METROPOLITAN TRANSPORTATION AUTHORITY BOARD AGENDA RULES
(ALSO APPLIES TO BOARD COMMITTEES)

PUBLIC INPUT

A member of the public may address the Board on agenda items, before or during the Board or Committee's consideration of the item for one (1) minute per item, or at the discretion of the Chair. A request to address the Board must be submitted electronically using the tablets available in the Board Room lobby. Individuals requesting to speak will be allowed to speak for a total of three (3) minutes per meeting on agenda items in one minute increments per item. For individuals requiring translation service, time allowed will be doubled. The Board shall reserve the right to limit redundant or repetitive comment.

The public may also address the Board on non-agenda items within the subject matter jurisdiction of the Board during the public comment period, which will be held at the beginning and/or end of each meeting. Each person will be allowed to speak for one (1) minute during this Public Comment period or at the discretion of the Chair. Speakers will be called according to the order in which their requests are submitted. Elected officials, not their staff or deputies, may be called out of order and prior to the Board's consideration of the relevant item.

Notwithstanding the foregoing, and in accordance with the Brown Act, this agenda does not provide an opportunity for members of the public to address the Board on any Consent Calendar agenda item that has already been considered by a Committee, composed exclusively of members of the Board, at a public meeting wherein all interested members of the public were afforded the opportunity to address the Committee on the item, before or during the Committee's consideration of the item, and which has not been substantially changed since the Committee heard the item.

In accordance with State Law (Brown Act), all matters to be acted on by the MTA Board must be posted at least 72 hours prior to the Board meeting. In case of emergency, or when a subject matter arises subsequent to the posting of the agenda, upon making certain findings, the Board may act on an item that is not on the posted agenda.

CONDUCT IN THE BOARD ROOM - The following rules pertain to conduct at Metropolitan Transportation Authority meetings:

REMOVAL FROM THE BOARD ROOM - The Chair shall order removed from the Board Room any person who commits the following acts with respect to any meeting of the MTA Board:

- a. Disorderly behavior toward the Board or any member of the staff thereof, tending to interrupt the due and orderly course of said meeting.
- b. A breach of the peace, boisterous conduct or violent disturbance, tending to interrupt the due and orderly course of said meeting.
- c. Disobedience of any lawful order of the Chair, which shall include an order to be seated or to refrain from addressing the Board; and
- d. Any other unlawful interference with the due and orderly course of said meeting.

INFORMATION RELATING TO AGENDAS AND ACTIONS OF THE BOARD

Agendas for the Regular MTA Board meetings are prepared by the Board Clerk and are available prior to the meeting in the MTA Records Management Department and on the Internet. Every meeting of the MTA Board of Directors is recorded and is available at <https://www.metro.net> or on CD's and as MP3's for a nominal charge.

DISCLOSURE OF CONTRIBUTIONS

The State Political Reform Act (Government Code Section 84308) requires that a party to a proceeding before an agency involving a license, permit, or other entitlement for use, including all contracts (other than competitively bid, labor, or personal employment contracts), shall disclose on the record of the proceeding any contributions in an amount of more than \$250 made within the preceding 12 months by the party, or his or her agent, to any officer of the agency, additionally PUC Code Sec. 130051.20 requires that no member accept a contribution of over ten dollars (\$10) in value or amount from a construction company, engineering firm, consultant, legal firm, or any company, vendor, or business entity that has contracted with the authority in the preceding four years. Persons required to make this disclosure shall do so by filling out a "Disclosure of Contribution" form which is available at the LACMTA Board and Committee Meetings. Failure to comply with this requirement may result in the assessment of civil or criminal penalties.

ADA REQUIREMENTS

Upon request, sign language interpretation, materials in alternative formats and other accommodations are available to the public for MTA-sponsored meetings and events. All requests for reasonable accommodations must be made at least three working days (72 working hours) in advance of the scheduled meeting date. Please telephone (213) 364-2837 or (213) 922-4600 between 8 a.m. and 5 p.m., Monday through Friday. Our TDD line is (800) 252-9040.

Requests can also be sent to boardclerk@metro.net.

LIMITED ENGLISH PROFICIENCY

A Spanish language interpreter is available at all Committee and Board Meetings. All other languages must be requested 72 hours in advance of the meeting by calling (213) 364-2837 or (213) 922-4600. Live Public Comment Instructions can also be translated if requested 72 hours in advance.

Requests can also be sent to boardclerk@metro.net.

PUBLIC COMMENT INSTRUCTIONS

Just a few reminders for signing up for public comment:

We have an area dedicated to sign up for public comment. If you need translation, please make sure to indicate that on your speaker sign-up card so we can have our translators ready to provide assistance.

Consistent with the Board Rules posted on the agenda, individuals requesting to speak will be allowed to speak for a total of one minute for the item on the agenda. We will not be taking up general public comment for this meeting.

Written public comments must be received by 5pm the day before the meeting. Please include the Item # in your comment and your position of "FOR", "AGAINST", "GENERAL COMMENT", or "ITEM NEEDS MORE CONSIDERATION".

You may email your comment to: BoardClerk@metro.net

Or mail it to:

Board Administration
One Gateway Plaza
Mail Stop: 99-3-1
Los Angeles, CA 90012

INSTRUCCIONES PARA PRESENTAR COMENTARIOS PÚBLICOS

Estos son algunos recordatorios para registrarse para presentar comentarios públicos:

Tenemos un área dedicada para el registro para presentar comentarios públicos. Si necesita servicios de traducción, asegúrese de indicarlo en su tarjeta de registro de orador para que podamos tener a nuestros traductores listos para brindarle asistencia.

De acuerdo con las reglas de la Junta Directiva publicadas en la agenda, las personas que soliciten hablar podrán hablar por un total de un minuto para el tema en la agenda. No aceptaremos comentarios del público en general para esta reunión.

Los comentarios públicos por escrito deben recibirse antes de las 5 p.m. del día anterior a la reunión. Por favor, incluya el número del tema en su comentario y su posición de "A FAVOR", "EN CONTRA", "COMENTARIO GENERAL" o "EL TEMA NECESITA MÁS CONSIDERACIÓN".

Puede enviar su comentario por correo electrónico a: BoardClerk@metro.net

O envíelo por correo a:

Board Administration
1 Gateway Plaza, 99-3-1
Mail Stop: 99-3-1
Los Angeles, CA 90012

Preparation for Initiating the FY25 Budget Development Process

Finance, Budget, Audit Committee

October 18, 2023

Meeting Agenda

- Metro Transit Cost Growth Drivers
 - Labor
 - Parts, Fuel, Power and Contract Services
 - Insurance Premiums
 - Public Safety, Law Enforcement
 - Cleaning
 - Rail Expansion
 - Electrification
- Transit Infrastructure Construction Risks
- Other Programs Challenges
- Equitable Zero-Based Budgeting (EZBB) & Next Steps

Metro Transit Expense Financial Outlook (FY24 – FY29)

- Exhaustion of one-time federal stimulus funding that was used to balance budgets the last 3 years
- Operating cost growth (6.5%) is increasing faster than sales tax and operating revenues (2.6%):
 - Escalating labor, insurance and cost inflation to run current level service
 - Operating an expanding rail system
 - Incremental costs for enhancing safety and cleaning with no offsetting cost savings
- Major investments in Capital Improvement Program (CIP) for electrification efforts

Cost Growth Drivers for Metro Transit Operations

- The Agency's Near-Term Outlook on Metro Transit Operations & Management (O&M) includes significant cost growth drivers:

- Labor costs
- Cost inflation for parts, fuel, power and contract services
- Insurance, Workers' Comp and PLPD
- Public safety
- Cleaning
- Rail expansion

- Historical growth rates have been on the high side and expected to continue the trend over the next five years. The forecast includes recent cost control measures from EZBB
- Every cost growth driver is anticipated to grow at a faster rate than sales tax revenues

Cost Growth Driver - Labor Costs

- Total operating labor costs make up 45% of total Metro Operations costs
- Labor costs have had a historical growth of 5% per year
- Labor cost inflation assumptions include the latest SMART contract from July 2022
- A projected trend for growth is anticipated for the next 5 years and subject to change based on the upcoming negotiations for the remaining Collective Bargaining Agreements

Cost Growth Driver - Parts, Fuel and Outside Services

- Total operating costs for parts, fuel, power and contract services make up 24% of total Metro Operations costs
- An average 6.0% growth per year over the last five years attributed to:
 - Historical high rates on CNG fuel and propulsion power
 - Parts and supplies growth due to supply chain constraints
 - Contract services from labor shortage challenges and record high inflation
- An average 3.5% future growth per year for the next five years due to new rail service, station maintenance, and CPI cost increases

Cost Growth Driver – Insurance, Workers’ Comp and PLPD

- Total insurance, workers’ compensation and PLPD costs make up 8% of total Metro Operations costs

- Insurance premiums have experienced a double-digit growth per year over the last five years due to:

- Insurance market industry has hardened due to string of natural disasters and extensive losses experienced
- Additional assets to insure due to an expanding rail system

- An average 20% growth per year for the next five years for insurance premium costs is projected due to the trend of the insurance market industry, making up 37% of the total costs in the next five years

Cost Growth Drivers - Public Safety, Law Enforcement Costs

- Public safety costs make up 13% of total Metro Operations with law enforcement costs as the biggest driver (about 65% of the total)
- Last five-year contract value of \$870M vs. a possible estimated \$1.5B for next five years based on the historical cost growth by continuing existing practice
- Total law enforcement costs will nearly double the next five years vs. last five years

LAW ENFORCEMENT CONTRACT VALUE FY18 TO FY24 BY AGENCY

Current multi-agency law enforcement contract value changes from FY18 to FY24:

Increase \$ in millions	LAPD	LASD	LBPD	Total
FY18 to FY22 base contract	\$ 369.33	\$ 246.27	\$ 30.07	\$ 645.7
FY18 to FY22 Mod 1	\$ 21.53	\$ 11.33	\$ 3.15	\$ 36.0
FY18 to FY22 Mod 2	\$ 38.63	\$ 32.84	\$ 3.73	\$ 75.2
Q1 & Q2 FY23	\$ 54.00	\$ 34.24	\$ 4.50	\$ 92.7
Q3 & Q4 FY23	\$ 28.51	\$ 35.76	\$ 2.63	\$ 66.9
FY24 Option	\$ 104.92	\$ 78.98	\$ 10.16	\$ 194.1
Total Contract Value	\$ 616.91	\$ 439.41	\$ 54.24	\$ 1,110.6
Total % increase	67%	78%	80%	72%

Metro System Increase	FY18 to FY24
Law Enforcement Contract CAGR (Compound Annual Growth Rate)	9.5%
All other Metro Contract CAGR	5.7%
Bus and Rail Operating Budget CAGR	5.9%

Cost Growth Driver - Cleaning

- Cleaning costs make up 8% of total Metro Operations costs
- An average 8.6% growth per year over the last five years attributed to homeless crisis and opioid epidemic challenges, along with the pandemic.
 - Roving cleaning teams
 - Custodial staff
 - Part-time custodial Room to Work participants
 - Frequent “in-line” and mid-day bus interior cleaning
 - End of line cleaning on rail, station hotpots and other activities
- An average 5.5% growth per year for the next five years is projected due to continuing to deliver a cleaner system and improve customer experience

Cost Growth Driver - Rail Expansion

- Metro is undergoing a major rail expansion network with the anticipated opening of Foothill Phase 2B, Airport Metro Connector, Purple Line Extensions 1, 2, and 3
- Anticipated operating and maintenance cost of integrated regional facilities (i.e., Airport Metro Connector (AMC))
- The cumulative incremental cost for the expansion is projected at \$342 million, or 27.6% per year average growth from FY24 through FY29
- The average cost of running 1 hour of rail is 2.4x more than operating 1 hour of bus service

Major Investments in Capital Improvement Program (CIP)

- Electrification Goal

- The implementation of the zero-emission bus program is a significant capital cost to meet the State of California's 2040 mandate for eliminating the use of hydrocarbon fueled buses
- Metro's Near-Term Outlook assumes an accelerated goal of achieving a zero-emission fleet by 2030, which includes procuring zero-emissions Battery Electric Buses (BEB) and related electric charging infrastructure
- This effort will require a minimum investment of \$4.3 billion in buses and charging infrastructure through 2030
- In today's budget, electrification makes up 13% of the total CIP program and that would need to grow to be 57% over the next five years to meet the 2030 goal. Note: external funding has not been secured and would require deficit spending
- New zero emission bus acquisitions and supporting infrastructure development will proceed as available technology and funding permit

Transit Infrastructure Construction Risks

- Metro recognizes the additional financial risks stemming from Transportation Infrastructure Development (TID) as Metro continues to build out the ordinance approved major construction projects

Actual to MR/MM ordinance projections

- Expenditure Plans – specify projects and funding caps
 - MR actuals below ordinance projections by \$1.9B since inception in FY10
 - MM actuals are closer to ordinance projections the largest variance during the pandemic years, falling short by over \$200 million from FY18 (inception) through FY22
- Metro continues to compete for capital investment grants, which are not always awarded and often include significant operational and local match funding requirements
 - The ongoing financial risks that stem from TID programs may take away funding currently eligible for bus and rail operations, if no alternative funding source is identified. These include:
 - Higher bid prices and cost increases due to a tighter labor market and rising demand for goods
 - Project cost overruns due to scope and schedule changes, and additional close out risks
 - Limited options and funding for cost increases on underground projects
 - Additional debt issuances must be repaid with interest

Other Programs Indirectly Impacting Metro Transit Funding

- Metro utilizes resources for a wide range of activities that support the goal of delivering improved mobility, sustainability, and financial and technical support to Metro's partners throughout the Los Angeles County region
- Programs that do not have sufficient dedicated funding and indirectly compete with Metro Transit for funds include:
 - Metro's Bike and Active Transportation program
 - Operating and maintaining Union Station
 - Affordable housing and joint development efforts
 - Other projects without dedicated funding
- These programs are estimated to grow at a 4.6% average annual rate over the next five years, outpacing sales tax growth of 2.6%

Next Steps

- Metro will continue utilizing the EZBB process to develop the FY25 budget given the near-term outlook challenges
 - Strengthen cost controls and balance the budget by staying within our cost & equity parameters
 - Evaluation of pilot programs based on aligned strategic imperatives and priorities
 - Partner with the Board of Directors to identify mitigation strategies

Near-Term Outlook

Forecasting and Mitigation

Outreach

Early, comprehensive and thorough outreach plan

Equity Review

Equity process through EFC assessment and MBEAT

Financial and Cost Management

Cost control task forces and mitigation and financial accountability through quarterly reviews

Holistic Program Reviews

Program reviews to promote collaboration on prioritization and trade-offs

- The CEO will make prioritization and trade off recommendations to the Board going into the FY25 budget development process
- Regular budget briefings will also be provided to the Board while integrating feedback for the final FY25 Budget approval in May 2024

Putting People First

WC: There may be opportunity to improve return-to-work rate, accelerate implementation of captive insurance structure, and contract with MPN

Enhancing return-to-work programs could present \$3.3-6.8M potential impact

Return-to-work rate, % of employees

In 2021-2022, ~55% of urban transit systems employees returned to work **within 30 days after injury**

Implementing captive insurance structure could present \$4.3-6.3M potential impact

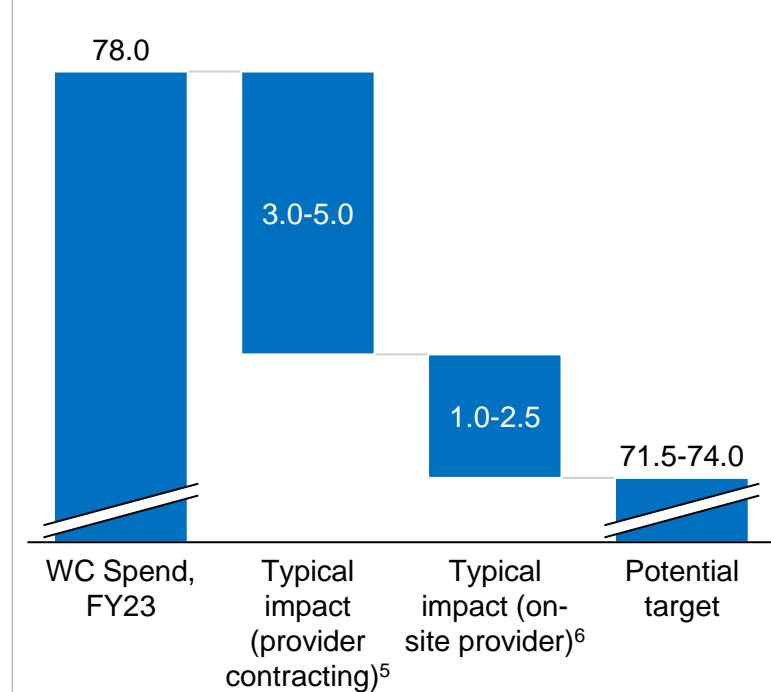

Total cost of insurance, % of premium

Typical captives can save **20-30%** of commercial insurance premium cost, translating to **\$4.5-6.5M** annually at the size of LA Metro general liability cost before transitional pilot cost

Contracting with Medical Provider Network could present \$4.0-7.5M potential impact

Workers' Compensation spend, \$M

Source: LA Metro Discussions in December 2023 and January 2024, LA Metro data, external expert interviews

1. Based on 2021-2022 Bureau of Labor statistics survey of Occupational Injuries and Illnesses Data for Urban Transit Systems (NAIC 4851), including mixed mod transit, commuter rail, bus transit systems; does not include inter-urban and rural bus transportation (NAIC 4852), taxi and limousine services (NAIC 4853), or school and employee bus transportation (NAIC 4854)
2. Based on interview. Currently return-to-work dates are not easily accessible by Operations. There are ~50 employees participating in transitional duty (<10%), out of 650+ employees on occupational leave
3. Estimated based on additional 8-10 case managers, assuming average full-onboarded cost of \$150,000 per FTE, based on LA Metro discussions
4. One-time transitional pilot cost consists of 1 FTE plus additional fees and broker expenses based on LA Metro discussions
5. Calculated using 2023FY Workers' Compensation, assuming 15-25% reduction of the \$20M medical cost based on industry benchmarks for savings from in-network versus out-of-network providers
6. Calculated using 2023FY Workers' Compensation, assuming 2-5% reduction of the \$52M medical and temporary disability payment cost

Increase in insurance costs are reflective of overall market conditions, primarily driven by increase in property and general liability pricing

	Forecasted cost trend for next 5 fiscal years ²	Market pricing trend and drivers	Projected national pricing trend by major broker agencies
Property	20% ¹ <i>Forecasted by LA Metro based on historical experience in the last 5 years</i>	 Continued double-digit increases, driven by increased re-insurance costs, catastrophic losses, and inflation	WTW: 1-10% (non-CAT), 10-25% (CAT) Marsh: 14-19% AON: 11-30%
General liability		 Market pricing increasing moderately, driven by inflationary environment and headwinds from recent large losses	WTW: 1-4% Woodruff Sawyer: 3-8% AON: 1-10% <i>Pricing trends can vary significantly by industry due to risk exposure</i>
Cyber		 Stabilizing market pricing with increased number of companies offering coverage and more capacity available from insurers	WTW: -5% to +5% Marsh: -6% to -4% AON: Flat

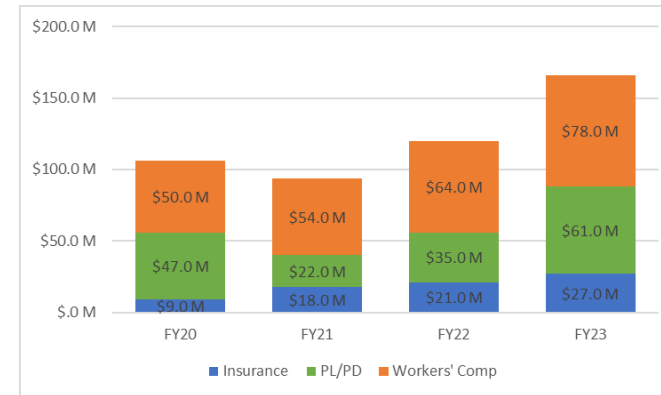

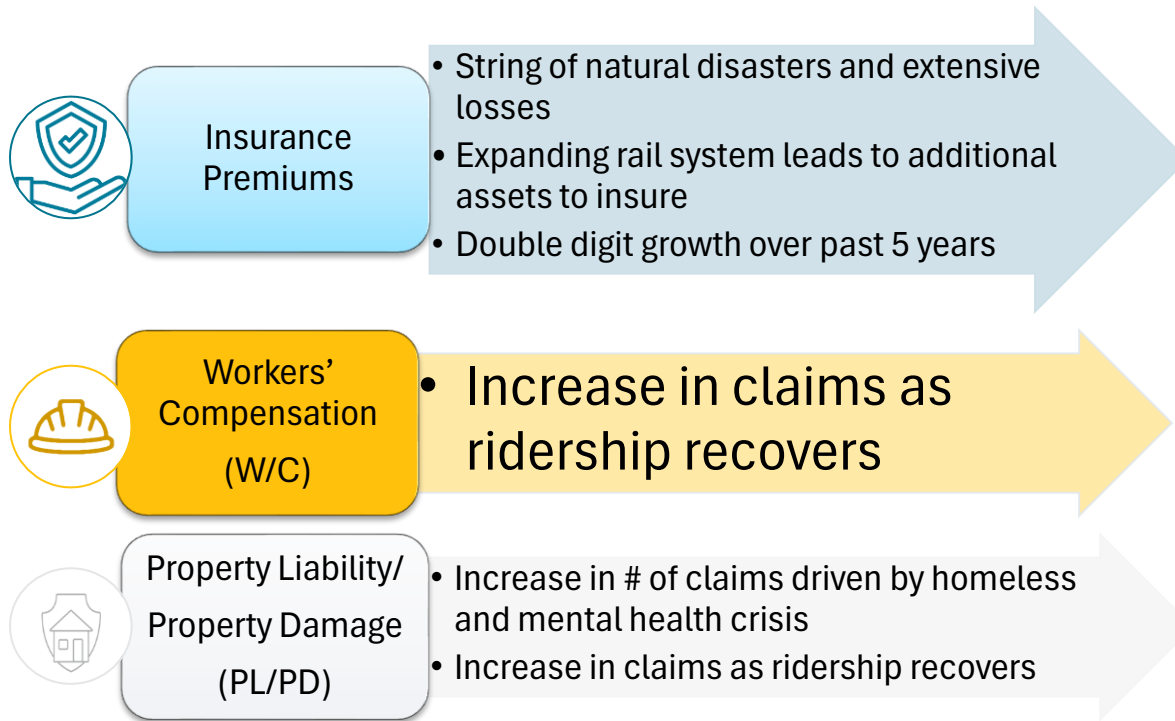

1. LA Metro data on FY24 spend and spend forecast received as of 12/22/23 (RM Programs Costs Analysis 10.27.23 v3 w.o.n..pptx)

2. Projected YoY increase for next 5 years

RISK MANAGEMENT Cost Growth Drivers

8% of Total Metro Operating Costs

Insurance market industry has hardened due to string of natural disasters and extensive losses experienced

Industry trends project **20% increase each year** for next 5 years

RETURN TO WORK Enhance Return to Work Program

Contract with Medical Provider Network

Mitigation Measures: Implemented & Next Steps

Operations and Facility Needs

to support major capital projects

1 New Bus/Rail Operations Control Center

- Division 10 selected as site for building new Bus/Rail Operations Control Center
- Opportunity: make needed upgrades

2 Improve & Centralize Operations Central Instruction (OCI)

- OCI training increased since pandemic
- OCI decentralized with training at multiple locations to accommodate demand
- Benefits of Centralized OCI Campus

3 Countywide Service Support System(C3S): Infrastructure Maintenance & Engineering Decentralization

- Airport Metro Connector **K D C** opening from now to 2028
- Establish a Westside HQ first

Discussion Questions

1. On a scale of 1 to 5, 1 being the most important, rank the strategies you would like Metro to explore to address this area of focus.
2. What other information do you want Metro to provide so you can prioritize this policy decision?
3. Do you have any other policy or strategy ideas you would like Metro to consider on in this area of focus?

Revenue Streams and Strategies

Revenue Sources

Currently, over 100 different funding sources (color of money). Metro's primary source of revenues are sales taxes.

Transit Operations Eligible

Only roughly 30% is available for Transit Operations

Possible Revenue Streams

Advertising & Corporate Sponsorship, Fares, ExpressLanes and Tolling, and Congestion Pricing.

ADVERTISING POLICY: CURRENT & POTENTIAL REVENUES GOVERNED BY METRO POLICIES & STATE LAWS

Policy or CA Law	FY25 Annual Revenue (current)	Policy changes	Timeframe (FY25 - FY28)	 DIFFICULTY
CA Bus & Prof Code §5405.6	\$2.0 M	+ \$35.5 M	24-36 months	
Additional Revenue Opportunities	-	+ \$20.5M	12-24 months	
Commercial Sponsorship	\$2.0 M	+ \$11.0 M	6 months	
System Advertising	\$27.0 M	+ \$4.7 M	3 months	
Total	\$31.0 M	+ \$71.7 M	3-36 months	

INTEGRATED EVENT PROGRAM

Integrated Ticketing Major Events

- OSI, TAP, and CX collaborating to develop integrated ticketing solutions
- To enhance an event goers experience in preparation for Los Angeles' major upcoming events

Why Integrated Ticketing?

- Encourages event goers to choose public transit over driving or car-sharing by offering the convenience of a single ticket for their entire journey
- Enables customers to bundle event and transit tickets in one purchase alongside their concert ticket with parking or shuttle service

Pilot Goals

- Boost transit ridership during special events by offering:
 - › Seamless ticket delivery
 - › Incentives for using public transit
- Grow leisure travel ridership
- Inform LA28 and World Cup Integration Approach

Future Opportunities

Long-term goal to modernize Metro fare payment system in advance of major events

Pursue

- [LA28 Collaboration](#) - Continue collaboration and inclusion in the pilot project team to ensure interoperability with newly selected ticketing partners.
- [Phase 2 SMART Grant](#) – Metro will plan to apply for \$15 M grant for Countywide implementation of integrated ticketing.
- [Open Payments](#) – TAP Plus system upgrades will enable pilots with large-scale event venues which will enable customers to use their credit/debit cards to ride the system.

ExpressLanes & Tolling

I-110 and I-10 Current Facilities

3 Rounds of Net Toll Revenue Grants

- 57 projects funded for \$112M communities within 3 miles of the ExpressLanes

\$79.5 M allocated

- 10 years of incremental transit service Metro J (Silver) Line, Foothill Silver Streak and 699, Gardena Lines 1x and 2, Torrance Line 4

\$20 M to Caltrans

- Highway ITS and Landscaping Improvements along ExpressLanes

Program operating costs: \$35M annually

- staffing, maintenance, back office, account services, and roadside systems

Program Features

- Low Income Assistance Plan
- Non-Revenue Plan
- Transit Rewards Program
- Carpool Loyalty Program

Generate > \$65M annually

Metro

FUTURE

I-105 Project

- 16-mile corridor from I-405 to Studebaker Road just east of I-605
- Construction set to begin fall 2024, segment 1 open by 2028
- Project cost: \$1.0 to \$1.4 Billion

Generate > \$100M annually by 2032

\$5.6B (40 years)

I-405 Sepulveda Pass ExpressLanes and I-10 ExpressLanes Extension

- Draft environmental document scheduled for circulation in late 2024
- Public hearings and extensive public outreach will occur during draft circulation
- Final environmental expected Summer/Fall 2025

Recent and future initiatives

- Pay as you Go (PAYGO)
- Potential HOV2+ to HOV 3+ for Toll Free
- New Transponder Technology (6c transponder to support state interoperability)
- Occupancy Detection System (Video Occupancy Enforcement)

CONSIDER

Increasing share of Net Toll revenues allocated to Metro

Feasibility Study of Congestion Pricing + Reinvestment + Assistance According to Traffic Reduction Study

Estimated Annual Net Revenue

Affordable pricing reduces traffic & gets people moving.

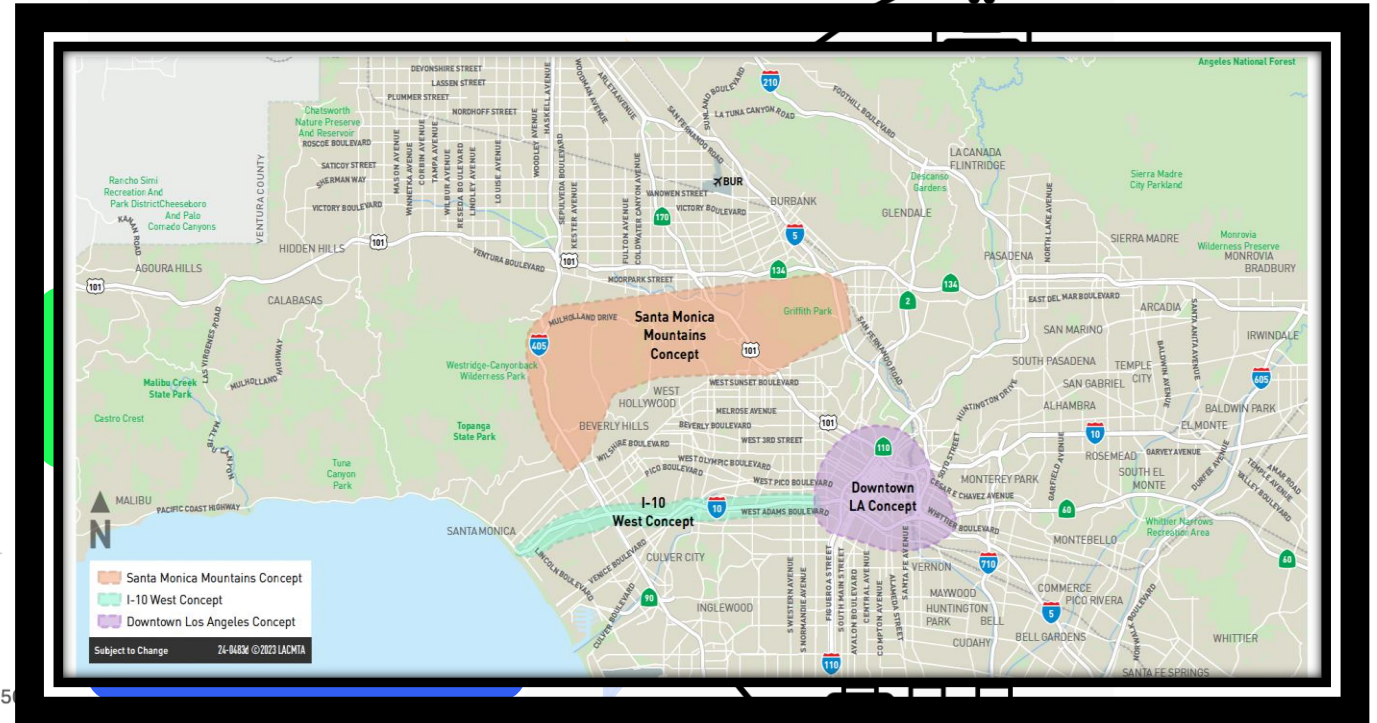

Net revenues are invested into communities to provide improved and new transportation.

Low-income assistance & equity strategies ensure people are not left behind.

Traffic Reduction Study – Concept Overview

Estimated Annual Net Revenue

Expanding access to jobs

6

Study is focused on these potential areas

Which of these new revenue opportunities are you most interested in exploring?

- A. Changes in Advertising Policy
- B. Integrated Ticketing
- C. Direct more net toll revenue to Operations
- D. Continue to study congestion pricing
- E. None of the above

Discussion Questions

1. On a scale of 1 to 5, 1 being the most important, rank the strategies you would like Metro to explore to address this area of focus?
2. What other information do you want Metro to provide so you can prioritize this policy decision?
3. Do you have any other policy or strategy ideas you would like Metro to consider in this area of focus?

Given what you've heard today, which of the five Vision 28 goals are most important?

- A. Provide high-quality mobility options that enable people to spend less time traveling.
- B. Deliver outstanding trip experiences for all users of the transportation system.
- C. Enhance communities and lives through mobility and access to opportunity.
- D. Transform LA County through regional collaboration and national leadership.
- E. Provide responsive, accountable, and trustworthy governance within the Metro organization.

 FY23 \$42.6M
 FY24 \$67.8M

\$216M

Delivered New Rail Infrastructure and Bus Lines

- K-Line - in South Los Angeles and Inglewood
- Regional Connector - in Downtown LA
- Expanded dedicated bus lanes – 51 miles

An Uphill
Climb:

An Uphill Climb: Population decline, Limited Labor Supply

- Population:
 - LA County: -3.1% 2016 to 2022; projected to decline by 0.36% annually to 9.6 million by 2027
 - US: +2.4% 2016 to 2022, projected to increase to 342.5 million by 2027
 - Lowers LA sales tax receipts, tightens labor supply, and reduces transit ridership base
- (Labor supply < Labor demand) = wage growth
- Volatile inflation, between 2.4% to 6.5% month to month in short succession since 2022.
- Creates unpredictable cost increase pressure to procure materials, supplies and services
- Revenue loss and cost increases are greater than originally anticipated

Ridership and Travel Behavior Trends

Daily Vehicle Miles Traveled (in millions)

Ridership remains below pre-COVID due to post pandemic travel behavior:

- 3x more working from home
- Mode Share (Commute) decreasing from 5.7% to 3.8%
- Daily VMT daily reduced by 9.4%
- LA drivers license rate increase from 83% to 86% for eligible residents

Areas of Ridership growth opportunity:

- Customer experience improvements
- Opening additional rail lines
- Weekend services
- Service enhancements in select geographic regions

Near Term Financial Update to Five Year Outlook by FY29

Metro

Resources

Grant

- COVID rescue \$ exhausted
- Grant procedure changed (CMAQ, IJJA) or halted (REAP 2.0)

Sales Tax

- Lower actual sales tax receipts
- Gradual population loss

Fare Rev

- Loss of Transit base:
- Change in post pandemic work and travel behavior

Sales Tax

Ops Expense

Expense

- Reimagined Public Safety
- Station Initiatives/Ambassador
- Homelessness and Opioid Epidemic

- Fare Initiatives Cost:
- GoPass: \$18 million
 - LIFE: \$12 to \$34 million
 - Fare Capping: \$17 million

- Increases Cost of on-going operation caused by high inflation
- Rail operating is more expensive at 27.5% annual increase rate
- Capital Improvement update in Bus/Rail Vehicles

Enhanced CX

Fare Initiatives Costs

Inflation & Expanded Rail Network

Metro Transit Near Term Projected Outlook FY24 - FY29

% Growth FY24 to FY29

ZEB – 60.5%

Metro’s accelerated Board goal of achieving a zero-emission fleet by 2030 puts further strain on funding needs for maintaining existing assets in a state of good repair

Insurance, WC, PL/PD – 11.1%

Insurance premiums, workers’ compensation (WC) and property liability and property damage (PLPD) costs make up 8% of total Metro Operations costs

Public Safety – 6.9%

Public safety costs make up 12% of total Metro Operations with law enforcement costs as the biggest driver (about 61% of total Public Safety)

Service including Expansion – 5.8%

At least one major rail opening per year for next 5 years leading up to the Olympics.

Cleaning – 5.5%

Station Innovation Experience & Strategy

Labor Costs – 5.5%

Union labor costs have had a historical growth of 5.6% per year from FY12-FY24 while average CPI increase over the same period has been 2.8%

Cost Inflation – 3.5%

Metro preliminary cost inflation projection

Sales Tax – 2.6%

Economy is volatile and sales tax revenues may decline

“MTA And The
End Of The
Consent Decree |
Laist”

- Metro is undergoing a major rail expansion with the anticipated opening of Foothill Phase 2B, Airport Metro Connector, Purple Line Extensions 1, 2, and 3

What is your favorite ice cream flavor?

- A. Chocolate
- B. Vanilla
- C. Strawberry
- D. Coffee
- E. Pistachio

PULSE CHECK

In 2018 the Board adopted Vision 2028 with five goals. Which of these is most important to you? **You can only choose one.**

- A. Provide high-quality mobility options that enable people to spend less time traveling.
- B. Deliver outstanding trip experiences for all users of the transportation system.
- C. Enhance communities and lives through mobility and access to opportunity.
- D. Transform LA County through regional collaboration and national leadership.
- E. Provide responsive, accountable, and trustworthy governance within the Metro organization.

Metro

General trends in urban transit

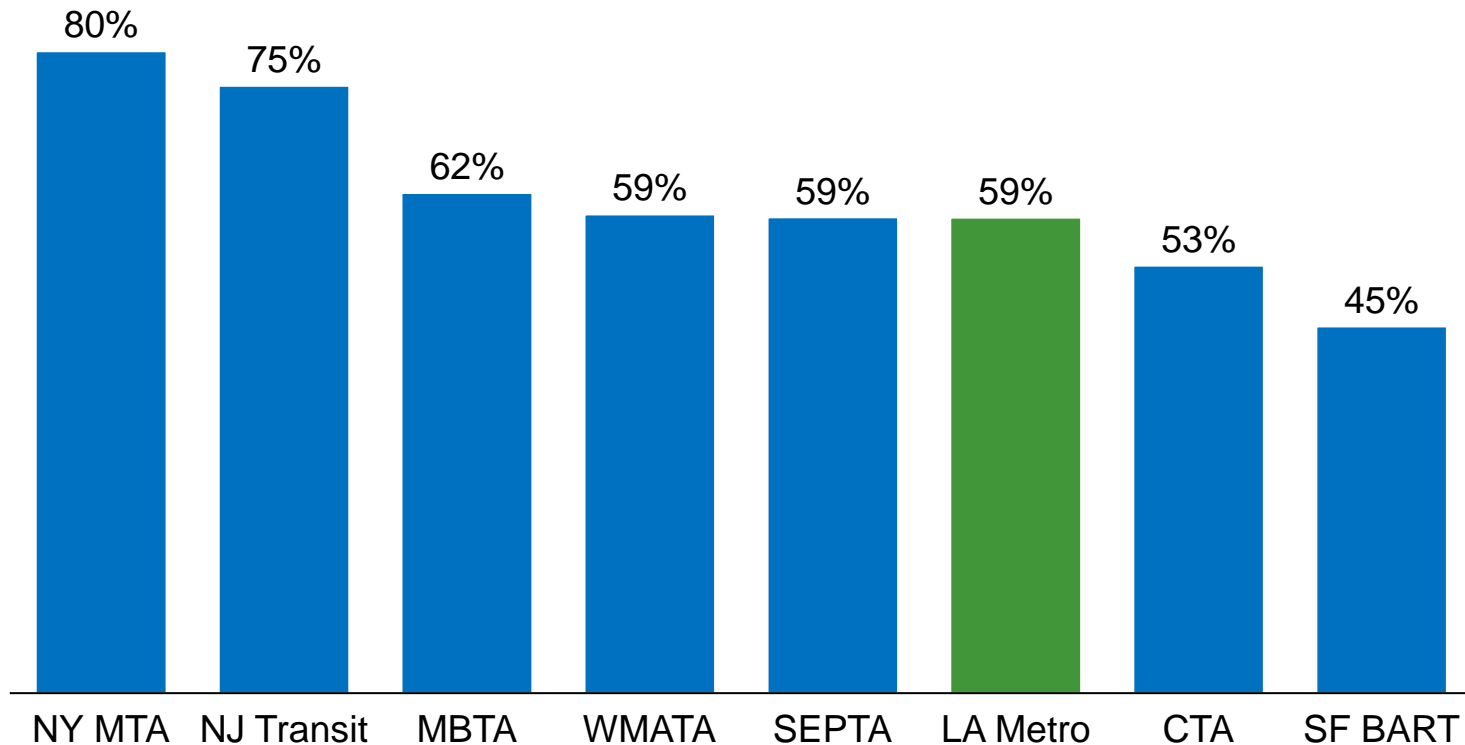

LA Metro Board Retreat

March 2024

Agencies nation-wide have been experiencing headwinds and declines in ridership since 2008

2023 ridership recovery as a % of 2008 ridership, (%)¹

1. Recovery in unlinked passenger trips (no adjustments or estimates) and service levels, in comparison to 2008. Peer set includes transit agencies that have the highest ridership in the nation, and similar modes as LA Metro – these include MBTA, NY MTA, NJ Transit, SEPTA, WMATA, CTA, BART

Source: National Transit Databased (accessed in March '24), [SmartCitiesDive](#), McKinsey Global Institute analysis, FHWA Traffic Volume Trends analysis

Factors leading to decreased ridership

~20% p.a.

Growth in number of US ridesharing trips from major providers

3.5 days

Expectation for in-office presence for office workers in new hybrid environment

2.1%

Increase in roadway travel in the US in 2023

Although ridership has decreased; costs have risen; as agencies adapt to meet evolving ridership needs

OpEx by vehicle revenue miles (VRM)¹ across leading transit agencies, (\$ per VRM), 2008-22

~15%

Increase in point-to-point trips outside of the urban core versus pre-pandemic period

~30%

Typical increase in capital project cost for public sector agencies compared to original estimates

1. Annual total operating expense by the annual vehicle revenue miles (VRM) at an agency level, in comparison to 2008. Peer set includes transit agencies that have the highest ridership in the nation, and similar modes as LA Metro – these include MBTA, NY MTA, NJ Transit, SEPTA, WMATA, CTA, BART

Source: National Transit Databased (accessed in March '24), McKinsey Insights "[Winning ridership for the next normal](#)", [LA Times](#), [UCLA - Vehicle Ownership Trends and Their Implications for Transit Ridership](#); Industry experts

Leading agencies are using this moment of change to transform how they deliver service to the community

01. Environmental Sustainability

ZEB

Metro's Path to Zero Emission

Reduce VMT

Goals to reduce VMT and Greenhouse Gas Emissions

Mega Events

Opportunity to optimize ridership this with LA's mega sporting events by increasing mode shift to transit

Zero Emission Bus (ZEB)

CA 2040 Mandate

Capital Cost Increase

The implementation of the zero-emission bus program is a significant capital cost to meet the State of California's 2040 mandate for eliminating the use of hydrocarbon fueled buses

Grant Funding

Secured

Only 9% funding secured in grants to date for a total program requiring more than \$4.3B

Budget Impact

CIP Program

13% | to | 57%

In FY24, electrification makes up 13% of the total CIP program; that would need to grow to be 57% over the next five years to meet the 2030 goal

Metro's Near-Term Outlook

Forecast

Assumes an accelerated goal of achieving a zero-emission fleet by 2030, which includes procuring zero-emissions Battery Electric Buses (BEB) and related electric charging infrastructure

Converting to ZEB in 2030 requires ~15-25% of future supply, based on OEM ability to scale

North America electric bus production, K units

LA Metro annual orders, % total production - BYD/NFI Group production

ZEB 2030	0	0	0	14 - 25%	14 - 24%	14 - 23%	14 - 21%
ZEB 2035	0	0	0	5 - 10%	5 - 9%	6 - 10%	6 - 9%

¹ Declared bankruptcy in November 2023; assets were purchased by a small EV manufacturer Phoenix Motorcars

Source: LA Metro Discussions in December 2023 and January 2024, LA Metro procurement data, I.H.S. Markit

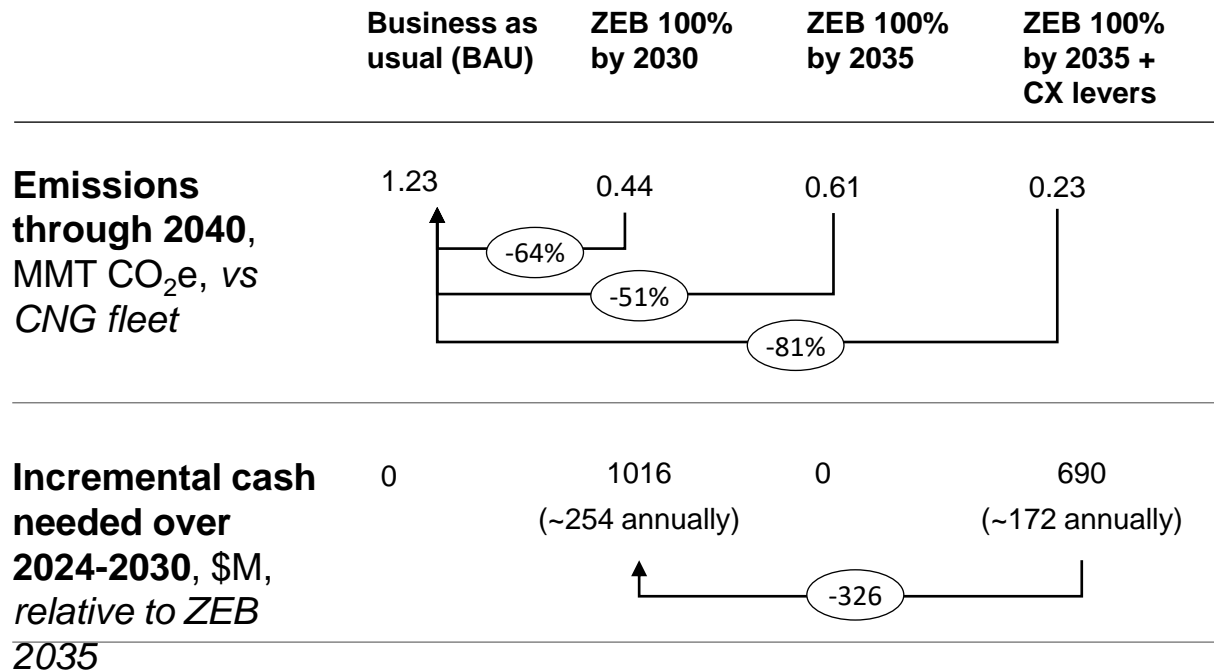

Select insights

BEB supply projected to grow at 46% p.a. through 2027 as OEMs scale to meet market demand

BEBs primarily available for LA Metro from two suppliers due to no contract bids from Gillig and Proterra supply uncertainty, **reducing the available supply by ~60%**

14-25% of primary supplier annual production required to achieve ZEB 2030 vs 5-10% for ZEB 2035, due to larger annual orders in quicker transition

Converting to ZEB in 2035 may present cashflow to improve CX levers, leading to additional emission reduction compared to 2030 timeline

Investing in ZEB 2035 with prioritized CX levers could lead to **~81% emission reduction** compared to business-as-usual scenario

The cash flow needed for CX levers could be offset by increased cash flow availability from slower transition, i.e. ZEB 2035 vs ZEB 2030

Opportunities with 2035 target (Ridership Building)

Ridership Building

- Improving bus ridership is a more effective way to reduce emissions
- Metro contributes a small portion to the county's transportation sector emissions
- Investing a portion of ZEB 2035's cash flow into CX efforts could raise ridership by 10% to 13% which outperforms the 2030 ZEB emissions impact by 2.8x

Operational Stability

- BEB Reliability
- Supply Availability
- Technology and Cost Improvements
- Hiring Surge for BEB Commissioning
- Legacy Events
- Staff Training & Capacity Building
- Accelerated Retirement

Operational
Stability

Would you rather...

- A. Advance the zero emission ZEB program in 2030?
- B. Continue investments in speed and reliability, cleanliness, and security improvements?

Reducing VMT – Opportunity to make LA “Transit-First” Culture

Games Time

- “Transit-first” Games (**LA’s goal**)
- Restricted parking and increased enforcement
- Bus lines connect the four sports parks (**LA’s strategy**)

Legacy

- 40 projects
 - Station upgrades, rail line capacity improvements, new rail vehicles, and first/last mile
 - Implemented 75 miles of BRT
 - Constructed 20 miles of rail

By the Numbers

15%

of Londoners permanently changed their travel behavior after the 2012 Games

Ridership increases 2 years after 2016 games

35% BRT **117%** Rail

Metro

- **Current mode split:** Transit/ walking/biking averages 10% (major LA venues)
- **2028 Games:** opportunity to show people how to get around LA via transit

2028 Games-Time Mode Split Assumptions for Modeling

Venue(s)	Car/ Rideshare %	Transit/ Walk/Bike %
Downtown LA	22%	78%
USC/Expo Park	37%	63%
Sepulveda Basin	32%	68%
Carson	37%	63%
Long Beach	32%	68%
Inglewood	47%	53%
Santa Monica	27%	73%
Frank G Bonelli Park	17%	83%
Pasadena	40%	60%

One Car Challenge Pilot

One Car Challenge Pilot Program

Initial Results: Treatment Group

- 4.5X more likely to NOT drive additional car
- Reduced VMT
- Traded Driving for Transit, Walking and Biking

Discussion Questions

1. On a scale of 1 to 5, 1 being the most important, rank the strategies you would like Metro to explore to address this area of focus.
2. What other information do you want Metro to provide so you can prioritize this policy decision?
3. Do you have any other policy or strategy ideas you would like Metro to consider in this area of focus?

02. Universal Basic Mobility

Universal mobility means that everyone –

No matter their age, ability, location, and socioeconomic status — can access transportation options that will get them anywhere they need to go.

Increase Access to Opportunities by making it Safe, Clean, and Affordable

Reduces Inequality and Promotes Equity/Dignity

Metro®

Customer Experience Priorities

2022 Top 5 Aspects Customers Want Metro to *Improve*

RAIL

BUS

Customers notice when we don't invest in maintaining our system.

Cleanliness	67% NOT satisfied with cleanliness inside the train station	69% NOT satisfied with cleanliness inside the train
Safety	63% NOT satisfied with safety from crime on Metro rail	59% NOT satisfied with enforcement of Metro Rail rules

2022 Customer Experience Survey

And respond well when we do.

In 2023, we:

- Launched the Metro Ambassador program
- Increased security and law enforcement presence
- Increased homeless outreach teams
- Increased M&E HelpDesk staffing
- Deployed custodial staff to high incident areas

This helped increase our ridership:

11.6%
from 2022 to 2023

How do we succeed?

Our Customer Promise

We want to be your ride and we know we need to earn it. We promise to listen to you, learn from you, and improve for you.

We need to *make it...*

Safe

provide customers with secure, safe, and uneventful trips.

Clean

maintain a clean environment for customers.

Comfortable

enhance customer enjoyment of riding the system.

Reliable

get customers where they want to go quickly and reliably.

Easy

provide customers with simple, accurate, and timely information.

FARE PROGRAMS: Equality v. Equity

Provides benefit equally

Equality

Provides benefit to those in need

Equity

Fare Compliance

PUBLIC SAFETY SECURITY COSTS

Actual
FY18 to FY23

12%

Public Safety

Costs have increased 12% from FY18 to FY23, due to newly formed programs (Transit Ambassadors, Homelessness) and increases in Law Enforcement.

\$870M

Law Enforcement

Last five-year contract value of \$870M.

9% - 12.1%

Operating Funds

4% increase in Ops. eligible funds used for Public Safety from FY18 to FY23, driven mostly by the multi-agency contract and new programs.

Forecast
FY24 to FY27

8%

Public Safety

Costs are anticipated to rise 8% from FY24 to FY27, driven mostly in Metro Transit Security.

\$1.5B

Law Enforcement

An estimated \$1.5B for next five years based on the historical cost growth by continuing existing practice.

12%+

Operating Funds

Shift in allocating the operating budget towards public safety. A substantial change in resource distribution to ensure public safety.

SEEKING

Cost effective solutions
Long-term planning
Performance review
Optimizing resource allocation

REIMAGINING PUBLIC SAFETY

Multi-Layered Approach

Personnel

- Homeless Outreach & Mental Health Teams, **\$168M**
- Contract Security, **\$281M**
- Transit Security, **\$391M**
- Law Enforcement Services, **\$1.5B**
- Transit Ambassador Program, **\$129M**

Infrastructure Improvements

Tech & Innovation Investments

- Next Gen Speed & Reliability upgrades
- Improvements in:
 - Elevators, Escalators
 - Bus Stop Lighting, & Cameras

Service

Customer Experience

- Expanded cleaning efforts
- Bus stop & Station cleanliness
- Westlake McArthur Park Station Pilot
- Expanded customer service hours
- Upgrades to signage & wayfinding

STATION EXPERIENCE (SX)

BACKGROUND, PROCESS & PRIORITIZATION OF WORKS

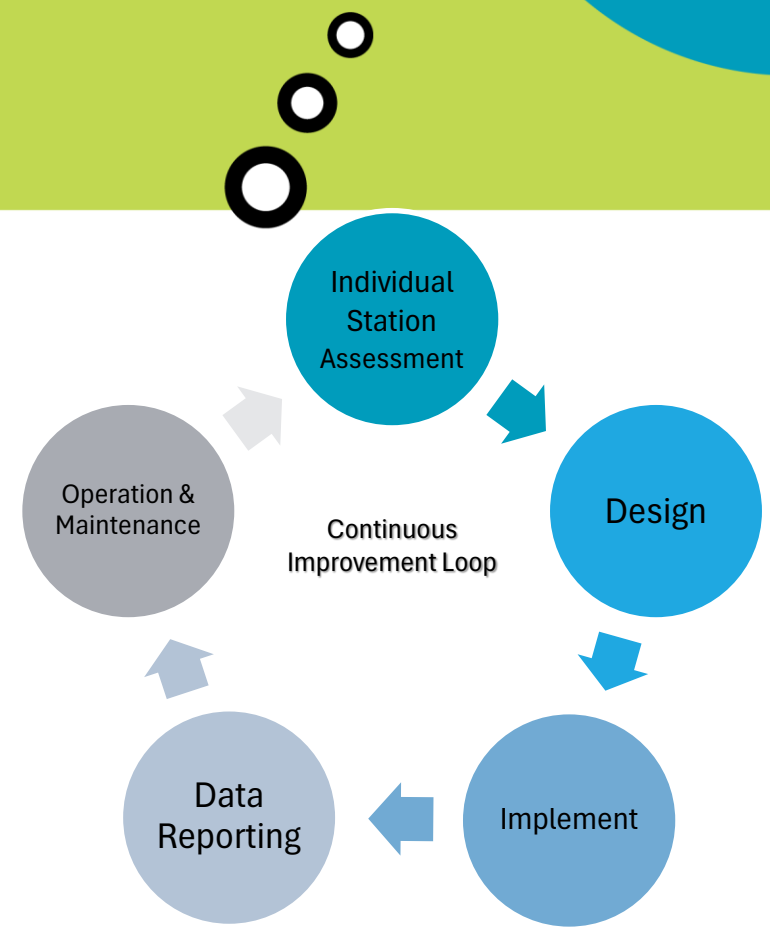

Westlake/MacArthur Park

- Dramatic reduction in crime / illicit activity,
- Improvement in rider satisfaction
- Operational savings from Station Experience Ecosystem

Schedule to expand strategies to other stations driven by the level of intervention assessments

Prioritization criteria

- Geographical equity + focus on Equity Focus Communities
- Historical station evaluation scores
- Reported crime, citations, warnings
- Customer care complaints
- Observations of people experiencing homelessness

Environmental Design Interventions *paired with* Care-Based Strategies

- Lighting / Ambient Music / Fresh Airflow
- Rightsize public spaces to improve access control and promote natural surveillance
- Faregates / Access Control
- Safe, clean, and reliable public restrooms
- Elevator Safety
- Small Scale Retail / Community Programming
- TAP Blue Shirt Ambassadors
- LIFE Pop-Ups
- Dept. of Health Services Mobile Health Clinic
- Homeless Outreach teams
- Metro Ambassador teams
- Crisis interventionists
- Substance abuse counselors
- Security
- Law Enforcement

RESOURCES NEEDED TO DELIVER IMPROVEMENTS \$100-\$120M w/ escalation

- Targeted Capital Improvements to Address 150+ Rail Stations & Bus Transit Centers
- 20 New FTE hires to support Rollout
- Other Depts supporting SX projects

Financial Impact

- One-Time Capital: \$75-90M
 - Labor: \$25-30M
- (Pending individual station assessments)*

Metro

Operational Savings, Safety & CX Improvements

- Cost Savings, Non-Monetary & Societal Benefits
- Improved consistency in custodial coverage
- Fewer calls for emergency service (police, fire)
- Fewer passenger delays & service disruptions
- Reduction in visible & traumatic incidents
- Paid faregate entries **+101% increase**
- Loitering/illicit activity **-95% reduction**
- Elevator downtime **-83% reduction**
- Vandalism/clean-ups **-60% reduction**
- Public urination/defecation **-50% reduction**
- Medical emergencies **-40% reduction**

Traditional reactive solutions DO NOT address root causes & increase recurring costs

- Elevators- shattered glass replacement **\$1M+/year**
- Custodians - address inappropriate activity- takes away from routine duties
- Illicit activity & emergency responses- impact riders, service & agency
- Traditional around-the-clock policing - similar results could exceed **\$15M+/year/station**

Of the five-customer experience focus areas, which one do you think is the most important?

- A. Make it Safe
- B. Make it Clean
- C. Make it Comfortable
- D. Make it Reliable
- E. Make it Easy (Includes Affordability)

Discussion Questions
