en vivo:

Los comentarios publicos en vivo solo se pueden dar por telefono.

La Reunion de la Junta comienza a las 12:00 PM, hora del Pacifico, el 18 de Agosto de 2022. Puedes unirse a la llamada 5 minutos antes del comienzo de la junta.

Marque: 888-251-2949 y ingrese el codigo
Codigo de acceso en ingles: 8231160#
Codigo de acceso en espanol: 4544724#

Los comentarios del público se tomaran cuando se toma cada tema. Para dar un comentario público sobre una tema ingrese # 2 (Tecla de numero y dos) cuando se le solicite. Tenga en cuenta que la transmisión de video en vivo se retrasa unos 30 segundos con respecto a la reunión real. No hay retraso en la línea de acceso telefónico para comentarios públicos.

Written Public Comment Instruction:

Written public comments must be received by 5PM the day before the meeting.
Please include the Item # in your comment and your position of "FOR," "AGAINST," "GENERAL COMMENT," or "ITEM NEEDS MORE CONSIDERATION."

CALL TO ORDER

ROLL CALL

APPROVE Consent Calendar Items: 32, 33, 34, 35, and 36.

Consent Calendar items are approved by one vote unless held by a Director for discussion and/or separate action.

CONSENT CALENDAR

- 32. SUBJECT: A650 HEAVY RAIL VEHICLE STATIC CONVERTER LOW
VOLTAGE POWER SUPPLY (LVPS) PURCHASE**

[2022-0432](#)

RECOMMENDATION

AUTHORIZE the Chief Executive Officer to award a 60-month, firm fixed unit price Contract No. OP82170000 to Kiepe Electric LLC for the purchase of forty-two (42) new Low Voltage Power Supply (LVPS) units of static converters in support of the A650 Heavy Rail Vehicle (HRV) fleet. The Contract's one-year base amount of \$472,306 (5 units), and the one-year option amount of \$1,470,195 (37 units), is for a total contract amount of \$1,942,501, inclusive of sales tax. This recommendation is subject to the resolution of any properly submitted protest(s).

34. SUBJECT: METRO RED AND PURPLE MAINLINE RAIL FASTENER REPLACEMENT

[2022-0415](#)

RECOMMENDATION

CONSIDER:

- A. AUTHORIZING the Chief Executive Officer to award a 60-month, Firm Fixed price Contract No. OP8666000 to Transdev Rail Inc., the lowest responsive and responsible bidder, for the purchase of Metro Red and Purple Mainline Fastener Replacement for a not-to-exceed amount of \$28,703,169.90, inclusive of sales tax. This recommendation is subject to the resolution of any properly submitted protest(s).
- B. INCREASING the Life of Project (LOP) Budget for the Metro Red and Purple Mainline Fastener Replacement, capital project number 205125, by \$8,850,000 from \$28,130,000 to \$36,980,000.

 [Attachment B - Expenditure Plan](#)
 [Attachment C - DEOD Summary](#)

35. SUBJECT: MEMBERSHIP ON METRO'S SAN FERNANDO VALLEY AND WESTSIDE CENTRAL SERVICE COUNCILS

[2022-0395](#)

RECOMMENDATION

APPROVE nominees for membership on Metro's San Fernando Valley and Westside Central Service Councils.

Attachments: [Attachment A - Candidate Qualifications](#)
 [Attachment B - Nomination Letters](#)

36. SUBJECT: METRO FREEWAY SERVICE PATROL

[2022-0323](#)

RECOMMENDATION

AUTHORIZE the Chief Executive Officer to:

- A. EXECUTE contract modifications for 4 existing Freeway Service Patrol (FSP) contracts in an aggregate amount of \$4,466,000 thereby increasing the contract amounts from \$4,816,957 to \$9,282,957 and extending the periods of performance for the following contracts:
- Beat 24: T.G. Towing, Inc. Contract No. FSP2833200FSP1424, for \$582,000 for up to 12 months, increasing the total contract amount from \$4,114,302 to \$4,696,302;
 - Beat 29: Platinum Tow & Transport, Inc. Contract No.

FSP3470600B29, for \$438,000 for up to 12 months, increasing the total contract amount from \$3,707,024 to \$4,145,024;

- Beat 42: Platinum Tow & Transport Contract No. FSP2842100FSP1442, for \$438,000 for up to 12 months, increasing the total contract amount from \$3,526,231 to \$3,964,231; and
- Beat 60: Freeway Towing, Inc. Contract No. FSP5768900B60, for \$3,008,000 for up to 24 months, increasing the total contract amount from \$5,255,700 to \$8,263,700.

B. APPROVE a change in the beat cap policy to increase the number of FSP Light Duty (FSPLD) tow service beats that a vendor can be awarded from 2 to 4, establish a two beat cap limit for FSP Heavy Duty (FSPHD), and a one contract cap for FSP Regional (FSPR) (Regional contracts are comprised of multiple beats).

Agenda Number: 32.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE AUGUST 18, 2022

**SUBJECT: A650 HEAVY RAIL VEHICLE STATIC CONVERTER LOW VOLTAGE POWER
SUPPLY (LVPS) PURCHASE**

ACTION: CONTRACT AWARD

RECOMMENDATION

AUTHORIZE the Chief Executive Officer to award a 60-month, firm fixed unit price Contract No. OP82170000 to Kiepe Electric LLC for the purchase of forty-two (42) new Low Voltage Power Supply (LVPS) units of static converters in support of the A650 Heavy Rail Vehicle (HRV) fleet. The Contract's one-year base amount of \$472,306 (5 units), and the one-year option amount of \$1,470,195 (37 units), is for a total contract amount of \$1,942,501, inclusive of sales tax. This recommendation is subject to the resolution of any properly submitted protest(s).

ISSUE

The Original Equipment Manufacturer (OEM) can no longer overhaul these critical LVPS units due to the declining reliability of the LVPS technology transfer and parts obsolescence, necessitating the purchase of a new design static converter LVPS units. This procurement is for the purchase of forty-two (42) new LVPS units (5 Base and 37 Option) to allow for the continuation of overhaul services required for a thorough and complete overhaul of the A650 Fleet. Furthermore, the purchase of new units will achieve equipment safety, reliability, and performance standards in accordance with regulatory requirements and OEM specifications. This procurement will result in the least impact on the schedule and Metro resources to ensure fleet reliability and vehicle maintainability.

BACKGROUND

The Breda A650 HRV option-buy fleet consists of 37 married-pair vehicles and is currently in its 24th year of revenue service operations. This fleet is currently undergoing a Component Overhaul Program, overhauling five major systems including friction brake, traction motor, gearbox coupler, and LVPS equipment. The average per car mileage is 1.7 million miles with accumulated fleet mileage of 128 million miles and consistent reliability and safety record.

DISCUSSION

The LVPS is one of five vehicle systems within the Component Overhaul Program managed and performed by Rail Fleet Services staff. Other vehicle systems undergoing overhaul include coupler, friction brake, gearbox, traction motor, and semi-permanent coupler.

The LVPS equipment consists of low and high-voltage electronic components that convert traction supply power of 750 Vdc to 120 & 220 Vac for battery charging, emergency lighting, braking systems, and door operation supply source. The LVPS is considered vital and safety-critical equipment necessary to sustain the A650 fleet in revenue service operations in conjunction with the State of Good Repair (SGR) policy.

Rail Fleet Services (RFS) Engineering developed equipment overhaul specification(s) for all systems included in the Component Overhaul Program based on OEM recommendations and RFS maintenance experience. The contractor for the new LVPS units will design, manufacture, test, and implement the development of new LVPS equipment units in accordance with Metro's technical specifications within the defined schedule requirements.

DETERMINATION OF SAFETY IMPACT

The purchase of new LVPS equipment ensures vehicle battery charging levels for friction braking, emergency lighting, doors, and other vital systems. In the event of LVPS equipment failure, the vehicle safety systems are compromised and the vehicle will not operate.

FINANCIAL IMPACT

Funding of \$1,942,501 for 42 LVPS equipment units is included in the FY23 budget and \$11,000,000 is available for Component Overhaul Life of Project Budget (LOP) CP #206038. The delivery of the LVPS equipment is planned for the 2nd quarter of FY23 post contract award.

Impact to Budget

The current source of funds for the overhaul program and Consulting Services is Proposition A 35%. Staff will pursue additional federal funds that may become available for this project to maximize and conserve the use of local funding sources and/or debt.

Since multi-year projects are funding this recommendation, the Chief Operating Officer, Chief Program Management Officer, and respective Project Managers will be responsible for future fiscal year budgeting.

EQUITY PLATFORM

The Red and Purple rail lines utilize all of the heavy rail fleet vehicles in Metro's system. Based on the 2019 Customer Survey, the Red and Purple rail lines serve the following ridership:

- 27.7% below the poverty line
- 56.4% had no car available

- Rider Ethnicity: Latino 38.9%; Black 13.1%; White 25.8%; Asian/Pacific Islander 15.2%; Other 6.5%

In addition, areas served include Union Station to Downtown LA, Koreatown (Wilshire/Western), Hollywood, Universal City, and North Hollywood, a majority of which serve people living in Equity Focus Communities.

No SBE or DVBE goals were established due to the lack of subcontracting opportunities.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The recommendation supports Metro Strategic Plan Goal 5) Provide responsive, accountable, and trustworthy governance within the Metro organization. New LVPS will ensure fleet and equipment reliability, minimize vehicle maintenance needs, and provide for safety for Metro's passengers in all operational modes.

ALTERNATIVES CONSIDERED

Due to the OEM's inability to repair or overhaul the LVPS equipment and to technology transfer and parts obsolescence, it is imperative to procure new LVPS equipment utilizing current technologies and parts that will support vehicle operations for vehicle operations an estimated 15 years. There are no alternatives to be considered.

NEXT STEPS

Upon Board approval, the contract awardee will begin the design, manufacturing, testing, and prototyping process as outlined in Metro's Technical Specification for new LVPS equipment. The Contractor shall provide a production schedule to identify milestones consistent with the scheduled delivery of the LVPS equipment.

A. Procurement Background

This Board Action is to approve Contract No. OP82170000 issued in support of Metro's A650 Heavy Rail Vehicle (HRV) to procure services in the design, manufacture and delivery of new Low Voltage Power Supply (LVPS) units. Board approval of contract award is subject to resolution of any properly submitted protest.

The RFP was issued in accordance with Metro's Acquisition Policy and the contract type is a Firm Fixed Unit Price.

Four (4) amendments were issued during the solicitation phase of this RFP:

- Amendment No. 1, issued on October 27, 2021, extended the Questions Due Date;
- Amendment No. 2, issued on November 1, 2021, extended the Questions/Answers and Proposal Due Date;
- Amendment No. 3, issued on November 19, 2021, clarified warranty requirements and project deliverables in the Statement of Work and extended the Proposal Due Date;
- Amendment No. 4 was issued on December 14, 2021, clarifying requirements on Form 60 and extended Questions Due Date.

A total of three (3) proposals were received on January 7, 2022.

1. AmePower, Inc.
2. Kiepe Electric, LLC
3. Powertech

B. Evaluation of Proposals

This procurement was conducted in accordance with LACMTA's Acquisition Policy for a competitive RFP using evaluation criteria and weighted factors. A Proposal Evaluation Team (PET) consisting of staff from LACMTA's Rail Fleet Services, Transit Vehicle Engineering and Quality Assurance convened and conducted a comprehensive technical evaluation of the proposals received.

The proposals were evaluated by the Proposal Evaluation Team (PET) based on the following evaluation criteria and weights.

- | | |
|-----------------------------------|-------------|
| • Technical Capability | 30% percent |
| • Proposer's Work Plan | 30% percent |
| • Past Performance and Experience | 20% percent |
| • Price Proposal | 20% percent |

The evaluation criteria are appropriate and consistent with criteria developed for similar technical design and manufacturing of rail components. Several factors were considered when developing these weights, giving the greatest importance to Technical Capability and Work Plan.

On January 27, 2022, the Proposal Evaluation Team (PET) completed its independent evaluation of proposals. As a result of evaluations, the PET determined that of the three (3) proposals received, two (2) firms were determined to be within the competitive range. The two (2) firms within the competitive range are listed below in alphabetical order:

1. AmePower, Inc.
2. Kiepe Electric, LLC

Powertech was determined to be outside the competitive range and was no longer considered for further evaluation.

The two (2) firms within competitive range were contacted to answer questions, clarify Technical Proposals and approach to statement of work and qualifications. Each firm submitted team's qualifications and responded to the evaluation committee's clarifying questions. The PET reviewed and scored each firm's Technical Proposal in accordance with the technical requirements of the RFP, each firm's experience in relation to the required tasks, and reviewed each firm's commitment to the success of the project. Also reviewed were staffing plans, work plans, and perceived project

issues. Each firm answered questions relative to firm's previous experience in designing, manufacturing and implementing LVPS components.

Qualifications Summary of Firms within the Competitive Range:

KIEPE ELECTRIC LLC

Kiepe Electric LLC (formerly Vossloh Kiepe) was founded in 1906, following an acquisition by Vossloh AG. Vossloh sold Kiepe company to Knorr-Bremse in January 2017; and in May 2017 Knorr-Bremse renamed the company to Kiepe Electric.

Kiepe Electric LLC is a manufacturer of efficient and ecologically sustainable, electric power converters for light rail vehicles, metro vehicles, trolley buses as well as other road and rail vehicles. In addition, Kiepe Electric offers digital solutions for public transport like our Smart Fleet Charging Management (SFM) for electric buses and the Kiepe Fleet Management (KFM), which predicts the need for maintenance and repair.

Kiepe Electric is known for providing highly innovative and competent solutions in the field of traction equipment and LVPS for electrically driven vehicles. They also specialize in the modification of existing vehicles, as well as assembly, testing and commissioning.

Kiepe's Technical Proposal demonstrated thorough expertise in manufacturing electric power converters for rail vehicles and trolley buses with extensive experience in designing and implementing low voltage power supply units and has years of proven service. Project personnel demonstrated a strong understanding of Metro's requirements in their approach to the scope of work and meeting project deadlines.

The Technical Proposal demonstrated Kiepe's experience in all required tasks for the Statement of Work including pre-launch planning, reverse engineering, designing, testing and deployment planning that most importantly achieves meeting project goals and performance. An organizational chart identifying key personnel including the project manager, engineers, quality assurance staff, supervisory staff to be assigned to Metro's project was provided by the proposer outlining over 190 years of combined experience.

Kiepe's Technical Proposal was comprehensive, thorough in approach, and aligned with Metro's service goals and timelines. Kiepe illustrated a detailed strategy to achieve the performance standards through a test and inspection plan showing how to meet the requirements as outlined in the specification to achieve project success.

Most notably unique to Kiepe's expertise was witnessed by their past performance through the long list of experience in designing and implementing LVPS of similar size in multiple agencies for over the past five years.

AMEPOWER

AmePower is a Florida-based engineering company with over 20 years of experience specialized in delivering customized solutions improving the efficiency, performance, and reliability of High-Power Converters found in Rolling Stock (Traction Systems, APS, LVPS). AmePower offers complete repair and overhaul services for converters, auxiliary power supplies, high voltage power supply and battery chargers for mass transportation and wind power industries, with the ability to retrofit and perform contract manufacturing. Recently, AmePower added pre-designed converters and components as a part of their offering in 2021-2022.

AmePower's Technical Proposal offered a strong engineering team with extensive experience in repair and overhaul projects ranging from LVPS, auxiliary power supply overhaul, converter overhaul, and many other overhaul rail vehicle projects. AmePower distinctly featured a suite of rail overhaul component overhauls and experience as well as a well-design facility with numerous test bays.

However, the Technical Proposal failed to identify required experience in the design, manufacture and implementation of new low voltage power supply units for rail vehicles. AmePower possessed strong experience in complete converter repair and overhaul, but no experience in creating a LVPS unit from concept to implementation. Although AmePower demonstrated extensive knowledge and experience in repairing even obsolete equipment, this critical requirement is necessary in demonstrating success for the project. Metro's expectations for this procurement requires three years of past experience on the design and manufacturing of new LVPS equipment and Amepower failed to provide this experience.

The firm's approach to the statement of work aligned with the requirements of the RFP. The proposed team consisted of a number of qualified specialists including engineering experts. An organizational chart identified key personnel including the project manager, engineers, quality assurance staff, supervisory staff to be assigned to Metro's project was provided by the proposer outlining over 75 years of combined experience.

Overall, the Technical Proposal offered generally sound approach in providing a LVPS assembly but lack the ground-level design experience to build and manufacture a new LVPS with service-proven results that Metro requires for this project.

On March 15, 2022, the PET completed its independent evaluation of the proposals. As a result, the firms earned the following final scores with Kiepe Electric LLC ranking the highest firm to perform the project.

1	Firm	Average Score	Factor Weight	Weighted Average Score	Rank
2	KIEPE ELECTRIC LLC				
3	Technical Capability	80.63	30.00%	24.19	
4	Project Work Plan	80.00	30.00%	24.00	
5	Past Performance and Experience	85.00	20.00%	17.00	
6	Price	100.00	20.00%	20.00	
7	Total		100.00%	85.19	1
8	AMEPOWER INC.				
9	Technical Capability	71.25	30.00%	21.38	
10	Project Work Plan	77.50	30.00%	23.25	
11	Past Performance and Experience	49.98	20.00%	10.00	
12	Price	83.86	20.00%	16.77	
13	Total		100.00%	71.40	2

C. Price Analysis

The recommended price of \$1,942,501 has been determined to be fair and reasonable based upon an independent cost estimate (ICE), price analysis, technical evaluation, clarifications and negotiations.

	Proposer Name	Proposal Amount	Metro ICE	Negotiated or NTE amount
1.	Kiepe Electric LLC	\$1,957,170	\$1,595,000	\$1,942,501
2.	AmePower	\$2,333,796	\$1,595,000	\$2,333,796

The difference in ICE and negotiated amount is due to several factors. The ICE didn't account for LVPS assembly, Training and Engineering Fee, as well as shipping and travel costs. Additionally, the ICE was based on a previous industry quote which didn't account for recent increase in inflation, transportation/shipping costs, and covid-related supply chain delays which increased significantly since the development of the ICE.

D. Background on Recommended Contractor

The recommended firm, Kiepe Electric LLC, located in Alpharetta, Georgia has been in business for 116 years since their inception in 1906 and is a leader in the field of traction equipment and LVPS assemblies for light rail vehicles, metro vehicles, trolley busses as well as other road and rail vehicles. Recently, Kiepe Electric LLC performed

work for San Francisco MTA, Utah Transit Authority, Dayton Ohio RTA and Chicago METRA delivering up to 200 LVPS and battery charger systems for their railcars. Kiepe Electric's Project Manager has 42 years of experience, and the team has an accumulative experience of 190 years in designing, manufacturing, and delivering highly innovated and complex electronic systems for rail vehicles. Kiepe Electric LLC also specializes in the modification of existing vehicles, as well as their assembly, testing and commissioning. Kiepe Electric performs work across several countries, including Canada, United Kingdom, Belarus, Germany, Greece, Italy, The Netherlands, Norway, Poland, Taiwan and several other countries.

DEOD SUMMARY

**LOW VOLTAGE POWER SUPPLY
CONTRACT NUMBER OP82170000**

A. Small Business Participation

The Diversity and Economic Opportunity Department (DEOD) did not establish a Disadvantaged Business Enterprise (DBE) participation goal for this procurement due to the lack of subcontracting opportunities. It is expected that Kiepe Electric will perform the services with its own workforce.

B. Living Wage / Service Contract Worker Retention Policy Applicability

- C. The Living Wage and Service Contract Worker Retention Policy is not applicable to this contract.

D. Prevailing Wage Applicability

Prevailing wage is not applicable to this contract.

E. Project Labor Agreement/Construction Careers Policy

Project Labor Agreement/Construction Careers Policy is not applicable to this Contract. PLA/CCP is applicable only to construction contracts that have a construction related value in excess of \$2.5 million.

**Board Report**

File #: 2022-0414, **File Type:** Contract**Agenda Number:** 33.

**OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE
AUGUST 18, 2022****SUBJECT: HEAVY RAIL VEHICLE FLEET VINYL SEAT OVERHAUL****ACTION: APPROVE RECOMMENDATION****RECOMMENDATION**

AUTHORIZE the Chief Executive Officer to execute Modification No. 4 to Contract No. MA52153000 with Molina Manufacturing for the A650 Heavy Rail Vehicle (HRV) Vinyl Seat Overhaul contract to extend the Period of Performance by 24 months through September 4, 2025, and increase the Not-to-Exceed Total Contract Price by \$499,110, from \$475,040.24 to \$974,150.24.

ISSUE

The A650 Red and Purple HRV vinyl seat overhaul project is in line with Metro's "Customer First," "Cleanliness Program," improving the Customer Experience initiatives by providing clean and safe rail vehicles for all Metro customers.

In recent months, Metro has identified an increase in seat damage. This has led to the fabric seat material's wear and tear, leaving unclean and/or unsafe seat conditions. The overhaul program not only provides a lower cost to the agency but replaces the fabric material with a vinyl material that is easier to clean, sanitize, and wipe down.

Additionally, due to the increase in vandalism on the subway cars, particularly with "graffiti" on the vinyl seat inserts, it has become increasingly necessary to replace seat inserts to properly maintain the car interiors. Extending the contract and increasing the contract price by \$499,110 gives the staff the authority to execute the necessary repairs and replacements.

To date, Metro has replaced a total of 9,600 seats for the A650 Red and Purple HRV fleet. Currently, there are 600 seats in need of replacement to complete this project. In addition, the contract modification will not only complete the remaining seat replacements and will support additional seat replacements on an as-needed basis.

BACKGROUND

Contract No. MA52153000 was awarded to Molina Manufacturing on September 5, 2018 in the amount of \$375,040.24, to replace fabric material with vinyl material, including the installation of a drain hole onto the seat bottom allowing fluids to drain onto the floor and not accumulate onto the seat bottom.

This contract modification will increase the quantities to repair and replace the car seats and will provide for an extension to the contract while a new contract is being developed and awarded.

DISCUSSION

Cleanliness is a highly rated issue of importance for Metro riders and the reupholstering of the seat inserts enhances Metro's cleaning and sanitation programs to ensure clean, reliable, and safe rail transportation services.

Awarding this contract will ensure the red and purple lines located at Division 20 have adequate inventory to replace damaged seat inserts and for any remaining rail cars requiring conversion from cloth to vinyl material. This contract will allow Metro to stock a supply of seat inserts and replace the seat inserts when found with graffiti, cuts in the vinyl material, or otherwise damaged in order to ensure a continued high-quality environment for our passengers.

The vinyl seat inserts will improve interior vehicle cleanliness and improve our customer's experience. Per the Chief Executive Officer's directive, Metro is actively working on the conversion of the entire fleet of rail vehicles to vinyl seat inserts by the end of the Fiscal Year 2023, and the award of this contract is expected to provide the inventory of vinyl seats for the heavy rail fleet to achieve this objective.

To date, the A650 Red and Purple HRV fleet is approximately 94% completed in terms of vinyl seats and this contract extension will ensure that Metro completes the transition of A650 vehicles from fabric to vinyl material. With the goal of full conversion to vinyl seats for the heavy rail, light rail, and bus fleets by the end of FY23, staff will monitor production rates for the seat inserts and bring forth a new solicitation and contract award should an additional vendor be required to supplement production to achieve the FY23 date.

This work is required to maintain the vehicles in a State-of-Good-Repair, safety and reliability, as well as to support the best possible Customer Experience.

DETERMINATION OF SAFETY IMPACT

The vinyl seat inserts allow for easy maintenance of soiled or damaged seats and deter the spread of potential diseases. Clean, safe, and reliable cars are all part of ensuring that our Customer's Experience is enjoyable.

FINANCIAL IMPACT

Funding of \$499,110.24 for the Contract Modification Authority is included in the Cost Center 3942,

Project 300044 Account 50441.

Impact to Budget

The current source of funding for this action includes Prop C, TDA, &STA. Using these funding sources maximizes the project funding allocations allowed by approved provisions and guidelines.

EQUITY PLATFORM

Approval of recommendation ensures successful completion of the vinyl seat overhaul and repair project; and will ensure that the rail fleet that serves Los Angeles County and disproportionately serves marginalized groups and the vulnerable, provides clean and safe transportation services.

The Red and Purple rail lines utilize all of the heavy rail fleet vehicles in Metro's system and based on the 2019 Customer Survey, the Red and Purple heavy rail lines serve the following ridership:

- 27.7% below the poverty line
- 56.4% had no car available
- Rider Ethnicity: Latino 38.9%; Black 13.1%; White 25.8%; Asian/Pacific Islander 15.2%; Other 6.5%

In addition, areas served include Union Station to Downtown LA, Koreatown (Wilshire/Western), Hollywood, Universal City, and North Hollywood, a majority of which serve people living in Equity Focus Communities.

Molina Manufacturing is a certified Small Business Enterprise (SBE) firm located in Torrance, California and will be performing the services on this contract with its own workforce.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The recommendation supports Metro Strategic Plan Goal 5) Provide Responsive, Accountable, and Trustworthy governance within the Metro organization. Contract Modification Authority and Contract extension safeguards overhaul production continuance while meeting passenger safety and fleet reliably.

ALTERNATIVES CONSIDERED

Deferral of the vinyl seat overhaul project is not recommended as this approach is contrary to Metro's passenger-first initiatives. The alternative is to not award the contract and procure the vinyl seat inserts as needed, using the traditional "min/max" replenishment system method. This strategy is not recommended since it does not provide for a commitment from the supplier to ensure availability, timely delivery, continued supply, and a guaranteed fixed price for the parts. This alternative strategy could also impact the lead time for securing the material to reupholster the seat inserts, resulting in delays in completing the fleet conversion.

NEXT STEPS

Upon Board approval, the vinyl seat overhaul program will continue with the Contractor relacing fabric material with vinyl and completing necessary modifications to the seat inserts.

PROCUREMENT SUMMARY

**A650 SEAT BACK AND BOTTOM INSERT OVERHAUL AND MODIFICATION /
CONTRACT NO. MA52153000**

1.	Contract Number: MA52153000			
2.	Contractor: Molina Manufacturing			
3.	Mod. Work Description: Extend the Period of Performance by 24 months and add additional work			
4.	Contract Work Description: A650 seat insert replacement & repair			
5.	The following data is current as of: 06.15.22			
6.	Contract Completion Status		Financial Status	
	Contract Awarded:	09-05-18	Contract Award Amount:	\$375,040.24
	Notice to Proceed (NTP):	N/A	Total of Modifications Approved:	\$100,000.00
	Original Complete Date:	09-04-23	Pending Modifications (including this action):	\$499,110.00
	Current Est. Complete Date:	09-04-25	Current Contract Value (with this action):	\$974,150.24
7.	Contract Administrator: Nicole Banayan		Telephone Number: 213-922-7438	
8.	Project Manager: Richard Lozano		Telephone Number: 323-224-4042	

A. Procurement Background

This Board Action is to approve an increase of Contract Modification Authority issued in support of:

- a) Extending the Contract Period of Performance by 24 months through September 4, 2025
- b) Increasing the Not-to-Exceed Contract Price by \$499,110.00 from \$475,040.24 to \$974,150.24.

This Contract Modification will be processed in accordance with Metro's Acquisition Policy and the contract type is an Indefinite Delivery/Indefinite Quantity (ID/IQ).

This Contract was executed on September 5, 2018, to Molina Manufacturing for a 60-month period of performance for a Total Not-to-Exceed Contract Value of \$375,040.24.

(Refer to Attachment B – Contract Modification/Change Order Log)

B. Cost/Price Analysis

The recommended price has been determined to be fair and reasonable based upon a price analysis and technical evaluation. Molina Manufacturing is not escalating their competitively obtained unit prices for all seat inserts for the 24-month extension and those rates were the basis of the Metro ICE. Therefore, the proposed amount, Metro ICE, and the negotiated amount are all consistent.

Proposal Amount	Metro ICE	Negotiated Amount
\$499,110.00	\$499,110.00	\$499,110.00

C. Contractor

Molina Manufacturing (Molina) is a Metro certified Small Business Enterprise (SBE) firm located in Torrance, California. Molina Manufacturing was established in March 2007 and is a full-service company that re-upholsters used or new passenger seats for a wide variety of bus and rail. In addition to providing reupholstery services, Molina also provides hub gaskets, tank radiator gaskets, valve cover, and pan gaskets and assess panel gaskets. Molina's performance is satisfactory.

A. Small Business Participation

The Diversity and Economic Opportunity Department (DEOD) did not establish a Small Business Enterprise/Disabled Veterans Business Enterprises (SBE/DVBE) goal based on the lack of subcontracting opportunities. Molina Manufacturing, an SBE, is performing the services on this contract with its own workforce.

B. Living Wage and Service Contract Worker Retention Policy Applicability

The Living Wage and Service Contract Worker Retention Policy is not applicable to this contract.

C. Prevailing Wage Applicability

Prevailing wage is not applicable to this contract.

D. Project Labor Agreement/Construction Careers Policy

Project Labor Agreement/Construction Careers Policy is not applicable to this Contract. PLA/CCP is applicable only to construction contracts that have a construction related value in excess of \$2.5 million.

Board Report

File #: 2022-0415, File Type: Contract

Agenda Number: 34.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE AUGUST 18, 2022

SUBJECT: METRO RED AND PURPLE MAINLINE RAIL FASTENER REPLACEMENT

ACTION: APPROVE RECOMMENDATIONS

RECOMMENDATION

CONSIDER:

- A. AUTHORIZING the Chief Executive Officer to award a 60-month, Firm Fixed price Contract No. OP8666000 to Transdev Rail Inc., the lowest responsive and responsible bidder, for the purchase of Metro Red and Purple Mainline Fastener Replacement for a not-to-exceed amount of \$28,703,169.90, inclusive of sales tax. This recommendation is subject to the resolution of any properly submitted protest(s).
- B. INCREASING the Life of Project (LOP) Budget for the Metro Red and Purple Mainline Fastener Replacement, capital project number 205125, by \$8,850,000 from \$28,130,000 to \$36,980,000.

ISSUE

In May 2021, the Board approved the Metro Red and Purple Mainline Fastener Replacement with a LOP budget of \$28,130,000 as part of the adopted FY22 annual budget. At the time of the project scope development, the LOP budget was based on the best available estimate of the cost of replacing heavy rail fasteners along with the Red and Purple mainlines. Due to the increase in economic costs since the development of the cost estimate, an increase is necessary for the LOP Budget to purchase mainline fasteners for replacement for both the Red and Purple Lines.

Additionally, due to the Red and Purple Lines operating heavy rail service for over 27 years, the mainline Type 1 rail fasteners have reached the end of their useful life, and replacement of these rail fasteners is required.

BACKGROUND

The Type 1 rail fasteners, manufactured by LORD Corp., were installed during the original

construction of the Red Line and have been in use since revenue service started in 1993. The original fasteners were designed with a life expectancy of 25 to 30 years. The continuous rail service in the underground tunnel environment has led to some fasteners to wear and crack. The Track Maintenance Department has been inspecting the fasteners regularly and replacing the failed fasteners when needed. However, this maintenance work has caused rail service to be impacted as trains are required single-tracked for replacement, or train speeds are required to be significantly reduced while repairs are made. The Maintenance and Engineering Department completed an examination of the condition of the mainline fasteners and determined that an entire replacement of Red and Purple mainlines should be performed using dedicated resources within a specific timeframe.

DISCUSSION

The scope of work involves removing approximately 112,000 of the original Type 1 fasteners and installing new and enhanced Type 1 fasteners with an improved life expectancy of 30 to 35 years. The enhanced Type 1 fasteners have greater durability specialized for underground tunnel environment environments. As a State of Good Repair (SGR) project, the fasteners are critical infrastructure assets and must be replaced promptly. The work is scheduled to be completed within five (5) years. Replacement of the fasteners will increase the reliability of the Red and Purple Lines while preventing service disruptions caused by rail fasteners that fail.

Staff has estimated a LOP increase of \$8,850,000 to proceed with the award of Contract No. OP8666000 in support of the Red and Purple Lines project scope. The increase in the LOP is mainly attributed to increased labor costs to replace fasteners to complete this work per the schedule, engineering design and project management support necessary to oversee design submittals and ensure timely project completion of this effort, and contingency related to unforeseen price increases for critical materials along with change orders that may be required during the construction phase of this work. Please refer to Attachment B for the cost breakdown of capital project 205125

This project is part of Metro's commitment to delivering a robust SGR program that invests in modernization, enhancement to renew asset life and reduce asset breakdowns that impact daily service and customer experience.

DETERMINATION OF SAFETY IMPACT

Rail fasteners directly impact the safety of train movements as they keep the rail fixed to the appropriate track gauge and prevent the rails from shifting. A train derailment can occur if fasteners do not hold the rail at the appropriate gauge and cause the rail to shift.

In accordance with Metro's SGR requirements, fasteners that have reached the end of their useful life must be replaced in a timely manner to comply with safety and reliability standards, alongside meeting Federal Transit Administration and California Public Utilities Commission regulations.

FINANCIAL IMPACT

This action will increase the LOP budget by \$8,850,000 for capital project 205125. For FY23, \$5,000,000 in existing and approved funding will be provided from capital project number 205125 - Metro Red and Purple Mainline Fastener Replacement, cost center 3960 - Infrastructure Renewal Program, Account 53102 - Acquisition of Equipment. Since this is a multi-year contract, the Project Manager will ensure that the balance of LOP funds is budgeted in future fiscal years.

Impact to Budget

The source of funds for this action includes the Federal, State Transportation Development Act (TDA), Measure R, and Measure M. Allocation of these funds to this effort maximizes their intended use given approved funding guidelines and provisions. The source of funds will be dependent on the specific capital project funding.

EQUITY PLATFORM

The benefits of this action are to ensure that transit infrastructure assets are maintained in a state of good repair countywide, including assets that provide transit service for disadvantaged communities. Based on the 2019 Customer Survey, the Red and Purple heavy rail lines serve the following ridership:

- 27.7% below the poverty line
- 56.4% had no car available
- Rider Ethnicity: Latino 38.9%; Black 13.1%; White 25.8%; Asian/Pacific Islander 15.2%; Other 6.5%

In addition, areas served include Union Station to Downtown LA, Koreatown (Wilshire/Western), Hollywood, Universal City, and North Hollywood, a majority of which serve people living in Equity Focus Communities.

Replacement of the fasteners will ensure that the Red and Purple Lines will operate efficiently and safely. This allows Metro to deliver safe, affordable, and dependable transit services that connect marginalized groups with jobs, housing, education, food services, family, and health care.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of this recommendation supports the following Metro Strategic Plan Goals:

1. Provide high-quality mobility options that enable people to spend less time traveling.
2. Deliver outstanding trip experiences for all users of the transportation system.

Replacement of the mainline fasteners will help maintain rail safety, service, and reliability standards to provide a world-class transportation system that enhances the quality of life for all who live, work, and play within Los Angeles County.

ALTERNATIVES CONSIDERED

Alternatives to the project should not be considered as utilizing existing in-house workforces to replace the mainline rail fasteners is not feasible. The Track Maintenance Department presently does not have enough manpower to dedicate to the timely completion of the project work. Complete replacement of heavy rail fasteners is required to timely maintain safety requirements. Track Maintenance workforces concurrently maintain Metro's day-to-day systems and oversee the integration of expansion rail lines.

NEXT STEPS

Upon approval of the recommendations, staff will increase the authorized Life of Project budget and Vendor/Contract Management will execute Contract No OP8666000.

7.	Project Manager: Wyman Jones	Telephone Number: 213-617-6229

A. Procurement Background

This Board Action is to approve Contract No. OP8666000 issued to procure goods and services to replace Metro Red and Purple Rail Mainline fasteners. Board approval of contract awards are subject to resolution of any properly submitted protest.

IFB No. OP86660 was issued in accordance with Metro's Acquisition Policy and the contract type is a firm fixed price.

Four (4) amendments were issued during the solicitation phase of this IFB:

- Amendment No. 1, issued on March 24, 2022, revised Exhibit A: Scope of Services;
- Amendment No. 2, issued on April 4, 2022, extended the bid due date from April 14, 2022 to April 29, 2022;
- Amendment No. 3, issued on April 12, 2022, revised Exhibit A: Scope of Services;
- Amendment No. 4, issued on April 22, 2022, extended the bid due date from April 29, 2022 to May 6, 2022;

A total of four (4) bids were received on May 6, 2022. A pre-bid meeting was held on March 29, 2022. All four (4) bidders and other interested companies attended a site

visit at Union Station on March 29, 2002, right after the pre-bid meeting, to observe the existing trackway and train operations through the crossovers on the B/D (Red/Purple) Line. The Type 1 fasteners to be replaced were shown to all, and answers were provided by Metro to questions during the site visit. Metro issued four (4) clarifications answering a total of 82 questions received from potential bidders.

B. Evaluation of Bids

This procurement was conducted in accordance and complies with LACMTA's Acquisition Policy for a competitive sealed bid. The four (4) bids received are listed below in alphabetical order:

1. Delta Railroad Construction, Inc.
2. Herzog Contracting Corporation
3. Railworks Track Services, LLC
4. Transdev Rail, Inc.

Herzog Contracting Corporation, Railworks Track Services, LLC and Transdev Rail, Inc. were determined to be responsive, responsible and deemed qualified to perform the services based on Exhibit A: Scope of Services.

Delta Railroad Construction, Inc. was determined to not be responsive because they did not meet the Disadvantaged Business Enterprise (DBE) commitment of one percent (1%) of the total contract price.

C. Price Analysis

Metro's Independent Cost Estimate (ICE) was developed to establish the most likely cost rather than the lowest optimistic cost to perform the services. This was done by assuming average but reasonable labor productivity and actual material pricing from one of Metro's approved suppliers for Type 1 DF Fastener. The ICE also includes 12% Home Office Overhead & Profit, and an escalation of 8% for materials and labor only.

The recommended bid price from Transdev Rail, Inc. has been determined to be fair and reasonable based upon adequate price competition and selection of the lowest responsive and responsible bidder. Metro confirmed Transdev Rail Inc.'s understanding of the scope and complexities of the work.

Bidder Name	Bid Amount	Metro ICE	Responsive
Transdev Rail, Inc.	\$28,703,169.90	\$50,910,046.00	Yes
Railworks Track Services, LLC	\$34,822,689.00	\$50,910,046.00	Yes
Herzog Contracting Corporation	\$43,587,500.00	\$50,910,046.00	Yes
Delta Railroad Construction, Inc.	\$65,185,005.00	\$50,910,046.00	No

D. Background on Recommended Contractor

The recommended firm, Transdev Rail, Inc., located in San Dimas, Ca has been in business for thirteen (13) years, and is a leader in the railroad construction industry. They are the railroad maintenance division of Transdev North America, and provide railroad maintenance, project oversight, and construction services. Transdev North America is one of the largest private sector operators of multiple modes of transit in North America.

Transdev Rail, Inc. recently completed the Laguna Niguel to San Juan Capistrano Passing siding with OCTA in 2021, Trolly Track Improvements with San Diego Metropolitan Transit System in 2019, and Truck Rehabilitation Services with Southern California Regional Rail Authority in 2021.

Transdev Rail Inc. has worked at Southern California Regional Rail Authority (Metrolink) under a track maintenance contract since 2008, and was formerly known as Veolia Transportation Maintenance and Infrastructure, Inc.

Transdev Rail Inc.'s management team is composed of a project manager, a project engineer, and a project superintendent. In addition, they have an experienced construction crew composed of a foreman, equipment operators and laborers.

The project manager, Vannith Chuoy has over 30 years of experience in engineering, maintenance and construction of railroad projects. He also has over 10 years of business management experience, knowledgeable with Federal Railroad Administration Parts 213 & 214, CPUC codes of regulation, and General Code of Operating Rules for Maintenance of Way employees.

Board Report

File #: 2022-0395, File Type: Appointment

Agenda Number: 35.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE AUGUST 18, 2022

SUBJECT: MEMBERSHIP ON METRO'S SAN FERNANDO VALLEY AND WESTSIDE CENTRAL SERVICE COUNCILS

ACTION: APPROVE RECOMMENDATION

RECOMMENDATION

APPROVE nominees for membership on Metro's San Fernando Valley and Westside Central Service Councils.

ISSUE

Each Metro Service Council (MSC) is comprised of nine Representatives that serve terms of three years; terms are staggered so that the terms of three of each Council's nine members expire annually on June 30. Incumbent Representatives can serve additional terms if re-nominated by the nominating authority and confirmed by the Metro Board.

The San Fernando Valley and Westside Central Service Councils each have one vacancy that was not filled when the seats' terms expired on June 30, 2022. The term of these now-vacant seats is July 1, 2022 - June 30, 2025.

BACKGROUND

Metro Service Councils were created in 2002 as community-based bodies tasked with improving bus service and promoting service coordination with municipal and local transit providers. The MSC bylaws specify that Representatives should live in, work in, or represent the region; have a basic working knowledge of public transit service within their region, and have an understanding of passenger transit needs. To do so, each Representative is expected to ride at least one transit service per month.

The MSC is responsible for convening public hearings to receive community input on proposed service modifications, and rendering decisions on proposed bus route changes considering staff's recommendations and public comments. All route and major service changes that are approved by the MSC will be brought to the Metro Board of Directors as an information item. Should the Metro Board decide to move an MSC-approved service change to an Action Item, the MSC will be notified of this change prior to the next Service Council monthly meeting.

DISCUSSION

The individuals listed below have been nominated to fill vacant seats on the San Fernando Valley and Westside Central Service Councils by the seats' nominating authority. If approved by the Board, these appointments will serve out the remainder of the vacant seats' three-year term. A brief listing of the nominees' qualifications and the nomination letters from the nominating authority are provided in Attachments A and B.

For reference, the 2020 American Community Survey demographics and 2019 Metro Ridership Survey demographics for each region are compared to the membership, should these nominees be appointed.

San Fernando Valley

- A. Louis Herrera, San Fernando Valley Service Council, New Appointment
Nominated by: Los Angeles Mayor Eric Garcetti
Term: July 1, 2022 - June 30, 2025

Should these nominees be appointed, the San Fernando Valley (SFV) Service Council membership will compare to the region and the region's ridership as follows:

SFV Region Demographics	Hispanic	White	Asian/ Pacific Isl	Black	American Ind/ Alaska Native	Other
Council Region	40.0%	41.7%	11.2%	3.7%	0.1%	3.3%
Region Ridership	63%	13%	9%	9%	1%	5%
Membership/No.	5 (55%)	3 (33%)	0 (0%)	1 (11%)	0 (0%)	0 (0%)

The gender makeup of the SFV Service Council will be as follows:

Gender	SFV Membership/No.*	Los Angeles County
Male	66% / 6	49.7%
Female	33% / 3	50.3%

Westside Central

- B. Jessica Jinn, Westside Central Service Council, New Appointment
Nominated by: Los Angeles Mayor Eric Garcetti
Term: July 1, 2022 - June 30, 2025

Should this nominee be appointed, the Westside Central Service Council membership will compare to the region and the region's ridership as follows:

WSC Region Demographics	Hispanic	White	Asian/ Pacific Isl	Black	American Ind/ Alaska Native	Other
Council Region	42.4%	30.8%	13.5%	9.5%	0.2%	3.6%
Region Ridership	66%	7%	7%	16%	1%	4%
Membership/No.	5 (55%)	1 (11%)	1 (11%)	2 (22%)	0 (0%)	0 (0%)

The gender makeup of the Westside Central Cities Service Council will be as follows:

Gender	WSC Membership/No.	Los Angeles County
Male	33.3% / 3	49.7%
Female	66.6% / 6	50.3%

DETERMINATION OF SAFETY IMPACT

Maintaining the full complement of representatives on each Service Council to represent each service area is important. As each representative is to be a regular user of public transit, and each Council is composed of people from diverse areas and backgrounds, this enables each Council to better understand the needs of transit consumers including the need for the safe operation of transit service and safe location of bus stops.

EQUITY PLATFORM

Metro seeks to appoint Service Council members that represent the diverse needs and priorities reflective of the demographics of each respective region.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

Approval of this recommendation supports the following Metro Strategic Plan Goal: 30 Enhance communities and lives through mobility and access to opportunity.

ALTERNATIVES CONSIDERED

The alternative to approving this appointment would be for this nominee to not be approved for an appointment. To do so would result in reduced effectiveness of the Service Councils, as it would increase the difficulty of obtaining the quorum necessary to allow the Service Council to formulate and submit recommendations to the Board. It would also result in the Service Council having a less diverse representation of their respective service areas.

NEXT STEPS

There is one remaining vacancy on the San Gabriel Valley Service Council. Staff will continue to work with the Cities of Montebello, Monterey Park, and Rosemead to identify a candidate to fill the vacant seat. When this seat is filled, Metro's Service Councils will be fully appointed.

Staff will continue to monitor the quality of bus service from the customer's perspective, and share that information with the Service Councils for use in their work to plan and implement and improve bus service in their areas and the customer experience.

NEW APPOINTEE BIOGRAPHY AND QUALIFICATIONS

Louis Herrera, Nominee to San Fernando Valley Service Council

Louis Herrera is a Customer Programs Outreach Specialist for the Southern California Gas Company where he provides underserved communities, persons with disabilities, disabled Veterans and senior citizens with California Alternate Rates for Energy (CARE) Program and the Energy Savings Assistance Program information. Accompanied by Hugo, his guide dog, Mr. Herrera is a great ambassador in the community. Mr. Herrera is a native of the San Fernando Valley. He served as Commissioner for the City of Los Angeles Department on Disabilities for over eight years. In 2010, he was appointed by former President Barak

Obama to serve on the 21st Century Accessible Communications Federal Communications Commission (FCC) Committee focusing on functional user accessibility interface design. Mr. Herrera currently serves as President of Fiesta Educativa, an organization dedicated to serving the needs of Hispanic families with children with various disabilities, and President of Southern California Resource Services for Independent Living (SCRS-IL), an independent living center that serves individuals with disabilities throughout Southern California. Mr. Herrera earned a Master's degree in Assistive Technology and Rehabilitation Engineering from Cal State University, Northridge and a Bachelor of Science in Business Management from the University of Arizona. He enjoys spending time with his wife Marie of 25 years, family and friends. His hobbies include woodworking, leather crafting, and solving puzzles.

Jessica Jinn, Nominee to Westside Central Service Council

Jessica Jinn currently works as a climate advisor with the Natural Resources Defense Council, where she and works intimately with the City of Los Angeles on vehicle electrification and mobility projects. Prior to this, she was Communications Director at Asian Americans Advancing Justice – Los Angeles where she was in charge of developing advocacy and awareness-raising campaigns for issues relating to social justice and immigration. She previously worked extensively on electric vehicle planning and equity in roles with Renovate America and the Center for Sustainable Energy. Ms. Jinn graduated from NYU with a BS in Media, Culture, and

Communication, and received a Master's in economics and environmental policy from UC San Diego. She also serves as an Advisory Board Member for the Asian Pacific Islander Forward Movement.

APPOINTING AUTHORITY NOMINATION LETTERS

San Fernando Valley Service Council

ERIC GARCETTI
MAYOR

June 14, 2022

Ms. Dolores Ramos
Manager
Metro Regional Service Councils
One Gateway Plaza MS 99-7-1
Los Angeles, CA 90012

Dear Ms. Ramos:

This letter serves as my recommendation to appoint Louis Herrera to serve as a representative on the San Fernando Valley Service Council for the term of July 1, 2022 - June 30, 2025. Mr. Herrera will fill the vacancy that will be created by Donald Weissman, who will be stepping down at the end of his term this month.

I certify that in my opinion, Mr. Herrera is qualified for the work that will devolve upon him, and that I make this nomination solely in the interest of the Los Angeles County Metropolitan Transportation Authority.

Please let me know if you need any additional information.

Sincerely,

ERIC GARCETTI
Mayor

Board Report

File #: 2022-0323, File Type: Contract

Agenda Number: 36.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE AUGUST 18, 2022

SUBJECT: METRO FREEWAY SERVICE PATROL

ACTION: APPROVE RECOMMENDATIONS

RECOMMENDATION

AUTHORIZE the Chief Executive Officer to:

- A. EXECUTE contract modifications for 4 existing Freeway Service Patrol (FSP) contracts in an aggregate amount of \$4,466,000 thereby increasing the contract amounts from \$4,816,957 to \$9,282,957 and extending the periods of performance for the following contracts:
- Beat 24: T.G. Towing, Inc. Contract No. FSP2833200FSP1424, for \$582,000 for up to 12 months, increasing the total contract amount from \$4,114,302 to \$4,696,302;
 - Beat 29: Platinum Tow & Transport, Inc. Contract No. FSP3470600B29, for \$438,000 for up to 12 months, increasing the total contract amount from \$3,707,024 to \$4,145,024;
 - Beat 42: Platinum Tow & Transport Contract No. FSP2842100FSP1442, for \$438,000 for up to 12 months, increasing the total contract amount from \$3,526,231 to \$3,964,231; and
 - Beat 60: Freeway Towing, Inc. Contract No. FSP5768900B60, for \$3,008,000 for up to 24 months, increasing the total contract amount from \$5,255,700 to \$8,263,700.
- B. APPROVE a change in the beat cap policy to increase the number of FSP Light Duty (FSPLD) tow service beats that a vendor can be awarded from 2 to 4, establish a two beat cap limit for FSP Heavy Duty (FSPHD), and a one contract cap for FSP Regional (FSRP) (Regional contracts are comprised of multiple beats).

ISSUE

Recommendation A authorizes contract modifications in the aggregate amount of \$4,466,000 to extend existing FSP tow service contracts to ensure no gaps in service.

Recommendation B increases the maximum number of FSPLD beats a vendor may have under contract, from 2 to 4 beats. In the last 3 solicitations for FSPLD beats, there have not been sufficient responsive/responsible bidders to award all contracts offered. The change to the beat cap is expected to increase the number of FSPLD contracts awarded. Increasing the beat cap limit to 4 beats will allow current capped out FSPLD contractors to bid and make the process more competitive for contracts. The recommendation also establishes a beat cap limit for FSPHD and a contract cap for FSPR (as detailed below in "Discussion").

BACKGROUND

As previously reported to the Board, during the early stages of the pandemic the worst congestion in the world had disappeared in a matter of weeks resulting in a reduction in FSP service levels. In late 2021, congestion started to return as people resumed their normal activities such as commuting to and from work. Except for a short period in January and February (spike in Covid-19 cases), congestion has steadily increased with a return to full (pre-pandemic) service levels as of May 1, 2022.

The FSP program is managed in partnership with Metro, CHP and Caltrans serving motorists on all major freeways in Los Angeles County. Metro's FSP program is the largest of its kind in the nation and maintains the highest level of benefit to cost ratio of all 14 FSP programs within California.

The program utilizes a fleet of roving tow and service trucks designed to reduce traffic congestion by efficiently rendering disabled vehicles operational by changing out flat tires, providing a jump start, adding water to the radiator, taping leaking hoses, or by quickly towing those vehicles from the freeway to a designated safe location. These services are free to motorists. Quickly removing motorists and their disabled vehicles from the freeway reduces the chances of further incidents caused by onlookers and impatient drivers. FSP helps save fuel and reduce air polluting emissions by reducing stop-and-go traffic through the provision of free services to motorists and operates seven days a week during peak commuting hours.

Metro contracts with independent tow service providers for light duty tow service on general purpose lanes on all major freeways in Los Angeles County, 2 light duty contracts on the ExpressLanes (I-110 and I-10), and 2 heavy duty (Big Rig) contracts (I-710 and SR-91) to assist large commercial vehicles. Each weekday, 138 tow and service trucks are normally deployed during peak commuting hours.

FSP light duty contracts are re-procured approximately every 4 years to replace aging vehicles, give tow service providers the opportunity to bid on new contracts, and allow new contracts to reset rates using current industry prices.

The annual benefit of the program is as follows:

- For individual beats, an annual Benefit to Cost Ratio of 9:1 - For every \$1 spent there is a \$9 benefit to motorists

- 300,000 motorist assists
- 5,175,845 hours motorists saved from sitting in traffic
- 8,897,277 gallons of fuel savings
- Approximately 78,296,040 kg of CO2 reductions
- The average motorist wait time for FSP service is 7 minutes (the average wait time for other roadside service is over 30 minutes)
- The Los Angeles County FSP program generates one-half of the cumulative benefits of the 14 FSP programs in the state.

DISCUSSION

The past 3 solicitations for FSP contracts have not resulted in a sufficient number of responsive/responsible bidders to award all contracts. Staff have held Metro Connect outreach events, attended tow industry events, and visited/called local tow operators to attract new bidders. Unfortunately, to date, these efforts have not produced significant interest in the program culminating in a recent cancellation of an IFB for eleven FSPLD beats. Additional outreach events will be held prior to the release of a subsequent IFB in September. Staff expects to return to the Board at the appropriate time for authorization to award new contracts.

Recommendation A requests funding to extend periods of performance for three Beats (24, 29, & 42) to avoid a gap in service provision. Authorizing contract modifications will ensure seamless and efficient operation of the FSP program until a new solicitation and contract award have been completed. It will also provide funds to address operating costs not recovered by contractors due to the reduction in service levels, increased insurance premiums, major maintenance expenses, fluctuating fuel prices, and to replenish funding to contracts that provide support to Caltrans construction projects through a Cooperative Agreement which reimburses Metro for FSP support.

Recommendation A will also increase funding and extend the period of performance for the Beat 60 FSPHD contract. Extending the contract for 24 months allows Metro to continue to provide the service using the existing high-cost/long-life vehicles that were underutilized for 2 years during the pandemic due to service reductions. The alternative is to allow the contract to expire and procure a new contract at potentially much higher hourly rates. Heavy duty tow trucks cost upwards of \$750k and can operate effectively for over 1 million miles.

On September 1, 2001, the Board approved two recommendations; A) Reducing the beat cap policy from 3 beats to 2 beats and B) Placing a temporary restriction on the number of beats a bidder can be awarded, without previous FSP experience in Los Angeles County, to one beat. Staff initiated these recommendations in response to a contractor with 3 beats defaulting and creating a significant service gap until the beats could be reprocured. Although there is always a risk of contractors defaulting, the risk is much lower now considering the higher value of FSP contracts, how the bidders are scrutinized during the solicitation process, and active program management to identify potential issues. Increasing the number of beats a contractor may operate from 2 to 4, as outlined in Recommendation B, will increase the number of available bidders for FSPLD contracts. The reason for increasing the beat cap to 4 versus 3 beats is so bidders with experience can bid on the 2 beat contracts that will be offered in the subsequent solicitation.

To further reduce program costs, staff have consolidated 2 beats into a single contract. Normally a single beat contract requires 1 backup truck to fill in when there are vehicle issues. However, by consolidating 2 beats into a single contract, it is possible to eliminate one of the backup trucks at a saving of approximately \$140,000. The recommendation will also establish a beat cap limit of 2 for FSPHD and a contract cap limit of 1 for FSPR. If the Board approves the recommendation, the combination of existing contracts and new awarded contracts may create a temporary overlap situation for several months where a contractor may exceed the program's beat/contract limits. At that time, staff will establish a reasonable contract overlap period on a case-by-case basis. Considering these factors, staff supports increasing the number of FSPLD beats a contractor with experience can operate from 2 beats to 4 beats, establishing a two-beat limit for FSPHD and a 1 contract limit for FSPR, while still placing a limitation on bidders/proposers without specific FSP experience to assure their ability to provide services consistent with Metro requirements through their initial contract.

DETERMINATION OF SAFETY IMPACT

The FSP Program enhances safety on Los Angeles County freeways by assisting motorists with disabled vehicles, towing vehicles from freeway lanes to prevent secondary accidents and removing debris/obstacles from lanes that can be a hazard to motorists.

FINANCIAL IMPACT

The amount of \$4,466,000 for the modifications is included in the FY23 budget in cost center 3352, Metro Freeway Service Patrol.

Impact to Budget

The FSP program is funded through a combination of dedicated state funds, SB1 funding and Proposition C 25% sales tax revenues. These funds are not eligible for Metro Bus and Rail Operating and Capital expenses. Metro is also reimbursed for the services provided to support Caltrans construction projects.

EQUITY PLATFORM

DEOD has implemented a two-phased Small Business Recruitment Strategy to increase the number of SBE/DVBE certified vendors specific to the towing industry and tow service providers. Through DEOD's Metro Connect Outreach Program), Congestion Reduction's Project Management and Contract Administration staff have scheduled separate pre-solicitation outreach events targeting untapped SBE, DVBE, and DBE-eligible firms within specific North American Industry Classification System (NAICS) codes. In addition, FSP program management staff will continue to outreach to the towing community by attending the annual tow show sponsored by the California Tow Truck Association, contact local towing firms via phone or in person, and reach out to former FSP tow contractors.

FSP contracts have continued to support Metro's Equity Platform by providing ever-increasing access to opportunities across various service areas. With three of four beats awarded to SBE Prime Contractors, the participation levels for the Small Business Enterprise program are significant with 100% credit captured for these contracts.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The FSP Program aligns with Strategic Goal 1: Provide high-quality mobility options that enable people to spend less time traveling. The program mitigates congestion on all major freeways in Los Angeles County.

ALTERNATIVES CONSIDERED

The Board may decide not to authorize the increase in contract modifications and/or the changes to the beat/contract limit policy. This alternative is not recommended as it could adversely impact the existing contracts and the level and quality of FSP service provided in Los Angeles County.

NEXT STEPS

Upon Board approval, staff will execute the necessary contract modifications to assure efficient and seamless delivery of the FSP program and implement the new beat/contract limits policy. Staff will work on new procurements to address needs beyond FY23. Barring additional unforeseen impacts, staff will return to the Board at the appropriate time to secure approval for new contracts with services to commence in June 2023.

A. Procurement Background

This Board Action is to approve Contract Modification Authority (CMA) increases for multiple firm-fixed unit rate contracts (see Attachment B-Contract Modification Authority Summary) for towing services in support of the Metro Freeway Service Patrol (FSP) program.

The proposed CMA increase for 4 FSP general purpose lanes and ExpressLane contracts in the amount of \$4,466,000 will allow required towing services for the FSP program to continue and extend the period of performance so as to support unanticipated events, redeployment, and support during freeway construction work, and service delivery until new contracts are established.

Attachment B - Contract Modification Authority Summary shows the list of contracts that require an increase in CMA.

Attachment C - Contract Modification/Change Order Log shows that modifications have been issued to date and no contract modifications are currently in negotiations or pending.

B. Cost

Contract modifications that are required in the future will be deemed fair and reasonable prior to execution.

DEOD SUMMARY

METRO FREEWAY SERVICES PATROL/VARIOUS BEATS

A. Small Business Participation (Modification)

Contractors made Small Business Enterprise (SBE) commitments on four (4) FSP contracts included in this modification, three (3) of which are meeting their SBE commitment(s) and three (3) of which are SBE Primes. On the remaining beat, the Contractor made a Small Business Enterprise (SBE) and Disabled Veterans Business Enterprise commitment.

Freeway, Towing (Freeway), the FSP Contractor for Beat 60, made a 7.23% SBE and 3.42% DVBE commitment. Based on payments, the contract is 74% complete and the current SBE participation is 5.65%, representing a shortfall of 1.58% and the current DVBE participation is 4.65%, exceeding the DVBE commitment by 1.45%. Freeway contends that the shortfall is the result of decreased service requests due to the pandemic. However, Freeway indicated in the coming months, they will be servicing their trucks through Casanova Towing Equipment, Inc., an SBE, which will increase SBE participation. Additionally, Metro's Project Manager worked closely with DEOD in reviewing corrective action plans submitted by Freeway and confirm that proposed service increases to pre-pandemic levels should significantly improve small business participation.

Notwithstanding, Metro Project Managers and Contract Administrators will continue to meet bi-monthly with DEOD and the FSP Contractors in shortfall to review participation levels and ensure that they are on target to meet or exceed their SBE/DVBE commitments.

	Total	3.42%	4.87%

¹Current Participation = Total Actual amount Paid-to-Date to DBE firms ÷ Total Actual Amount Paid-to-date to Prime.

B. Living Wage and Service Contract Worker Retention Policy Applicability

The Living Wage and Service Contract Worker Retention Policy (LW/SCWRP) is applicable to this contract. Metro staff will monitor and enforce the policy guidelines to ensure that applicable workers are paid at minimum, the current Living Wage rate of \$22.67 per hour (\$17.00 base + \$5.67 health benefits), including yearly increases. The increase may be up to 3% of the total wage, annually. In addition, contractors will be responsible for submitting the required reports for the Living Wage and Service Contract Worker Retention Policy and other related documentation to staff to determine overall compliance with the policy.

C. Prevailing Wage Applicability

Prevailing wage is not applicable to this contract.

D. Project Labor Agreement/Construction Careers Policy

Project Labor Agreement/Construction Careers Policy is not applicable to this Contract. PLA/CCP is applicable only to construction contracts that have a construction related value in excess of \$2.5 million.

**OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE
AUGUST 18, 2022**

SUBJECT: OPERATIONS EMPLOYEES OF THE MONTH

RECOMMENDATION

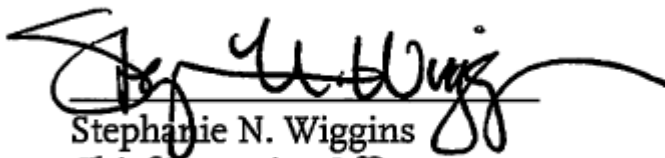

RECOGNIZE Operations Employees of the Month.

Equity Platform

Employee of the Month (EOM) nominations to the Chief Operations Officer must be for frontline employees or field supervisors serving in a customer-facing role. Operations management is encouraged to nominate employees that have achieved excellence and/or gone above and beyond their assigned job role/functions and are diverse in both gender and ethnicity. In addition, a review of the location, job responsibilities, and seniority is considered when making final selections to ensure there is diverse representation among the various groups within the department. Operations also work with Logistics, which nominates employees once a quarter that works in our storerooms.

Ridership Analysis Relative to Equity Focused Communities (EFC analysis will switch to 2022 EFC map for Sept Oral Report):

- Bus: Percent of all weekday bus activity occurring within Equity Focus Communities increased from 73% in Oct 2019 to 76.3% in May 2022 (bus stop data available month to month)
- Rail: Percent of all weekday rail activity occurring within Equity Focus Communities increased from 51.7% to 59.9% from FY19 to FY21 (rail station data available Fiscal Year level)

Metro

Operator COVID Status

Goal

- Goal: no more than 30 new COVID cases per month for operators
- June 2022 total: 104 operator cases

Operator Staffing Levels

- Bus Operator 8-week training classes are at 66% completion rate
- As of June 2022, there were 188 employees in training (132 started and 56 continuing in training) and another 68 completed training

Cancelled Service

Goal

- Goal: No more than 2.00% systemwide bus service cancellations
- June averages:
 - 2.6% Weekday (compared to 10.00% in January 2022)
 - 3.9% Saturday (compared to 10.00% in January 2022)
 - 8.8% Sunday (compared to 13.00% in January 2022)

Ordered Callbacks

- Goal: No more than 200 mandatory (ordered) call backs per week systemwide
- February 2022 ordered call back average: 681
- Ordered call backs for June 2022: 499

Metro

Recruitment Efforts- New Streamed Lined Process

Hiring Initiatives

- Hiring Events on June 25th and July 23rd, yielded 163 and 147 conditional offers, respectively
- Piloted Spark Hire as of July 8th, a video interview platform, in addition to traditional interview methods (i.e. phone or in-person), to streamline the Bus Operator interview process
- Upcoming In-Person Hiring Event scheduled on August 27th, 2022, at LA Valley College

Continue Employee Engagement, Incentives, and Hiring Programs

- ✓ Weekend Rewards
- ✓ New Hire Sign-On Bonus
- ✓ Employee Referral Programs

Retention Initiatives

- ✓ Service Planning and Scheduling Comprehensive Review of Upcoming Service Changes with Bus Operators
- ✓ Review of Bus Operator Safety Barrier Design for Improved Safety
- ✓ Launched Bus Operator Bystander Training and Respect the Ride Campaign for Improved Safety
- ✓ Re-launched Splitting the Headway Training for Improved Line Instruction at OCI
- ✓ Development of Management/Director and Welcome Metro Graduates! Program - Includes Line Instructor Mentorship Component
- ✓ Continuation of In-Person Quarterly Metro HQ Executive Visits to Divisions for Improved Bus Operator/Management Communication
- ✓ Multiple Operator Recognition Programs at Home Divisions
- ✓ Launch of September 2022 Social Events at Divisions
- ✓ Metro Rodeo Planned Activities – Bus Rodeo October 22, 2022 and Rail Rodeo November 5, 2022

Board Report

File #: 2022-0486, **File Type:** Informational Report

Agenda Number: 39.

OPERATIONS, SAFETY, AND CUSTOMER EXPERIENCE COMMITTEE AUGUST 18, 2022

SUBJECT: MONTHLY UPDATE ON PUBLIC SAFETY

ACTION: RECEIVE AND FILE

RECOMMENDATION

RECEIVE AND FILE Public Safety Report.

ISSUE

Metro's main priority is to provide a safe experience for riders and a safe work environment for employees. As noted in the 2021 Public Safety Survey, safety is a top concern for riders - about four-in-ten respondents who have reduced their Metro ridership cited their safety (not related to COVID) as a reason. As a result, the Chief Safety Office is researching, listening, and reassessing current safety programs, and launching new safety initiatives. This report provides a status update on these public safety initiatives.

BACKGROUND

Metro's mission is to provide high-quality, courteous security across all Metro services and facilities so that every rider feels and is safe while using the Metro system. Metro has implemented several initiatives aimed at educating people of all ages on how to safely ride public transportation, as well as providing riders with the tools to report crime and foster an environment where they are empowered to look out for themselves and each other. Additionally, the Chief Safety Office has partnered with contracted law enforcement agencies to ensure there are community outreach events across all law enforcement jurisdictions. This is so that the riding public may familiarize themselves with the individuals that keep them safe. Finally, the Chief Safety Office continues to incorporate information from surveys, customer complaints, and physical security assessments, amongst others, to analyze a wide array of safety-related issues. Using this information, the Chief Safety Office formulates solutions to problems, anticipates future issues, and develops programs and initiatives for areas needing improvement.

DISCUSSION

The Chief Safety Office is responsible for the strategic and cohesive deployment of Transit Security, private security, and law enforcement personnel. Through their collaboration, they focus on increasing their presence in the system, protecting Metro riders, employees, and infrastructure, and

conducting fare and code enforcement. Furthermore, the Chief Safety Office oversees safety programs and tools such as the *Respect the Ride* campaign, the Transit Watch app, the Public Safety Advisory Committee, and other efforts that are responsive to the security needs of riders and employees. The following initiatives outline the status of existing programs and the research efforts for new initiatives.

METRO TRANSIT SECURITY (MTS)

Quality Service Audits

For May, MTS completed three (3) Quality Service Audits. MTS Supervisors randomly contacted two (2) external partners and one (1) patron to gain feedback on the performance of our officers. The following are the questions and the ratings from those surveyed.

Performance Category	Greatly exceeded expectations	Exceeded expectations	Met expectations	Needs improvement	Unacceptable
How would you describe the quality of service provided by the Metro Transit Security Officer?	1	-	-	2	-
How would you describe the friendliness/politeness of the Transit Security Officer?	-	1	2	-	-
How knowledgeable did the Transit Security Officer appear in his/her job?	-	1	2	-	-

For June, MTS completed seven (7) Quality Service Audits. MTS Supervisors randomly contacted two (2) internal partners and five (5) patrons to gain feedback on the performance of our officers. The following are the questions and the ratings from those surveyed. (Note that one QSA was submitted without ratings from the patron.)

Performance Category	Greatly exceeded expectations	Exceeded expectations	Met expectations	Needs improvement	Unacceptable
How would you describe the quality of service provided by the Metro Transit Security Officer?	1	5	-	-	-
How would you describe the friendliness/politeness of the Transit Security Officer?	1	5	-	-	-
How knowledgeable did the Transit Security Officer appear in his/her job?	1	5	-	-	-

Calls for Service

For May, Transit Security received 593 calls for service, of which 496 (84%) Transit Security

responded to. For June, Transit Security received 491 calls for service, of which 361 (74%) Transit Security responded to. Note, calls that Transit Security didn't respond to were assigned to law enforcement, contract security, or other entities such as maintenance, Rail Operations Control, Bus Operations Control, local fire department, or elevator tech. The following is a breakdown of the call categories and response times.

Service Type	June 2022		May 2022		April 2022	
	MTS Calls Responded	Average Response Time	MTS Calls Responded	Average Response Time	MTS Calls Responded	Average Response Time
Routine	250	14 minutes	437	12 minutes	293	7 minutes
Priority	110	12 minutes	59	6 minutes	218	9 minutes
High Priority	1	3 minutes	0	n/a	0	n/a

LAW ENFORCEMENT

Our law enforcement partners, LAPD, LBPd, and LASD, work in tandem with Transit Security. Their primary duties are to support Transit Security in situations where it rises to a level of a crime. Furthermore, they lead special task forces to combat repeated crimes such as copper theft and station damage.

Law Enforcement Contract Compliance

SSLE continues to verify that all field Officers/Deputies on duty are tapping their Metro-issued badges at all TAP machines when patrolling Metro buses, trains, and rail stations/corridors. This ensures high visibility for riders utilizing Metro's services while establishing a method of accountability for our contracted law enforcement personnel.

The Compliance Unit reviewed TAP reports provided by Metro's TAP Department against law enforcement deployment documents to verify that Officers/Deputies are tapping at turnstiles and/or readers. After performing a TAP data quality assurance report from late April to late May 2022, it was determined that all contracted law enforcement partners were tapping their Metro-issued badges and securing their assignments across the system.

Law Enforcement Highlights

Below are some highlights of our law enforcement partners' hard work in July on the Metro system.

On July 18, 2022, while conducting train rides at the L Line Duarte Station, LASD's Community Enhancement Team Deputies arrested a suspect wanted for grand theft person and attempted robbery. The suspect committed the crimes onboard the L Line trains on June 25, 2022, and July 8, 2022. Both crimes were captured on CCTV footage, and lookout bulletins depicting the suspect were issued to Transit Services Bureau (TSB) deputies. As a result, the Deputies detained the suspect and positively identified him as the suspect who committed both crimes.

On July 24, 2022, LAPD officers assigned to a fixed post at the Westlake/ MacArthur Park Station observed a male unconscious and not breathing. The officers requested a rescue ambulance and began administering CPR. The partner officer administered NARCAN, which was effective. The

subject started breathing independently and was treated at the scene by LAFD and later transported to the Good Samaritan Hospital.

PRIVATE SECURITY

Private security guards are a great asset to Metro's public ecosystem as they can provide a presence where and when Transit Security officers are limited. Their primary focus is to protect secured areas at stations and private property at Divisions.

Currently, they are aiding the *Respect the Ride* campaign by roving station platforms in efforts to mitigate loitering, observing, and reporting.

OPERATIONS SAFETY PROGRAMS

Respect the Ride Campaign

Since the program's launch in April, Metro continues to seek ways to help improve riders' transit experience. For example, in May, the program's Street Teams roamed around the stations and distributed 18,500 masks to assist riders in protecting themselves from COVID-19. Efforts like the one mentioned above help improve riders' perception of safety and create an opportunity for our patrons to engage with our staff. On July 11th, the campaign expanded to Universal City while maintaining a presence at Union Station, 7th & Metro, and North Hollywood.

As mentioned in last month's report, Metro conducted a *Respect the Ride* survey to collect campaign feedback and gain insight into the effectiveness of the newly launched efforts. The following are highlights of the survey results:

- About 52% of the respondents saw Metro personnel helping riders purchase or use TAP cards.
- Over 50% of survey respondents agree that Metro security and/or law enforcement staff is helpful and courteous.
- Over 50% of the respondents were aware of the *Respect the Ride* efforts.
- More than 50% of survey respondents agree that clean stations make them feel safer.
- About 25% of the survey respondents strongly disagree when asked if they feel secure at Metro train stations.

Staff is reviewing the survey results and modifying the program to ensure it continues to meet riders' needs.

Fare Enforcement Mystery Rider Program

Metro's Office of Civil Rights established the Fare Enforcement Mystery Rider Program in December 2021. The Mystery Rider Program verifies that Metro employees are conducting fare enforcement activity in a non-discriminatory manner and that Metro's law enforcement partners are not conducting fare enforcement. Mystery Riders are diverse in gender and racial/ethnic background. To date, Mystery Riders have made over 11,735 observations, with no patterns of discriminatory enforcement being noted. Moving forward, SSLE will incorporate OCR's Mystery Rider data into the monthly

public safety update to the Board.

Bus/Rail Operator Assaults and Bus Boardings

In May, there were a total of nine (9) assaults on bus/rail operators, with seven (7) assaults occurring in LAPD's jurisdiction and two (2) assaults occurring in LASD's jurisdiction. Furthermore, there were 14,684 bus boardings by LAPD officers and 4,398 bus boardings by LASD deputies on various routes throughout the system.

In June, there were a total of fourteen (14) assaults on bus/rail operators, with twelve (12) assaults occurring in LAPD's jurisdiction and two (2) assaults occurring in LASD's jurisdiction. Furthermore, there were 11,194 bus boardings by LAPD officers and 4,284 bus boardings by LASD deputies on various routes throughout the system.

LASD's Special Assignment Unit (SAU): Bus Saturation Operation

A pilot SAU Bus Saturation Operation was launched to decrease operator assaults and increase safety perception. It began on April 25, 2022, and it involves deploying deputies on the bus lines with the highest instances of violence committed against operators.

Bus Operator Focus Group Feedback

In partnership with Operations, SSLE attended Bus Operator Focus Group sessions to hear first-hand safety concerns and operator feedback. Bus Operators across all Divisions made the following concerns/comments regarding safety/security:

- Operators want a greater presence of law enforcement/security on the bus system, particularly after 3 pm into the late-night owl service when they feel the least safe.
- Operators want officers to have more interaction with them, walk through the bus, and exit through the rear door.
- Operators consistently feel unsafe from passenger confrontation. Operators would like personal safety training so they can defend themselves from attack.
- Operators want law enforcement to ride the bus for a few stops. Previously, LASD had a Deputy riding the bus for a few stops while another Deputy followed in a patrol vehicle.
- Metro needs to establish a zero-tolerance policy for abusive behavior against Operators and there needs to be a "Respect the Operator" type campaign that lets people know there are serious consequences for verbally or physically assaulting an Operator.
- Operators want a fully enclosed barrier that doesn't allow for any contact from riders.

In response to this feedback and aligning with the CEO's goal of increasing operator safety, the Chief Safety Office will deploy 50% of its officers during night service on the Metro system. Our staff is currently developing a deployment model to realign resources and a date for implementation.

EMERGENCY MANAGEMENT

Emergency Operations Center Activation

On July 19, 2022, in support of the Major League Baseball (MLB) All-Star Game, the Emergency Operations Center (EOC) was activated at a Level 2 (partial activation) to support Operations, Transit Security, and local and federal law enforcement during the evening event. The EOC conducted regular briefings with internal and external stakeholders on rail ridership, bus shuttling activities, and law enforcement/security deployments to ensure a safe traveling experience for visiting fans and our daily patrons. In addition, the EOC provided situational awareness updates to all engaged Metro departments and external agencies via periodic dissemination of Situation Report(s). There were no significant safety/security issues to report.

COMMUNITY ENGAGEMENT

Public Safety Advisory Committee

From June through July 2022, PSAC held four (4) general meetings, four (4) ad-hoc subcommittee meetings, and two (2) working sessions. In these meetings, the following recommendations were developed: PSAC's Vision of Metro's Public Safety Ecosystem (Attachment E), Place-Based Implementation Strategy (Attachment F), Future Recruitment & Outreach (Attachment G), and Metro's Community Engagement on Public Safety Topics (Attachment H).

EQUITY PLATFORM

The random Quality Service Audits (QSA) provide a key assessment tool to help measure and enhance customers' perception of safety, security, customer service, and public sentiment toward Metro Transit Security. This comes in the form of a survey that asks to rate the service provided by Transit Security Officers. Participants range from external and internal personnel and patrons who ride the system. Spanish language forms are utilized to increase rider feedback. Transit Security is researching other strategies to ensure QSA surveys are inclusive to all riders, regardless of preferred language or ability.

YTD QSA Demographics (Jan - Jun)	YTD Avg. Rating	2019 System Demographics (Onboard Survey)
13.16% African American	15.5	15% African American
31.58% Latino	19	58% Latino
34.21% White	18	12% White
7.89% Asian/Pac. Isl	17	9% Asian/Pac. Isl
0% Native American	NA	1% Native American
0% Other	NA	5% Other
13.16% No Information	13.2	

As mentioned earlier, Metro's Customer Experience department conducted a *Respect the Ride* survey. To make the survey more accessible, it was available in English and Spanish, printed and

online via QR code. The survey results indicate some riders do not feel safe at our stations. Metro understands that safety looks different for everyone. Therefore, we are working on addressing safety deficiencies, exploring, and testing new strategies, such as deploying 50% of our security officers at night, to learn if this approach makes our facilities feel safer for all riders.

NEXT STEPS

Staff will continue to monitor our law enforcement partners, private security, and Transit Security performance, monitor crime stats, and adjust deployment as necessary.

Metro Public Safety Advisory Committee

General Committee Meeting #28

Meeting Summary

Wednesday, June 1st, 2022

5:00 – 7:00 p.m.

I. Call to Order

a. **Zoom Meeting Protocols**

- i. Facilitator Richard France called the meeting to order. Facilitator Dryjanski announced that Spanish and American Sign Language interpretation services would be available during the meeting.

b. **Agenda**

- i. Facilitator France reviewed the agenda for the meeting.

c. **Roll Call**

Present: Andrea Urmanita, Ashley Ajayi, Darryl Goodus, Glenda Murrell, James Wen, Jose Raigoza, Maricela de Rivera, Chauncey Smith, Mohammad Tajsar, Esteban Gallardo, Ma'ayan Dembo, Sabrina Howard, Scarlett de Leon, Clarence Davis, Charles Hammerstein, Glenda Murrell, Constance Strickland

Absent: Raul Gomez, Jessica Kellogg, Florence Annang

d. **Approval of Meeting Minutes for 05/18/22**

- i. Committee members voted to approve the meeting minutes for the May 18th, 2022, meeting.
- ii. Meeting minutes were approved unanimously.

II. General Public Comment

The facilitators opened public comments. No public comments were provided.

III. Discussion

Envisioning the future public safety ecosystem on Metro

Committee members discussed strategies and programming that would make up the committee's long-term vision for a public safety approach that will be presented to Metro staff for their consideration.

a. **Topic summaries**

- i. Facilitator France described six topic areas related to public safety that the committee has discussed over the past year: station programming, station & infrastructure improvements, public education & messaging, supportive services, staff stewardship & training, and oversight & accountability. These six topics will comprise the initial

framework of the public safety ecosystem recommendations.

- ii. Committee members shared questions and additional categories to be added to the framework.

- iii. **Programming**

- 1. Member Ajayi highlighted the importance of distributing programming information to ensure riders are aware of upcoming events or new programs being launched.

- iv. **Station and infrastructure improvements**

- 1. Member Davis indicated that Metro should utilize public art to illustrate historic local moments, as a way for Metro to support local artists and create community-specific spaces.
 - a. Member Smith uplifted Member Davis' comment and other past priorities that emphasize the need for increased community art and green spaces at Metro stations.
 - b. Metro staff shared a [link](#) to information and resources on Metro's public art program.
 - 2. Member Dembo indicated that Metro should prioritize adding shade and shelter from heat/rain as a key infrastructure improvement.
 - 3. Member Raigoza suggested installing plexiglass at bus shelters, rather than glass, to avoid injuries to riders and their pets when there is shelter damage.
 - 4. Member Davis suggested adding continuously accessible surveys at stations and stops to get data on rider experiences. He suggested using some kind of physical infrastructure rather than human surveyors.
 - 5. Member Raigoza called out the MacArthur Park station as an example of the safety and programming benefits of having designated areas for vendors.
 - a. Member Ajayi suggested allowing street vending underground on connections between lines.
 - b. She also called out the importance of having improved wayfinding signage in stations.

- v. **Public education and messaging**

- 1. Member Wen requested bystander and upstander training be included in this sub-category. He defined an upstander is someone who actively tries to intervene in a crisis.
 - a. Members Strickland and Ajayi supported the request.

- vi. **Staff Stewardship and training**

- 1. Member Davis highlighted the opportunity to ensure cultural competency

training is part of the transit ambassadors' training curriculum.

vii. **Additional themes and subtopics**

1. Member Davis suggested developing a color-coding system that matches routes with the communities they serve.
 - a. Facilitator France suggested including the recommendation as part of a community wayfinding or design guidelines improvement.
2. Member Murrell recommends increasing the number of CCTV cameras to help operators accurately assess situations and make calls for help.
3. Member Smith suggested considering the inclusion of fareless transit for all low-income riders.
 - a. Facilitator France suggested including this topic under supportive services.
4. Member Dembo requested to add "more frequent and reliable transit service" as a public safety strategy.

- b. **Mentimeter Results:** The results of the meeting's Mentimeter exercise (referenced in Sections 3.b.-3.f.) can be found [at this link](#).

- c. **Mentimeter exercise:** Facilitator Dryjanski lead the committee through a short Mentimeter poll to identify the top three priority areas for discussion that evening.

- i. Member Wen suggested having cleanliness as its own category.
 1. Facilitator Dryjanski recommended having cleanliness framed as part of station & infrastructure improvements, but also have it under the staff stewardship & presence category when considering the increased deployment of the janitorial staff.
- ii. Committee members voted to discuss the following three categories during the meeting: supportive services, station & infrastructure improvements, and oversight & accountability.

d. **Supportive Services**

- i. Member de Rivera highlighted the importance of community input and recommended Metro continue to request input from a diversity of riders, community members, and advocacy organizations.
- ii. Member Goodus suggested expanding the Metro Micro program and having increased collaboration across service providers.
 1. Member Howard expressed support for this comment.

e. **Station infrastructure improvements**

- i. Member Garcia commented that it is important to make public transit as accessible

as possible through a variety of travel modes, something that may be achieved by adopting strong policies for station-adjacent design guidelines.

- ii. Member De Leon recommended Metro pursue building more bus-only lanes.
 - 1. Members de Rivera and Dembo supported this suggestion.
- iii. Member Raigoza suggested an audit of custodial needs to get to the root cause of continued unmet maintenance needs at certain stations.
- iv. Member Wen recommended an advertisement campaign explaining the various uniforms of Metro staff and the work/services they represent on the Metro system.

f. Next steps and look ahead

- i. The facilitation team will circulate a set of draft recommendations that will be voted on during the next committee meeting.
- ii. An additional meeting will be added on June 29th to consider the PSAC's position on recommendations for the LA Sheriff's Department contract and provide an update on Metro's budget progress.

IV. General Public Comment

The facilitation team took public comments from meeting participants.

- a. Commentor suggested including the Accessibility Advisory Committee as part of the organizations Metro consults with on a future public safety ecosystem.

V. Adjournment

- a. Meeting adjourned at 7:01 p.m.

VI. Next Steps

- a. The committee will reconvene on 06/15/22.

Metro Public Safety Advisory Committee

General Committee Meeting #29

Meeting Summary

Wednesday, June 15th, 2022

5:00 – 7:00 p.m.

I. Call to Order

a. **Zoom Meeting Protocols**

- i. Facilitator Richard France called the meeting to order. Facilitator Dryjanski announced that Spanish and American Sign Language interpretation services would be available during the meeting.

b. **Agenda**

- i. Facilitator France reviewed the agenda for the meeting.

c. **Roll Call**

Present: Ashley Ajayi, Darryl Goodus, Glenda Murrell, James Wen, Jose Raigoza, Maricela de Rivera, Chauncey Smith, Mohammad Tajsar, Esteban Gallardo, Ma'ayan Dembo, Sabrina Howard, Scarlett de Leon, Clarence Davis, Constance Strickland, Florence Annang

Absent: Andrea Urmanita, Charles Hammerstein, Raul Gomez, Jessica Kellogg, Glenda Murrell

d. **Approval of Meeting Minutes for 06/01/22**

- i. Committee members voted to approve the meeting minutes for the June 1st, 2022, meeting.
- ii. Meeting minutes were approved unanimously.

II. General Public Comment

The facilitators opened public comments. No public comments were provided.

III. Discussion Items

Recommendations on PSAC's Vision for Metro's Public Safety Ecosystem

Committee members discussed and voted to approve [recommendations on strategies and programming which constitute the committee's long-term vision for Metro's public safety ecosystem](#) on the transit system.

- a. **Context setting:** Facilitator France reviewed the process for drafting the recommendations, which included a group brainstorming session in the previous General Committee meeting and two working sessions to refine the draft document.

- b. Discussion:** committee members provided feedback on the recommendations and developed modifications for the final draft document.
- i. **Key Elements:** Member Davis reminded members of the importance of green space at stations and improved access for elderly riders/riders with disabilities. He also included a provision calling on Metro to utilize suggested donation fares if fareless transit is implemented.
 - ii. **Policing Contracts:** Member Tajsar asked why Relevant Documents 3.1 and 3.2 – both concerned with PSAC’s stance on Metro’s policing contracts – were not summarized as part of the recommendations.
 1. Facilitator France suggested a modification to explicitly state that the committee recommends Metro phase out the contracts and reallocate funding to non-law enforcement alternatives.
 2. Member Goodus indicated he does not support reducing funding or moving away from law enforcement at this time. He believes all services need to be funded adequately.
 3. Facilitator France suggested a modification that states “understanding that Metro has limited funding for public safety strategies, Metro may consider shifting what is currently allocated to law enforcement contracts, with the understanding that the recommended ecosystem does not exclude law enforcement.”
 - a. Member Tajsar agreed with the suggestion
 - b. Member Davis stated the importance of finding a balance between the various public safety strategies.
 - c. Member de Rivera shared that it is important for these recommendations to make a strong statement about the need for funding non-law enforcement alternatives.
 - d. Member Smith reminded members that PSAC has already approved recommendations on the law enforcement contracts and remains consistent with that directive.
 - iii. **Blue Light Infrastructure:** Member Davis emphasized the inclusion of a recommendation for the continued implementation of the Blue Light system.
 - iv. **Citations:** Member Ajayi suggested using the centralized information portal as a way for riders to check on the status of tickets they have received for fare evasion.
 1. Member Davis agreed with the difficulty of being able to find and track tickets with Metro’s current system.
 2. Facilitator France suggested adding language that the centralized communication portal should include a mechanism for riders to check on the status of any tickets.

- c. **Public Comment:** No public comments were provided.
- d. **Proposal:** Facilitator France put forward a proposal to approve the updated recommendations with the following amendments:
 - i. In the “A Call for Systemic Change” paragraph, add additional context about the use of non-law enforcement public safety measures and their funding via the phasing out of Metro’s law enforcement contracts.
 - ii. Under “Safety Infrastructure Improvements,” add a recommendation calling for the continued deployment of Blue Light and Call Point infrastructure.
 - iii. Under “Centralize Communication Portals for the Public,” add “resolve or contest citations” as one of the potential functions for this portal.
 - 1. In this same paragraph, add context about the importance of including call-in functionality and not limiting access solely to online portal options.
- e. **Voting Action**
 - i. Vote to approve Recommendations on PSAC’s Vision for Metro’s Public Safety Ecosystem:
 - 1. Yes: 9 No: 1 Abstain: 1
 - 2. The item was approved.

Recommendations for Metro’s Place-based Implementation Strategy

Committee members discussed and voted to approve recommendations on Metro’s Place-based Implementation Strategy.

- a. **Metro staff response to committee recommendations:** Metro staff shared that they support the recommendations and that they align with the agency’s goal to achieve place-based safety solutions.
- b. **Discussion:** Committee members provided feedback on the recommendations and developed modifications for the final draft.
 - i. **Criteria Weighting:** Member Ajayi asked if location criteria would be weighted evenly during decisions for deployment.
 - 1. Metro staff replied that they will work with their team to build out a weighted point system.
 - 2. Facilitator France asked for clarification from Metro staff as the Metro-drafted attachment is still missing details on the point system.
 - a. Metro staff confirmed that they still need to determine the evaluation criteria and scoring mechanism.
 - ii. **Complaints of Police Misconduct:** Member Smith recommended that complaints of police misconduct should be their separate criteria on the recommendations.

1. Members expressed support for this recommendation.
2. Member Davis added that misconduct reports should not be summarized or condensed when Metro is reviewing these incidents.

b. **Public Comment:** No public comments were provided.

c. **Proposal:** Facilitator France put forward a proposal to approve the updated recommendations with the following amendments:

- i. Modify "Location Selection Criteria" #1 "Locations where a high number of assaults and/or police complaints" by:
 1. Changing the wording of "police complaints" to "complaints of misconduct against law enforcement officers".
 2. And separate "assaults" and "complaints of misconduct against law enforcement officers" into two separate criteria.
- ii. Modify PSAC's recommendation to "Data on Harassment and Assaults" to indicate that Metro should utilize full, contextual reports on police misconduct, rather than abbreviated summary reports of any kind.

d. **Voting action**

- i. Vote to approve PSAC's recommendations for Metro's Place-based Implementation System
 1. Yes: 11 No: 0 Abstain:0
 2. The item was approved.

e. **Next steps:**

- i. Facilitation team will update both sets of recommendations and submit them to Metro staff and Metro CEO.

IV. General Public Comment

The facilitators opened public comments. No public comments were provided.

V. Adjournment

- a. Meeting adjourned at 6:40 p.m.

VI. Next Steps

- a. The committee will reconvene on 07/06/22.

Metro Public Safety Advisory Committee

General Committee Meeting #30

Meeting Summary

Wednesday, July 6th, 2022

5:00 – 7:00 p.m.

I. Call to Order

a. **Zoom Meeting Protocols**

- i. Facilitator Thomson Dryjanski called the meeting to order. Facilitator Cuevas-Flores announced that Spanish and American Sign Language interpretation services would be available during the meeting.

b. **Agenda**

- i. Facilitator Dryjanski reviewed the agenda for the meeting.

c. **Roll Call**

Present: Ashley Ajayi, Darryl Goodus, Glenda Murrell, James Wen, Jose Raigoza, Maricela de Rivera, Chauncey Smith, Mohammad Tajsar, Esteban Gallardo, Ma'ayan Dembo, Sabrina Howard, Scarlett de Leon, Clarence Davis, Constance Strickland, Florence Annang

Absent: Andrea Urmanita, Charles Hammerstein, Raul Gomez, Jessica Kellogg, Glenda Murrell

d. **Approval of Meeting Minutes for 06/15/22**

- i. Committee members voted to approve the meeting minutes for the June 15th, 2022, meeting.
- ii. Meeting minutes were approved unanimously.

II. General Public Comment

The facilitators opened public comments. There were no public comments from meeting participants.

III. Discussion Items

PSAC Recruitment and Outreach

Committee members discussed recruitment and outreach strategies Metro could employ for future PSAC terms. This feedback will help Metro staff further develop their report back to the Board that lays out PSAC's next steps in detail.

- a. **Context setting:** Facilitator Dryjanski shared the status of the outside evaluation of PSAC's progress. After the Board's initial review, they requested an increased level of detail as to how Metro staff will develop the next term of PSAC. One key area where PSAC can inform the report is providing feedback on how Metro recruits future committee members.

b. First-Term PSAC Cohort Outreach Presentation: Metro staff provided an overview of the outreach efforts conducted in Fall 2020 to assemble the current PSAC membership. Outreach methods included creating a centralized website and application portal, distributing physical flyers, advertising on social media, and conducting presentations at community meetings.

i. **Term Limits:** Member Davis asked if current PSAC members' terms will be limited to one year.

1. Metro staff responded that the committee charter states one year but the Board decided to extend the term until September to finalize the review of the external evaluation.
2. Member Smith shared that he feels it is unfortunate that members would be replaced after such a brief period. He indicated that it would be useful for future PSAC committees to retain some of the experience that has been built up over the past year.

a. Metro staff responded that the Board has not made a final decision on term limits for members.

c. Mentimeter Exercise: Facilitator Dryjanski led the committee through a Mentimeter polling exercise to inform outreach and recruitment for future PSAC terms. The results from the meeting's Mentimeter exercise can be found [at this link](#).

i. **Key Constituencies for Recruitment**

1. **Unhoused Representatives:** Member Smith suggested including committee members who are currently or formerly unhoused to have representation from the unhoused community. He also suggests including representatives from service organizations serving the unhoused community.
2. **Youth Outreach:** Member Davis shared that it is important that Metro's public safety education efforts reach children and teenagers in the community.
3. **Selection Criteria:** Member De Rivera shared concerns about outing members' personal details as part of the process of ensuring a diverse committee. She cautioned Metro to not require potential applicants to reveal personal details as part of the application process.
 - a. Member de Leon echoed Member De Rivera's comment and added that throughout the PSAC process, it feels like members must constantly prove their credentials to sit on the committee.
 - b. Member Garcia shared an opposing opinion, stating that it is important to explicitly state diverse identities – when members feel comfortable – to demonstrate that different groups are being

represented.

- c. Member Smith added that the current composition of PSAC members covers most of the committee's suggestions for key constituencies.
4. **Bios:** Member Annang suggested including pictures and bios of PSAC members to share members' stories and qualifications online.
5. **Intersectionality:** Member Howard recommended recruiting members who are already involved with other issues that intersect with transit, such as housing and public health.

ii. Outreach Methods

1. **Events:** Member Davis suggested Metro perform outreach during public events such as fairs, sporting events, and holidays. He emphasized these events as important opportunities to connect with low-income Metro riders.
2. **Previous Committee Involvement:** Member de Leon suggested reaching out to previous PSAC applicants who were not accepted and the committee's mailing list.
 - a. Member Dembo also suggested reaching out to meeting participants who gave public comments throughout the process.

iii. Barriers to Participation

1. **Emotional Labor:** Member De Rivera highlighted the emotional labor that goes into sharing one's experience in public meetings.
 - a. She also added that Metro should set clear expectations regarding the level of outside work required for members early in the application process.
2. **Increased Public Engagement:** Member de Leon suggested using surveys and focus groups to engage the public who are interested in participating but cannot be committee members.
3. **Institutional Knowledge:** Member Goodus shared that there should be some continuity between PSAC terms to ensure the current committee's experience and knowledge can aid new members.
4. **Metro Documents:** Member Davis stated that there should be more accessibility to Metro Board documents. He cited the accessibility of document language and ease of digital access as barriers.

iv. Application and Interview Process

1. **TAP Card System:** Member Davis recommended increasing outreach by sharing committee opportunities through the TAP Card system.

2. **Healing Framework:** Member Ajayi encouraged Metro to consider PSAC a source of income and trauma support for Metro riders who have experienced harm in the system.
3. **Students:** Member Davis suggested having student-aged PSAC members.

b. Next Steps

- i. The facilitation team will draft a document that synthesizes the comments and recommendations for Metro staff review.

IV. General Public Comment

The facilitation team took public comments from meeting participants.

- a. Commentor – who has a vision disability – shared the difficulties they have had following along with visual-heavy meetings and accessing materials on Google documents. He suggested linking any Google docs in the agenda and providing meeting materials ahead of time.

V. Adjournment

- a. Meeting adjourned at 6:31 p.m.

VI. Next Steps

- a. The committee will reconvene on 07/20/22.

Metro Public Safety Advisory Committee

General Committee Meeting #31

Meeting Summary

Wednesday, July 20th, 2022

5:00 – 7:00 p.m.

I. Call to Order

a. Zoom Meeting Protocols

- i. Facilitator Thomson Dryjanski called the meeting to order. Facilitator Cuevas-Flores announced that Spanish and American Sign Language interpretation services would be available during the meeting.

b. Agenda

- i. Facilitator Dryjanski reviewed the agenda for the meeting.

c. Roll Call

Present: Andrea Urmanita, Ashley Ajayi, Darryl Goodus, Glenda Murrell, Maricela de Rivera, Chauncey Smith, Esteban Gallardo, Scarlett de Leon, Clarence Davis, Constance Strickland, Florence Annang, Glenda Murrell

Absent: Raul Gomez, Jessica Kellogg, Mohammad Tajsar, Jose Raigoza, Sabrina Howard, Charles Hammerstein, Ma'ayan Dembo

d. Approval of Meeting Minutes for 07/06/22

- i. Committee members voted to approve the meeting minutes for the July 6th, 2022, meeting.
- ii. The meeting minutes were approved unanimously.

II. General Public Comment

The facilitators opened public comments.

- a. The commentator indicated they would like to see more bike lockers for riders. They also requested additional improvements to make it easier for cyclists to use Metro buses and trains.

III. Discussion Items

Item 1: Advisory Recommendations for Metro's Community Engagement on Public Safety Topics

Committee members discussed and voted to approve recommendations on how Metro should perform community engagement on public safety topics.

- a. **Context setting:** Members of the Community Engagement ad-hoc committee provided an overview of the recommendations to improve community outreach for public safety topics.
 - i. **Key Goals:** Member Goodus shared that a focus of the committee is for Metro's public engagement to reach as many people as possible, to make the process inclusive, and capture a broad spectrum of experiences. One of their key discussions was about trying to get more members of the public involved in Metro programs.
 - ii. **Facility Conditions:** Member de Rivera highlighted the need for improved cleanliness. She defined the stations as the point where Metro meets their riders and cleanliness is important to improve that relationship.
 - 1. Metro staff commented that funding for custodians has been substantially increased for the FY23 fiscal year.
 - iii. **Community Engagement:** Member Davis emphasized the need for Metro's community engagement to make riders aware of security service updates, new routes and stations, and ballot initiatives. He also reiterated his support for suggested fares on the system.
 - 1. Facilitator Dryjanski asked for clarification on Member Davis' comment on education and engagement in Metro systems.
 - a. Member Davis responded that the goal is to improve communication between riders and Metro to create a safer environment.
 - b. Facilitator Dryjanski restated the recommendations as:
 - i. Improve in-station engagement and customer experience;
 - ii. And to create a standing advisory committee focused on community engagement practices and outreach.
 - iii. Member Davis agreed with these summations.
- b. **Discussion:** Committee members provided feedback on the recommendations and developed modifications for the final draft document
 - i. **In-person Outreach:** Member De Leon uplifted the importance of having Metro workers on the system participating in outreach since online engagement is not always accessible.
 - ii. **Community Stewardship:** Member Strickland suggested Metro reimagine the way they offer access to space, programming, and funding to Metro riders and grant applicants.
 - 1. Facilitator Dryjanski clarified that the recommendation is that Metro improve community stewardship of transit spaces by allowing underutilized spaces to be used by community organizations.

- a. Member Strickland agreed and further emphasized the need for an accessible application process.
 - iii. **Diverse Experiences:** Member Garcia shared appreciation for the recommendations as a whole and emphasized the section that underscores that experiences of safety are different for different population groups.
 - iv. **Prevention system:** Member Davis reiterated his proposal for having a voluntary color-coded TAP Card system for riders with disabilities and children that helps identify them if they get lost.
 - 1. Facilitator Dryjanski summarized the recommendations as:
 - a. Create a regional liaison for local Metro community topics;
 - b. And create a support system for riders prone to getting lost on the system.
 - c. Member Davis agreed with these summations.
 - v. **Customer experience:** Metro staff Osborn shared that they are working with the Customer Experience team to develop a customer service program for transit security officers.
- c. **Public Comments:** No public comments were offered on this agenda item.
- d. **Proposal:** Facilitator Dryjanski put forward a proposal to approve the recommendations with the following additions:
 - i. Improved engagement for in-station customer service;
 - ii. Creating a standing community engagement advisory committee;
 - iii. Improving community stewardship of transit stations by easing access to programming, funding, and space utilization for community purposes;
 - iv. Creating a regional community outreach coordinator;
 - v. And supporting the needs of children and other riders prone to being lost.
- e. **Voting Action**
 - i. Vote tally to approve modified recommendations for Metro's community engagement on public safety:
 - 1. Yes: 9 No: 0 Abstain: 0
 - 2. The item was approved

Item 2: Recommendations on Metro's Public Safety Analytics & Bias-Free Policing Policy

Members discussed these recommendations from the Non-Law Enforcement Alternatives ad-hoc committee. When moved to a vote, the recommendations would not be approved as the committee did not reach a simple majority.

- a. **Context Setting:** Facilitator Dryjanski reviewed the committee's previous recommendations on "Opposing Predictive Policing." These previous recommendations inform the recommendations up for a vote because they call for Metro to:
 - i. Not use crime data to determine where to deploy law enforcement personnel;
 - ii. To adopt a robust ecosystem of non-law enforcement alternatives;
 - iii. And to use existing equity-driven data platforms.
- b. **Discussion:** Committee members provided feedback on the recommendations and developed modifications for the final draft document
 - i. **Outreach Methods:** Member Ajayi asked for more information on the outreach methods, specifically the call to prioritize in-person engagement and the prioritization of rider requests in the operations and maintenance status data set.
 - 1. Member Goodus responded that some people prefer in-person engagement, and the ad-hoc committee would like to be inclusive of those needs.
 - 2. Member Ajayi suggested adding vehicle operators, bus drivers, rail conductors, and elevator attendants to the datasets recommendation language.
 - 3. Facilitator Dryjanski shared that he will rephrase the recommendation to include frontline workers.
 - 4. Member Murrell made the distinction that service attendants maintain the vehicles, trains, and buses, while custodians maintain the facilities. They both have separate unions and tasks.
 - ii. **Outcomes:** Member Goodus highlighted the importance of the outcomes for the key performance indicators section in summarizing the purpose of the recommendations.
 - iii. **Use of Crime Data:** Metro staff Osborn asked for clarification as to why there are concerns regarding the use of crime data.
 - 1. Facilitator Dryjanski noted that the committee has made the distinction that they are opposed to using crime data specifically to deploy law enforcement resources. They indicate that crime data may be useful for the deployment of other resources.
 - 2. Member Davis responded that he is against the use of data to try to predict crime, as it has led to the over-policing of certain communities.
 - a. Metro staff replied that they do not expect data to be used this way and can see additional resources being provided to stations with high crime report rates, especially regarding vandalism incidents.

3. Member Smith shared that Metro staff is advocating for tools that are racially and economically equitable. He highlighted Metro's current issue with disproportionately citing and arresting riders of color, which leads to more disproportionate outcomes because of the biased data being utilized.

- a. Members Strickland and Ajayi echoed Member Smith's comments.

b. Public Comment: No public comments were provided.

c. Proposal: Facilitator Dryjanski put forward a proposal to approve the recommendations with the following modifications:

- i. Add a recommendation on addressing the digital divide for outreach;
- ii. Reframe "Datasets 3.b.i. and 3.d.i." to include requests from Metro frontline staff as well;
- iii. And add transit ambassadors as a key constituent.

d. Voting Action

- i. Vote tally to approve recommendations for Metro's Public Safety Analytics and Bias-Free Policing policy:

1. The vote was (6) "yes" votes, (1) "abstain" vote, and (2) members "absent."

- a. Note: At the time that the vote was called, Member Annang had been marked "absent." Approximately two minutes after the vote was called, Member Annang indicated in the Zoom chat that she would "abstain from voting due to [a] bad WiFi [connection]" at her location. She has been marked absent in the summary above.

2. The committee was unable to reach a simple majority to support the approval of the recommendations.

e. Next steps: The facilitation team will provide an update as to whether this item will be brought back for consideration.

IV. General Public Comment

The facilitators opened public comments. There were no public comments from meeting participants.

V. Adjournment

- a. Meeting adjourned at 7:05 p.m.

VI. Next Steps

- a. The committee will reconvene on 08/17/22.

Public Safety Advisory Committee

Prepared by the PSAC Facilitator Team

MEMO

Date: June 22nd, 2022

To: Metro Office of the Chief Executive Officer

From: Public Safety Advisory Committee (PSAC)

Re: Outcomes from the June 15th, 2022 PSAC Meeting - Place-Based Implementation Strategy Recommendations

During the June 15th, 2021 Public Safety Advisory Committee (PSAC) meeting, the advisory body held a vote to approve the following:

- A draft of [recommendations on Metro's Place-Based Implementation Strategy](#)

Below is a summary of the committee action:

- PSAC voted to approve a [modified version of the recommendations on Metro's Place-Based Implementation Strategy](#). The vote was 11 “yes” votes and 3 absent members.
- The draft modifications made during the meeting are as follows (and highlighted in green in the document):
 1. Modify “Location Selection Criteria” #1 “Locations where a high number of assaults and/or police complaints” by:
 - Changing the wording of “police complaints” to “complaints of misconduct against law enforcement officers”;
 - And separate “assaults” and “complaints of misconduct against law enforcement officers” into two separate criteria.
 2. Modify PSAC’s recommendation to “Data on Harassment and Assaults” to indicate that Metro should utilize full, contextual reports on police misconduct, rather than abbreviated summary reports of any kind.

Public Safety Advisory Committee

Prepared by the PSAC Facilitator Team

MEMO

Date: June 22nd, 2022

To: Metro Office of the Chief Executive Officer

From: Public Safety Advisory Committee (PSAC)

Re: Outcomes from the June 15th, 2022 PSAC Meeting - Recommendations on Metro's Public Safety Ecosystem

During the June 15th, 2021 Public Safety Advisory Committee (PSAC) meeting, the advisory body held a vote to approve the following:

- A draft of [recommendations on PSAC's Vision of Metro's Public Safety Ecosystem](#)

Below is a summary of the committee action:

- PSAC voted to approve a [modified version of the recommendations on PSAC's Vision of Metro's Public Safety Ecosystem](#). The vote was 9 "yes" votes, 1 "no" vote, 1 "abstain" vote, and 3 absent members.
- The draft modifications made during the meeting are as follows (and highlighted in green in the document):
 1. In the "A Call for Systemic Change" paragraph, add additional context about the use of non-law enforcement public safety measures and their funding via the phasing out of Metro's law enforcement contracts.
 2. Under "Safety Infrastructure Improvements," add a recommendation calling for the continued deployment of Blue Light and Call Point infrastructure.
 3. Under "Centralize Communication Portals for the Public," add "resolve or contest citations" as one of the potential functions for this portal.
 - In this same paragraph, add context about the importance of including call-in functionality and not limiting access solely to online portal options.

Recommendations on PSAC's Recruitment and Outreach for Future Committees

About these Recommendations

This document lays out the Public Safety Advisory Committee's (PSAC, the committee) vision for recruiting future cohorts of the committee, as defined during an group discussion at the July 6th, 2022 General Committee meeting. Currently, Metro staff are working to produce a detailed workplan for the next term of the advisory committee and have requested committee members' input on recruitment and outreach processes. The following recommendations include identifying key constituencies from which Metro should recruit new members, outreach strategies to reach these groups, barriers to participation, and improvements to the application process. Implementing these recommendations are an opportunity for new advisory committee members to more accurately reflect the transit-dependent populations of Los Angeles County and to build upon the foundation the committee has laid over the past year.

Key Constituencies

Consistent with the key constituencies identified in both the [Public Safety Ecosystem](#) and [Community Engagement of Public Safety Topics](#) recommendations, the following describes the communities and population groups Metro should engage to recruit future committee cohorts:

Metro should recruit new PSAC members that are transit-riders, particularly **low-income and unhoused transit-riders** who make up a majority of Metro's existing users. The agency should also aim to have the committee composition represent the demographics of the riders, paying special attention to **Black, Indigenous, People of Color (BIPOC) communities; women; youth; older adults; people with disabilities; LGBTQIA+ individuals; victims of crime; formerly incarcerated; immigrant; and neurodivergent** riders. It should work collaboratively with organizations representing these populations to recruit and support potential committee members throughout the application process. Equally important to the process, the inclusion of **frontline Metro employees** and participants with firsthand experience in **public safety and social services on Metro** will provide necessary insight into the on-the-ground workings of the system. Metro should also **reach out to members of the public who have attended PSAC meetings** and invite them to apply.

Recommendations on Outreach

PSAC has articulated the following recommendations to improve outreach strategies for committee member recruitment:

- **Importance of including key constituencies:** PSAC members acknowledge the successful diversity of the first committee cohort, and through the lessons learned over the past year, have expanded the range of key constituencies to recruit from more underrepresented communities. Engaging and recruiting from the identified key constituencies to provide feedback on Metro's public safety topics is essential as transit riders from different groups will experience safety differently on the system. Metro's public safety strategies will benefit from this increased diversity

as more perspectives will shape their implementation and outcomes. However, the committee cautions against forcing members to out themselves as members of a specific committee in order to join the committee. Consultation with Metro's Office of Equity and Race can help address this sensitivity.

- **In-Person outreach:** PSAC highlighted the need for prioritizing in-person engagement as part of the recruitment for future committee cohorts, with particular focus on in-station engagement and at other locations where high numbers of Metro riders are present. This engagement strategy will be best actualized through the employment of CBO representatives, on-system advertising, and in-person events. CBOs have established relationships working with their constituencies and can identify strong champions with the necessary experience to participate in PSAC. Additionally, thus advertising on vehicles will expose riders to the opportunity to join the committee. Potential PSAC members must have regular interaction with the Metro system. Lastly, in-person outreach at transit stations and community events meets riders where they are at and advertises the opportunity to those riders with limited access to technology. Potential Metro representatives for this outreach can include current committee members as volunteers, transit ambassadors, and elevator attendants.
- **Social media:** PSAC recommends using social media to expand the reach of recruitment activities to a wider audience. Metro can host live-streaming sessions to discuss PSAC and share information about the recruitment process. Additionally, social media is a valuable tool to increase engagement with youth riders. Metro has experience of partnering with social media personalities to promote advisory committees and other Metro initiatives. Previous examples include the *Metro Manners* campaign starring Anna Akana or *Safetyville* campaign for rail safety. By making promotional content for PSAC and other advisory committees, the committee's work is exposed to a wider audience and it can facilitate an increase in applications to the committee. However, Metro should not eschew more traditional forms of advertisement. The committee also recommends utilizing advertisements on television, radio, and local newspapers to boost participation.

Barriers to Participation

- **Overcoming technology barriers:** Due to the ongoing COVID-19 pandemic, PSAC meetings have been conducted online via the Zoom platform. Several committee members shared challenges of lacking adequate broadband connectivity and necessary technology to fully participate in PSAC meetings. This will likely pose an issue for future PSAC participants as well, with many low-income communities in the Metro service area lacking access to reliable and affordable internet. PSAC recommends that Metro subsidize access to broadband services and provide the necessary equipment when required to bridge the digital divide for future members. Additionally, PSAC encourages the use of in-person meetings at accessible times to combat this difference in digital access, within COVID safety protocols.
- **Accommodating parents and working members:** Many PSAC members are working parents and have specific needs that offer a barrier to meeting committee commitments. Committee meetings have been scheduled for 5:00 p.m. on weekdays, when many members are just leaving work. While virtual meetings have alleviated the challenges of travel time, future in-person meetings will present difficulties. Access to childcare is unequal for different communities. The provision of childcare can help parents to more fully participate in committee meetings. PSAC recommends providing child care resources for both members and the attending members of the

public at in-person events. Additionally, holding meetings at times outside of working hours will help parents and working members be present and reduce stress from commuting. The committee recommends adjusting meeting times to include nights and weekends, which will increase access for working people to attend as committee members or audience participants.

- **Language accessibility:** PSAC calls for written, spoken, and recorded outreach materials to be written plainly and translated/interpreted into as many languages as possible. Plain language reduces barriers for committee members to understand complicated professional jargon. One of the key challenges for first-term PSAC members was learning how to read and access Metro-drafted materials, notably Board reports. Metro staff can draft written materials with this layperson audience in mind or can host learning opportunities with advisory committee members to build understanding of these materials. Additionally, proactive translation and interpretation services, meaning providing these services/materials without public request, should also be standard to improve the experience of English as a second language committee members and attending members of the public. There are more than 180 languages spoken in LA County and Metro should act proactively to ensure recruitment materials are ready to meet the needs of these various communities.
- **Building understanding of Metro's public safety ecosystem:** PSAC members cite getting up to speed on Metro's current public safety ecosystem and all associated programs as one of the key challenges to the early phases of PSAC. The committee recommends that more emphasis is placed on educating members in the early stages of their tenure. This will ensure higher levels of participation and a more robust understanding of the context that the agency is operating within. Special "bootcamp" sessions, one-on-one check-ins with members, or change in the agency's approach to presentations can help educate new members. The committee also recommends that there is a continuity of committee members between the first and second terms, to ensure that the institutional knowledge that has been built up remains.

Application and Interview Process

- **Drawing on the experience of current members:** PSAC recommends having current and former members be involved in the application review and interview process as advisory members. This will help to provide insight for applicants and Metro staff to the requirements of being a committee member. During the interview process, members would be able to identify strengths in potential candidates that are best suited to work in the committee and provide recommendations as to gaps in the current recruitment selection regarding the communities represented.
- **Application Assistance:** PSAC's application and interview process can be confusing, especially for people who may not have experience applying for advisory committees or navigating municipal bureaucracy. Offering application and interview assistance would help low-income and disabled applicants be more competitive in the recruitment process. This support may include providing translations of the application, assistance with filling out forms, and interview preparation assistance.

Advisory Recommendations for Metro's Community Engagement on Public Safety Topics

About these Recommendations

These recommendations provide guidance on what community voices Metro should center in the process of community engagement, offer categorical recommendations on community outreach methods, provide an expanded definition of programs that should be considered as part of riders' experience of safety, and provide suggestions for improving survey creation.

Expanding the Scope of Public Safety Topics: Much like PSAC's recommendations to expand Metro's [Public Safety Ecosystem](#) to include a variety of new non-law enforcement alternatives, PSAC recommends that Metro expand its view of the topics and programs that contribute to public safety and engage the community accordingly. This scope of programs must expand beyond solely law enforcement, security personnel, and social service providers. Public safety outreach should also include topics like fareless transit and low-income fare subsidy programs, transportation services that assist vulnerable riders like ACCESS or Metro Micro, and station and vehicle conditions.

Key Constituencies

As previously noted in the [Public Safety Ecosystem recommendations](#), the following describes the key constituencies Metro should regularly engage on topics of public safety on the transit system:

*PSAC advises Metro to center the following voices in discussions concerning public safety. Naturally, transit riders' voices should be at the forefront, with a particular emphasis on addressing the needs of **low-income riders** that make up the majority of Metro's existing users. The agency should also pay close attention to **Black, Indigenous, People of Color (BIPOC) communities; women; youth; older adults; people with disabilities - physical, intellectual, and developmental; and LGBTQIA+** rider needs. It should work collaboratively with organizations representing these populations to identify and meet those needs. Equally important, including Metro's **vehicle operators** and **frontline staff** like **custodians, station attendants, and others**, should play a large role in shaping public safety policy on the system. Metro should also consult with **community-based organizations** representing issue areas like **civil rights and racial equity, disability advocacy, faith communities, bicycle and pedestrian safety, and the local arts and design communities**.*

Recommendations on Outreach

PSAC has articulated the following recommendations to improve and expand outreach on public safety topics:

- Defining public safety with transit riders:** PSAC feels it is essential to further define the concept of "public safety" with the wider transit-using public. Metro's previous surveys on Customer Experience and Public Safety have been useful steps towards reaching this goal but lacked long-term engagement with riders and these surveys are more appropriate as point-in-time snapshots. In previous meetings, PSAC was informed that surveys are ineffective tools at offering insights on open-ended concepts. Therefore, the committee recommends deploying focus groups or other in-depth engagement strategies with riders to develop a concrete definition of "public safety" that is in line with Metro's [Mission, Vision, and Values for Public Safety](#). Participants

should be drawn from the groups mentioned in the “Key Constituencies” section and compensated for their time and labor.

- **Outreach to women, persons with disabilities, BIPOC, and other key constituencies:** The experience of safety on Metro is not monolithic. Riders from these different groups will have divergent experiences of safety on the transit system. For instance, different PSAC members have noted that law enforcement officers are a source of perceived security for persons with disabilities, whereas many BIPOC riders may feel targeted and oppressed through officer's presence. Woman-identified and non-binary riders experience safety very differently from their male-identified counterparts. It is essential that Metro engage representatives from these constituencies separately to develop priorities unique to those groups, and then together to develop a shared definition of public safety on the system.
- **Ensuring participation:** PSAC calls for Metro's community engagement methods to eliminate as many barriers to participation as possible. Understanding that the majority of Metro's ridership are low-income riders of color - a population group known to have barriers to civic participation - the agency should create the conditions to reach these groups. This can include paying community-based organizations with established community connections to do the outreach, doing extensive engagement on the transit system or other places where low-income riders congregate, holding meetings on nights and weekends, offering translation services, and providing food, entertainment, and childcare to boost participation in traditionally low-turnout groups like mothers and families.

PSAC also recommends that Metro endeavor to involve more members of the public in the agency's advisory committee process. Participation is not limited to acting as a committee member. This can include increasing attendance and public comment at public advisory committee meetings, utilizing incentives like raffles and prizes to get new participants to attend meetings, or utilizing more frequent surveys and external focus groups to inform the recommendations of the advisory committee.

- **Expanding outreach methods:** While Metro outreach frequently taps into existing community events, Metro can consider hosting its own event or partnering with other municipal agencies to host a large-scale event. An event of this kind would be best hosted in an area where low-income Metro riders are concentrated. Events where Metro has representation are also an opportunity for volunteers to support Metro outreach. The agency should engage interested persons to represent the agency and provide support during events. **Another expanded method of connecting with community members could include designating staff to act as liaisons on community outreach topics for neighborhoods or regions. This position would offer a friendly point of contact who can build lasting relationships with local residents and stakeholders.**

Metro can also consider holding regularly-occurring meetings with target communities that are not tied to projects or improvements. This kind of “open door policy” will help build relations and knowledge sharing between the communities most in need of Metro services and Metro staff. Similar to Metro's topical advisory committees, PSAC recommends that Metro form advisory committees based on locale and use this local knowledge to improve service and amenities in that region or neighborhood. One potential input from this process would be for local community members to provide in-depth feedback on their local stops and stations.

- **Bridging the digital divide:** PSAC calls for Metro to support people who have poor internet access, lack access to the necessary technology, or do not have the requisite skills to participate through a digital medium. This can include providing mobile hotspots in target areas, providing access to technologies like smartphones, laptops, or data plans, hosting technology skills training concurrent with other events, and hosting more in-person events within COVID protocols. Hosting in-person events can also be beneficial for members of the disability community who have communication barriers. Advertisements can also be placed outside of the digital space to reach

communities with low technological access. Locating Metro ads, meeting notices, and other announcements in local newspapers, television, and radio can aid in reaching these groups.

- **Language Accessibility:** PSAC calls for written, spoken, and recorded outreach materials to be written in the plain language and translated/interpreted into as many languages as possible. Plain language ensures that there are no barriers to understanding due to complicated jargon. Translation and interpretation are essential in LA County. The County has more than 180 languages spoken here, necessitating that Metro should act proactively to ensure translation or interpretation meet the needs of specific communities and does not have to occur as the result of a community member's request.¹ The agency should know their audience in a community when doing locational outreach.
- **Reaching unhoused riders:** As Metro is a key public good in Los Angeles County, it provides both transportation and shelter to many members of the unhoused community. PSAC recommends that Metro expand their engagement with the unhoused population on topics related to public safety, as well as the evaluation of Metro's homeless outreach programs. When reaching out to unhoused riders and soliciting feedback, it is essential to have compensation that can be meted out at the time of engagement. With many unhoused persons lacking a permanent address, sending compensation retroactively would prove difficult.
- **Artful, interactive, & community-focused:** PSAC recommends that outreach can also be creative and inspiring to community members. Artist activations or gamified programming can be a unique way of surveying. Metro should consider partnering with the LA County Arts Council and local artists to build out this programming.
- **Engagement on Customer Experience:** PSAC recommends that Metro allocate additional funding to engage more riders more frequently on Customer Experience topics, with a strong focus on the experience of customer service in stations and bus stops. As noted in many PSAC recommendations, the topics of service reliability, experience of stations and bus stops, personal security, homelessness, cleanliness, and other related topics hold a direct relation to transit riders' perceptions of public safety. The committee recommends that the agency prioritize an expanded outreach program on this topic to improve rider perceptions.
- **Creation of a Community Outreach advisory committee:** PSAC recommends that Metro create a standing advisory committee that advises on outreach methods and engagement outcomes for Metro projects and programs. This committee would be responsible for providing insight on connecting with hard-to-reach communities, overseeing the performance of Metro's various community engagement efforts, and ensuring that the agency is employing high-quality and equitable engagement strategies.
- **Improving community stewardship of underutilized Metro stations:** At this time, many Metro stations are spaces where riders pass through, rather than community destinations providing services and experiences outside of transit. In keeping with Metro's Transit-Oriented Community principles and the [Metro Board Motion 37 \(File #: 2020-0429\)](#) directive on improved community stewardship, the committee recommends that Metro allocate underutilized spaces at stations for community engagement purposes. This could include providing spaces for local vendors, offering space for community-based organizations to provide services and connect with residents, or offering space for artist installations. By allowing local experts to activate these spaces, it will create a greater feeling of connection between residents and their local stations, while improving safety outcomes via increased presence at the station.
- **Supporting riders prone to getting lost:** PSAC recommends that Metro implement staff liaisons and other programming supports to meet the needs of children, community elders, and other riders prone to getting lost on the system. This program could include creating a registry for these

¹ Barragan, Bianca. "More than Half of Los Angeles Speaks a Language Other than English at Home." *Curbed LA*, Curbed LA, 4 Nov. 2015, <https://la.curbed.com/2015/11/4/9904020/los-angeles-languages>.

riders, providing special TAP card passes identifying them as riders with special needs, assigning point of contact liaisons to these vulnerable riders, and providing training to Metro in-station staff on how to identify a rider in need and the proper protocols to take in that situation.

- **Additional Programs:** PSAC recommends that the following programs also have outreach conducted through a public safety lens:
 - Metro Micro
 - ACCESS Services
 - Low-Income Fare is Easy program & any fareless transit programs
 - UPass and Go Pass subsidized fare programs for college students
 - Building knowledge of and participation in Metro's advisory committees

Reframing Surveys for Public Safety

PSAC has articulated the following strategies for improving Metro's surveying practices:

- Engage in more frequent in-person surveys;
- Surveyors should be of the surveyed community or culturally competent and equipped with appropriate language skills;
- Deploy mechanisms that allows surveying at stops/stations without Metro staff e.g. through TAP card machines or purpose built infrastructure;
 - *Any newly implemented surveying mechanisms should provide real-time feedback to Metro staff.*
- Ensure that all survey participants are compensated for their time in a timely and accessible manner;
- And include the following topics as part of future surveys related to public safety:
 - Cleanliness of local stations
 - Quality of the amenities at local stations
 - Community needs for desired amenities at local stations
 - Quality of transit service
 - Opinions on non-law enforcement alternatives

Sexual Crime / Harassment Calls for Service May 2022

Calls related to sexual harassment are routed through Metro Transit Security Operations Center, which then transfers the caller to a free 24/7 hotline — Peace Over Violence, Center for the Pacific Asian Family Inc., and Sister Family Services — that can provide more directed counseling. Between May 1st and May 31st, Metro Transit Security, LAPD, LASD, and LBPD received thirteen (15) incidents and referred a total of thirteen (13) victims of sexual harassment to the above free hotlines. One of the victims left the scene before police arrived, and one victim did not provide her contact information
